BellSouth Telecommunications, Inc.

And

DS0 SERVICES AGREEMENT

GENERAL TERMS AND CONDITIONS

THIS DS0 SERVICES AGREEMENT ("Agreement") is made by and between BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, and ("CUSTOMER"), a Kentucky corporation, and shall be effective on the Effective Date, as defined herein. This Agreement may refer to either BellSouth or CUSTOMER or both as a "Party" or "Parties."

WITNESSETH

WHEREAS, BellSouth is a local exchange telecommunications company authorized to provide Telecommunications Services in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee; and

WHEREAS, CUSTOMER is or seeks to become a Competitive Local Exchange Carrier ("CLEC") authorized to provide Telecommunications Services in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee; and

WHEREAS, BellSouth desires to provide and CUSTOMER desires to purchase certain Services;

NOW, THEREFORE, in consideration of the mutual agreements contained herein, BellSouth and CUSTOMER agree as follows:

Definitions

Affiliate is defined as a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term "own" means to own an equity interest (or equivalent thereof) of more than 10 percent.

Commission is defined as the appropriate regulatory agency in each state of BellSouth's nine-state region (Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee).

Competitive Local Exchange Carrier ("CLEC") means a telephone company certificated by the Commission to provide local exchange service within BellSouth's franchised area.

Effective Date is defined as the date that the Agreement is effective for purposes of rates, terms and conditions and shall be effective January 1, 2005. Future

amendments for rate changes will be effective thirty (30) days after the date of the last signature executing the amendment.

End User means the ultimate user of the Telecommunications Service.

FCC means the Federal Communications Commission.

General Terms and Conditions means this document including all of the terms, provisions and conditions set forth herein.

Telecommunications means the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.

Telecommunications Service means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

Telecommunications Act of 1996 ("Act") means Public Law 104-104 of the United States Congress effective February 8, 1996. The Act amended the Communications Act of 1934 (47 U.S.C. Section 1 et. seq.).

1. Scope of this Agreement

- 1.1 This Agreement sets forth the obligations of each Party with respect to BellSouth's provision of certain services, as described herein, to CUSTOMER ("Service(s)").
- 1.2 Notwithstanding Section 23 below, the Parties acknowledge that this Agreement is intended to be governed by the provisions of 47 U.S.C. §§ 201, 202 and 271. The Parties acknowledge that this Agreement is subject to the exclusive jurisdiction of the FCC. To the extent any other regulatory agency seeks to exert jurisdiction over this Agreement, any entity seeks to have any other regulatory agency exert jurisdiction over this Agreement, or any entity seeks to subject this Agreement to any rates, terms, or conditions not specified herein, BellSouth shall have the right to terminate this Agreement upon fifteen (15) days notice to CUSTOMER.

2. CLEC Certification

2.1 Prior to execution of this Agreement, CUSTOMER agrees to provide BellSouth in writing CUSTOMER's CLEC certification for all states covered by this Agreement except Kentucky. Should CUSTOMER's certification in any state be rescinded or otherwise terminated, BellSouth may, at its election, terminate this Agreement immediately and all monies owed on all outstanding invoices shall become due, or BellSouth may refuse to provide Services hereunder in that state until certification is reinstated in that state. CUSTOMER shall provide an effective

certification to do business, as issued by the Secretary of State, or equivalent authority, in each state covered by this Agreement.

To the extent CUSTOMER is not certified as a CLEC in any state covered by this Agreement as of the execution hereof, CUSTOMER may not purchase Services under this Agreement in that state. CUSTOMER will notify BellSouth in writing and provide CLEC certification when it becomes certified to operate in any other state covered by this Agreement and, upon receipt thereof, CUSTOMER may thereafter purchase Services pursuant to this Agreement in that state.

3. Term and Termination of the Agreement

- 3.1 The term of this Agreement shall commence on the Effective Date and shall apply to the BellSouth territory in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee. It shall continue in effect thereafter until December 31, 2007.
- The Parties agree that no earlier than one hundred eighty (180) days and no later than one hundred twenty (120) days prior to the expiration of this Agreement, they may mutually agree to commence negotiations for a new agreement to be effective beginning on the expiration date of this Agreement. Alternatively, the Parties shall develop a transition plan to ensure a full transition of all Services on December 31, 2007. In the event the Parties are unable to agree upon a transition plan, BellSouth may, at its discretion, terminate all or any of the Services at any time after December 31, 2007. In such event, the rates, terms and conditions hereof shall continue to apply to such Services after December 31, 2007, to the date such Services are actually terminated.
- 3.3 In addition to as otherwise set forth in this Agreement, BellSouth reserves the right to suspend or terminate Service in the event of prohibited, unlawful or improper use of BellSouth facilities or service, or abuse of BellSouth facilities.
- Except as set forth in Attachment 3 regarding failure to pay for Services, if either Party breaches or defaults on any of the terms, conditions, or covenants of this Agreement, the other Party shall give the breaching Party written notice of such breach or default. If such breach or default is not cured within ten (10) days after such written notice, then in addition to all other rights and remedies at law, in equity or otherwise, the non-breaching Party may terminate this Agreement without any charge, obligation, or liability whatsoever for such breach, except for payment for Services rendered.
- 3.5 Upon BellSouth's termination of this Agreement as specified in this Section, applicable damages shall be assessed, and CUSTOMER shall be liable for such charges. Upon termination of this Agreement the terms and conditions of this Agreement shall continue to apply for all Services until the date such Services are

01/13/05

actually transitioned from this Agreement, or the date that BellSouth specifies for the completion of the transition, whichever is earlier, ("Transition Period"). CUSTOMER shall not be entitled to place any orders for the purchase of Services or make any changes to the Services other than transitioning the Services from this Agreement during the Transition Period. At BellSouth's discretion, the rates for 2007 shall apply to all Services during the Transition Period unless such rates have otherwise been applied through imposition of the damages pursuant to Section 9.

4. Conversion of Embedded Base

- 4.1 If, as of the Effective Date of this Agreement, CUSTOMER has existing DS0 port/loop combinations or DS0 switch ports purchased pursuant to another agreement with BellSouth, the execution of this Agreement constitutes CUSTOMER's request to transition all such DS0 port/loop combinations and DS0 switch ports to the applicable Service provided under this Agreement. A Local Service Request ("LSR") is not required and conversion charges do not apply to the conversion of the embedded base as of the Effective Date of the Agreement.
- 4.2 Any amounts owed pursuant to any prior agreement between the Parties for any DS0 port/loop combinations and DS0 switch ports, or other associated charges related thereto, shall be due and owing under the prior agreement.
- Any orders placed under any prior agreement between the Parties for DS0 port/loop combinations and DS0 switch ports, not provisioned prior to the Effective Date hereof, shall be provisioned under and governed by the terms of this Agreement as of the Effective Date hereof as if such orders were placed under this Agreement.

5. Rates

CUSTOMER shall pay the rates set forth in Exhibit A of Attachment 1 of this Agreement in addition to any other charges specifically set forth in this Agreement. If no rate is set forth for a Service in this Agreement then BellSouth's tariff rates shall apply. If no tariff rate exists, then BellSouth shall not be required to provide such Service until a rate has been established between the Parties. In the event that BellSouth is unable to bill the applicable rate under this Agreement for any Services provided pursuant to this Agreement, BellSouth reserves the right to back-bill CUSTOMER for such rate or for the difference between the rate actually billed and the rate that should have been billed pursuant to this Agreement. The Net Effective Rates set forth in Exhibit A to Attachment 1 hereof reflect discounts for DS0 Wholesale Local Voice Platform Services for Mass Market as follows: 2004 - \$7; 2005 - \$4; 2006 - \$2 ("Transitional Discounts").

6. Service Level Commitment

Upon the Effective Date of this Agreement, BellSouth's performance under this Agreement shall be governed by the service level commitments set forth in this Agreement ("SLCs"). Except as otherwise stated herein, as of the Effective Date hereof, BellSouth's performance of this Agreement shall not be subject to any service quality measurement ("SQM") plan, payments of remedies in any selfeffectuating enforcement mechanism ("SEEM") plan or any other penalty plan, performance plan or other similar requirements imposed by a Commission or the FCC. In the event a Commission or the FCC determines that Services provided pursuant to this Agreement are subject to any penalty payment, remedy or service level measure not incorporated in this Agreement, CUSTOMER, within thirty (30) days of a request from BellSouth, shall reimburse BellSouth for any such penalty or other remedy paid by BellSouth to CUSTOMER. In the event a Commission or the FCC determines BellSouth is not entitled to reimbursement of such payment, or BellSouth is required to pay any penalty, remedies or other such payments to a Commission or the FCC, then upon BellSouth's request, the Parties shall negotiate an amendment to the prices for Services hereunder. The amended prices shall be applied retroactively to the date the SQM/SEEMs, or other penalty or performance plan, is deemed to have applied to the Services set forth herein. As of the date the amended prices are applicable to this Agreement, BellSouth shall no longer be responsible for measurement of, or payments associated with, the SLCs described in Attachment 4. Further, CUSTOMER shall reimburse BellSouth in an amount equal to the total payments from BellSouth associated with such SLCs paid as of the date such amended prices are applicable. If the Parties are unable to reach an agreement and execute an amendment within thirty (30) days after BellSouth's request, BellSouth may terminate this Agreement in any affected state(s) upon fifteen (15) days written notice to CUSTOMER. SLCs and consequences for failure to maintain SLCs are as set forth in Attachment 4 of this Agreement.

7. Commitment

CUSTOMER will purchase all DS0 port/loop switching combinations and DS0 switch ports, or any other services or facilities that have the same or similar function as the DS0 Wholesale Switch Port Services or the DS0 Wholesale Local Voice Platform Services, provided by BellSouth only pursuant to this Agreement. CUSTOMER will not purchase DS0 port/loop combinations or DS0 switch ports, or any other services or facilities that have the same or similar function as the DS0 Wholesale Switch Port Services or the DS0 Wholesale Local Voice Platform Services, either directly or indirectly, from BellSouth pursuant to any other agreement, tariff, or otherwise, including from a third party provider if BellSouth is the underlying network provider. Notwithstanding the foregoing, this Agreement does not prohibit CUSTOMER from (1) purchasing standalone loops, or resale services under a BellSouth agreement or tariff; (2) purchasing any services from a

third party using the third party's own facilities; or (3) using CUSTOMER's own facilities.

- 7.1 CUSTOMER will not transition to Unbundled Network Element loops, in the aggregate, more than 5% of (i) its Mass Market or Enterprise Market DS0 Wholesale Local Voice Platform Services purchased under this Agreement (including the embedded base described in Section 4.1), and (ii) UNE-P lines or DS0 Wholesale Local Voice Platform Services acquired from third party carriers.
- 7.1.1 In determining whether, at any given point in time, CUSTOMER has met the 5% test set forth in Section 7.1 above, the numerator and denominator shall be calculated as follows:
- 7.1.2 The numerator consists of all lines that have been transitioned to Unbundled Network Element loops from (i) Mass Market or Enterprise Market DS0 Wholesale Local Voice Platform Services purchased under this Agreement (including the embedded base described in Section 4.1) and (ii) Unbundled Network Element Platform lines or DS0 Wholesale Local Voice Platform Services acquired from third party carriers as described in 7.1 above and that at the time the calculation is made are still being served by CUSTOMER using Unbundled Network Element loops purchased from BellSouth.
- 7.1.3 The denominator consists of all lines that at any time prior to the time that the calculation has been made have been ordered by CUSTOMER as (i) Mass Market or Enterprise Market DS0 Wholesale Local Voice Platform Services purchased under this Agreement (including the embedded base described in Section 4.1 and (ii) Unbundled Network Platform lines or DS0 Wholesale Local Platform Services acquired from third party carriers as described in 7.1 above.

8. Audits

BellSouth, in its reasonable discretion and upon no less than ten (10) days notice, may conduct an audit of CUSTOMER's facilities and records to the extent necessary to confirm compliance with Section 7 above. CUSTOMER agrees to cooperate with BellSouth and to provide any information BellSouth reasonably requests to determine compliance. In the event that the audit reveals noncompliance with the terms of Section 7 above, CUSTOMER shall reimburse BellSouth for the costs of the audit and BellSouth shall have the right to terminate this Agreement pursuant to Section 3 hereof. In the event of such noncompliance, CUSTOMER's right to cure pursuant to Section 3 includes the obligation to transfer all non-compliant services to Services under this Agreement, in addition to paying BellSouth the rates set forth in this Agreement for the services that should have been purchased pursuant to this Agreement from the date of the transfer of such services to this Agreement, or the date such service is terminated, whichever is later.

9. Damages

The Parties recognize that in the event of CUSTOMER's breach of this Agreement, damages are difficult, if not impossible, to ascertain, particularly in light of the uncertainty regarding FCC rules and court orders applicable to the Parties and the telecommunications industry. The Parties have included the following terms as a liquidated damages provision pursuant to O.C.G.A. section 13-6-7. Such damages constitute a reasonable estimate of actual damages and are not intended by either Party to be a penalty. Except as otherwise stated herein, neither Party may terminate this Agreement prior to expiration of the term hereof except as expressly permitted elsewhere in this Agreement. If CUSTOMER terminates this Agreement for any reason other than BellSouth's material breach hereof, prior to the expiration hereof, or if BellSouth terminates this Agreement for CUSTOMER's material breach, the total amount of damages due BellSouth shall be the greater of (1) the number of Mass Market and Enterprise Market DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services in service at the time of breach, or (2) the number of Mass Market and Enterprise Market DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services in service at the time of termination, multiplied by, for each month and partial month remaining in the term of the Agreement subsequent to the termination, the applicable fixed monthly recurring charges for such Services that CUSTOMER would have been obligated to pay BellSouth had the Agreement not been terminated. The terms "Mass Market" and "Enterprise Market" are as defined in Attachment 1 of this Agreement.

10. Court Ordered Requests for Call Detail Records and Other Subscriber Information

- 10.1 Subpoenas Directed to BellSouth. Where BellSouth provides the Services for CUSTOMER, BellSouth shall respond to subpoenas and court ordered requests delivered directly to BellSouth for the purpose of providing call detail records when the targeted telephone numbers belong to CUSTOMER's End Users. Billing for such requests will be generated by BellSouth and directed to the law enforcement agency initiating the request. BellSouth shall maintain such information for CUSTOMER End Users for the same length of time it maintains such information for its own End Users.
- 10.2 <u>Subpoenas Directed to CUSTOMER</u>. Where BellSouth is providing to CUSTOMER Services, then CUSTOMER agrees that in those cases where CUSTOMER receives subpoenas or court ordered requests regarding targeted telephone numbers belonging to CUSTOMER's End Users, and where CUSTOMER does not have the requested information, CUSTOMER will advise the law enforcement agency initiating the request to redirect the subpoena or court ordered request to BellSouth for handling in accordance with 10.1 above.

In all other instances, where either Party receives a request for information involving the other Party's End User, the Party receiving the request will advise the law enforcement agency initiating the request to redirect such request to the other Party.

11 Liability and Indemnification

- 11.1 <u>CUSTOMER Liability</u>. In the event that CUSTOMER consists of two (2) or more separate entities as set forth in this Agreement and/or any Amendments hereto, or any third party requests Services under this Agreement using CUSTOMER's codes, all such entities shall be jointly and severally liable for the obligations of CUSTOMER under this Agreement.
- 11.2 <u>Liability for Acts or Omissions of Third Parties</u>. BellSouth shall not be liable to CUSTOMER for any act or omission of another entity providing services to CUSTOMER.

11.3 <u>Limitation of Liability</u>

- 11.3.1 Except for any indemnification obligations of the Parties hereunder, BellSouth's liability to CUSTOMER for any loss, cost, claim, injury, liability or expense, including reasonable attorneys' fees relating to or arising out of any cause whatsoever, whether based in contract, negligence or other tort, strict liability or otherwise, relating to the performance of this Agreement, shall not exceed a credit for the actual cost of the Services not performed or improperly performed. Any amounts paid to CUSTOMER pursuant to Attachment 4 hereof shall be credited against any damages otherwise payable to CUSTOMER pursuant to this Agreement.
- Limitations in Tariffs. CUSTOMER may, in its sole discretion, provide in its tariffs and contracts with its End Users and third parties that relate to any Service provided or contemplated under this Agreement, that, to the maximum extent permitted by applicable law, CUSTOMER shall not be liable to the End User or third party for (i) any loss relating to or arising out of this Agreement, whether in contract, tort or otherwise, that exceeds the amount CUSTOMER would have charged that applicable person for the service that gave rise to such loss and (ii) indirect, incidental or consequential damages. To the extent that CUSTOMER elects not to place in its tariffs or contracts such limitations of liability, and BellSouth incurs a loss as a result thereof, CUSTOMER shall indemnify and reimburse BellSouth for that portion of the loss that would have been limited had CUSTOMER included in its tariffs and contracts the limitations of liability that BellSouth included in its own tariffs at the time of such loss, except to the extent caused by BellSouth's gross negligence or willful misconduct.

- BellSouth shall not be liable for damages to CUSTOMER's terminal location, equipment or End User premises resulting from the furnishing of a Service, including, but not limited to, the installation and removal of equipment or associated wiring, except to the extent caused by BellSouth's negligence or willful misconduct.
- 11.3.4 Under no circumstance shall BellSouth be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or accessories attached thereto, delay, error, or loss of data. In connection with this limitation of liability, CUSTOMER recognizes that BellSouth may, from time to time, provide advice, make recommendations, or supply other analyses related to the Services described in this Agreement, and, while BellSouth shall use diligent efforts in this regard, CUSTOMER acknowledges and agrees that this limitation of liability shall apply to the provision of such advice, recommendations, and analyses.
- 11.3.5 To the extent any specific provision of this Agreement purports to impose liability, or limitation of liability, on BellSouth different from or in conflict with the liability or limitation of liability set forth in this Section, then with respect to any facts or circumstances covered by such specific provisions, the liability or limitation of liability contained in such specific provision shall apply.
- Indemnification for Certain Claims. Except to the extent caused by BellSouth's gross negligence or willful misconduct, BellSouth, its Affiliates, parent company and their employees and agents, shall be indemnified, defended and held harmless by CUSTOMER against any claim, loss or damage arising from CUSTOMER's use of the Services provided under this Agreement pertaining to (1) claims for libel, slander or invasion of privacy arising from the content of CUSTOMER's own communications, or (2) any claim, loss or damage claimed by the End User of CUSTOMER arising from such End User's use or reliance on BellSouth's Services, actions, duties, or obligations arising out of this Agreement.
- Disclaimer. EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, BELLSOUTH MAKES NO REPRESENTATIONS OR WARRANTIES TO CUSTOMER CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, OR FACILITIES PROVIDED UNDER THIS AGREEMENT. CUSTOMER DISCLAIMS, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.

12 Intellectual Property Rights and Indemnification

- No License. No patent, copyright, trademark or other proprietary right is licensed, granted or otherwise transferred by this Agreement. The Parties are strictly prohibited from any use, including but not limited to, in the selling, marketing, promoting or advertising of Telecommunications Services, of any name, service mark, logo or trademark (collectively, the "Marks") of the other Party. The Marks include those Marks owned directly by a Party or its Affiliate(s) and those Marks that a Party has a legal and valid license to use. The Parties acknowledge that they are separate and distinct and that each provides a separate and distinct service and agree that neither Party may, expressly or impliedly, state, advertise or market that it is or offers the same service as the other Party or engage in any other activity that may result in a likelihood of confusion between its own service and the service of the other Party.
- 12.2 Ownership of Intellectual Property. Any intellectual property that originates from or is developed by a Party shall remain the exclusive property of that Party. Except for a limited, non-assignable, non-exclusive, non-transferable license to use patents or copyrights to the extent necessary for the Parties to use any facilities or equipment (including software) or to receive any Service solely as provided under this Agreement, no license in patent, copyright, trademark or trade secret, or other proprietary or intellectual property right, now or hereafter owned, controlled or licensable by a Party, is granted to the other Party. Neither shall it be implied nor arise by estoppel. Any trademark, copyright or other proprietary notices appearing in association with the use of any facilities or equipment (including software) shall remain on the documentation, material, product, service, equipment or software. It is the responsibility of each Party to ensure at no additional cost to the other Party that it has obtained any necessary licenses in relation to intellectual property of third parties used in its network that may be required to enable the other Party to use any facilities or equipment (including software), to receive any service, or to perform its respective obligations under this Agreement.
- 12.3 Intellectual Property Remedies
- 12.3.1 <u>Indemnification</u>. The Party providing a Service pursuant to this Agreement will defend the Party receiving such Service or data provided as a result of such Service against claims of infringement arising solely from the use by the receiving Party of such Service in the manner contemplated under this Agreement and will indemnify the receiving Party for any damages awarded based solely on such claims in accordance with Section 11 preceding.
- 12.3.2 <u>Claim of Infringement</u>. In the event that use of any facilities or equipment (including software), becomes, or in the reasonable judgment of BellSouth is likely to become, the subject of a third party claim, action, suit, or proceeding based on intellectual property infringement, then BellSouth shall have the right to terminate, upon reasonable notice, this Agreement with respect to use of, or Services

provided through use of, the affected facilities or equipment (including software), but solely to the extent required to avoid the infringement claim.

- Exception to Obligations. Neither Party's obligations under this Section shall apply to the extent the infringement is caused by: (i) modification of the facilities or equipment (including software) by the indemnitee; (ii) use by the indemnitee of the facilities or equipment (including software) in combination with equipment or facilities (including software) not provided or authorized by the indemnitor, provided the facilities or equipment (including software) would not be infringing if used alone; (iii) conformance to specifications of the indemnitee which would necessarily result in infringement; or (iv) continued use by the indemnitee of the affected facilities or equipment (including software) after being placed on notice to discontinue use as set forth herein.
- 12.3.4 <u>Exclusive Remedy</u>. The foregoing shall constitute the Parties' sole and exclusive remedies and obligations with respect to a third party claim of intellectual property infringement arising out of the conduct of business under this Agreement.

13 Proprietary and Confidential Information

- Proprietary and Confidential Information. It may be necessary for BellSouth and CUSTOMER, each as the "Discloser," to provide to the other Party, as "Recipient," certain proprietary and confidential information (including trade secret information) including but not limited to technical, financial, marketing, staffing and business plans and information, strategic information, proposals, request for proposals, specifications, drawings, maps, prices, costs, costing methodologies, procedures, processes, business systems, software programs, techniques, customer account data, call detail records and like information (collectively the "Information"). All such Information conveyed in writing or other tangible form shall be clearly marked with a confidential or proprietary legend. Information conveyed orally by the Discloser to Recipient shall be designated as proprietary and confidential at the time of such oral conveyance, shall be reduced to writing by the Discloser within forty-five (45) days thereafter, and shall be clearly marked with a confidential or proprietary legend.
- 13.2 <u>Use and Protection of Information</u>. Recipient agrees to protect such Information of the Discloser provided to Recipient from whatever source from distribution, disclosure or dissemination to anyone except employees of Recipient with a need to know such Information solely in conjunction with Recipient's analysis of the Information and for no other purpose except as authorized herein or as otherwise authorized in writing by the Discloser. Recipient will not make any copies of the Information inspected by it.
- 13.3 <u>Exceptions</u>. Recipient will not have an obligation to protect any portion of the Information which:

01/13/05

- 13.3.1 (a) is made publicly available by the Discloser or lawfully by a non-Party to this Agreement; (b) is lawfully obtained by Recipient from any source other than Discloser; (c) is previously known to Recipient without an obligation to keep it confidential; or (d) is released from the terms of this Agreement by Discloser upon written notice to Recipient.
- Recipient agrees not to publish or use the Information for any advertising, sales or marketing promotions, press releases, or publicity matters that refer either directly or indirectly to the Information or to the Discloser or any of its affiliated companies.
- The disclosure of Information neither grants nor implies any license to the Recipient under any trademark, patent, copyright, application or other intellectual property right that is now or may hereafter be owned by the Discloser.
- 13.6 <u>Survival of Confidentiality Obligations</u>. The Parties' rights and obligations under this Section 13 shall survive and continue in effect until two (2) years after the expiration or termination date of this Agreement with regard to all Information exchanged during the term of this Agreement. Thereafter, the Parties' rights and obligations hereunder survive and continue in effect with respect to any Information that is a trade secret under applicable law.

14. Disclosure

Notwithstanding anything in this Agreement, upon execution hereof, BellSouth may use CUSTOMER's name in connection with a press release relating to the execution of this Agreement. In addition, BellSouth shall post this Agreement or file it with the FCC, as appropriate, to the extent such posting or filing may be required in BellSouth's reasonable discretion.

15. Resolution of Disputes

In the event the Parties are unable to resolve any disputes that arise under this Agreement, the aggrieved Party shall pursue resolution of such dispute(s) with the appropriate federal or state court of competent jurisdiction. The Parties submit to personal jurisdiction in Atlanta, Georgia, and waive any objections to a Georgia venue. Except as otherwise provided in this Agreement, nothing herein shall be deemed a waiver of any right of a Party to pursue any remedy at law or in equity.

16. Taxes

16.1 <u>Definition</u>. For purposes of this Section, the terms "taxes" and "fees" shall include but not be limited to federal, state or local sales, use, excise, gross receipts or other taxes or tax-like fees of whatever nature and however designated (including tariff surcharges and any fees, charges or other payments, contractual or

01/13/05

otherwise, for the use of public streets or rights of way, whether designated as franchise fees or otherwise) imposed, or sought to be imposed, on or with respect to the Services furnished hereunder or measured by the charges or payments therefore, excluding any taxes levied on income.

- 16.2 <u>Taxes and Fees Imposed Directly On Either Providing Party or Purchasing Party</u>
- 16.2.1 Taxes and fees imposed on the providing Party, which are not permitted or required to be passed on by the providing Party to its customer, shall be borne and paid by the providing Party.
- Taxes and fees imposed on the purchasing Party, which are not required to be collected and/or remitted by the providing Party, shall be borne and paid by the purchasing Party.
- 16.3 <u>Taxes and Fees Imposed on Purchasing Party But Collected And Remitted By Providing Party</u>
- Taxes and fees imposed on the purchasing Party shall be borne by the purchasing Party, even if the obligation to collect and/or remit such taxes or fees is placed on the providing Party.
- To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective Service is billed.
- 16.3.3 If the purchasing Party determines that in its opinion any such taxes or fees are not payable, the providing Party shall not bill such taxes or fees to the purchasing Party if the purchasing Party provides written certification, reasonably satisfactory to the providing Party, stating that it is exempt or otherwise not subject to the tax or fee, setting forth the basis therefor, and satisfying any other requirements under applicable law. If any authority seeks to collect any such tax or fee that the purchasing Party has determined and certified not to be payable, or any such tax or fee that was not billed by the providing Party, the purchasing Party may contest the same in good faith, at its own expense. In any such contest, the purchasing Party shall promptly furnish the providing Party with copies of all filings in any proceeding, protest, or legal challenge, all rulings issued in connection therewith, and all correspondence between the purchasing Party and the taxing authority.
- In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.

- 16.3.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
- 16.3.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other charges or payable expenses (including reasonable attorney fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.
- 16.3.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.
- Taxes and Fees Imposed on Providing Party But Passed On To Purchasing Party
- Taxes and fees imposed on the providing Party, which are permitted or required to be passed on by the providing Party to its customer, shall be borne by the purchasing Party.
- To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective Service is billed.
- 16.4.3 If the purchasing Party disagrees with the providing Party's determination as to the application or basis for any such tax or fee, the Parties shall consult with respect to the imposition and billing of such tax or fee. Notwithstanding the foregoing, the providing Party shall retain ultimate responsibility for determining whether and to what extent any such taxes or fees are applicable, and the purchasing Party shall abide by such determination and pay such taxes or fees to the providing Party. The providing Party shall further retain ultimate responsibility for determining whether and how to contest the imposition of such taxes and fees; provided, however, that any such contest undertaken at the request of the purchasing Party shall be at the purchasing Party's expense.
- In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such

contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.

- 16.4.5 If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
- 16.4.6 Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other reasonable charges or payable expenses (including reasonable attorneys' fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.
- 16.4.7 Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) days after receipt of such assessment, proposed assessment or claim.
- Mutual Cooperation. In any contest of a tax or fee by one Party, the other Party shall cooperate fully by providing records, testimony and such additional information or assistance as may reasonably be necessary to pursue the contest. Further, the other Party shall be reimbursed for any reasonable and necessary out-of-pocket copying and travel expenses incurred in assisting in such contest.

17. Force Majeure

In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion, explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by CUSTOMER, or any other circumstances beyond the reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other Party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); provided, however, that the Party so affected shall use diligent efforts to avoid or remove such causes of non-performance and both Parties shall proceed whenever such causes are removed or cease.

18. Modification of Agreement

- Subject to the provisions of Section 24, if CUSTOMER changes its name or makes changes to its company structure or identity due to a merger, acquisition, transfer or any other reason, it is the responsibility of CUSTOMER to notify BellSouth of said change and request that an amendment to this Agreement, if necessary, be executed to reflect said change, and shall notify the appropriate Commission of such modification of company structure in accordance with the state rules governing such modification in company structure, if applicable.
- 18.2 No modification, amendment, supplement to, or waiver of the Agreement or any of its provisions shall be effective and binding upon the Parties unless it is made in writing and duly signed by the Parties.

19. Non-waiver of Legal Rights

Execution of this Agreement by either Party does not confirm or imply that the executing Party agrees with any decision(s) issued pursuant to the Telecommunications Act of 1996 and the consequences of those decisions on specific language in this Agreement. Neither Party waives its rights to appeal or otherwise challenge any such decision(s) and each Party reserves all of its rights to pursue any and all legal and/or equitable remedies, including appeals of any such decision(s); provided, however, that any modification of any law, rule or order issued pursuant to the Act shall not impact or modify the Parties' rights and obligations pursuant to this Agreement.

20. Indivisibility

The Parties intend that this Agreement be indivisible and nonseverable, and each of the Parties acknowledges that it has assented to all of the covenants and promises in this Agreement as a single whole and that all of such covenants and promises, taken as a whole, constitute the essence of the contract. The Parties further acknowledge that this Agreement is intended to constitute a single transaction, that the obligations of the Parties under this Agreement are interdependent, and that payment obligations under this Agreement are intended to be recouped against other payment obligations under this Agreement.

21. Severability

If any provision of this Agreement, or part thereof, shall be held invalid or unenforceable in any respect, the remainder of the Agreement or provision shall not be affected thereby, provided that the Parties shall negotiate in good faith to reformulate such invalid provision, or part thereof, or related provision, to as closely reflect the original intent of the Parties as possible, consistent with

applicable law, and to effectuate such portions thereof as may be valid without defeating the intent of such provision.

22. Waivers

A failure or delay of either Party to enforce any of the provisions hereof, to exercise any option which is herein provided, or to require performance of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or options, and each Party, notwithstanding such failure or delay, shall have the right thereafter to insist upon the performance of any and all of the provisions of this Agreement.

23. Governing Law

This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of Georgia without regard to its conflict of laws principles.

24. Assignments and Transfers

- 24.1 CUSTOMER shall not assign to any entity any right, obligation or duty, or any other interest hereunder, in whole or in part, without the prior written consent of BellSouth. No transfer or assignment of this Agreement or of any right, obligation or duty, or any other interest hereunder to any entity by contract, merger, operation of law or otherwise, shall be effective without the prior written consent of BellSouth and any such assignment or transfer shall be null and void... BellSouth may withhold its consent in its sole discretion. The assignee must provide evidence of a Commission approved certification to provide Telecommunications Service in each state that CUSTOMER is providing service. After BellSouth's consent, the Parties shall amend this Agreement to reflect such assignments and shall work cooperatively to implement any changes required due to such assignment. Any such assignment shall be subject to applicable charges negotiated between the Parties. All obligations and duties of any Party under this Agreement shall be binding on all successors in interest and assigns of such Party. No assignment or delegation hereof shall relieve the assignor of its obligations under this Agreement in the event that the assignee fails to perform such obligations. Notwithstanding anything to the contrary in this Section, CUSTOMER shall not assign this Agreement to any entity unless either (1) CUSTOMER pays all bills, past due and current, under this Agreement, or (2) CUSTOMER's assignee expressly assumes liability for payment of such bills.
- 24.2 In the event that CUSTOMER desires to transfer any Services hereunder to another carrier, the Parties shall negotiate the applicable rates, terms and conditions for such a transfer and CUSTOMER shall follow BellSouth's

established process for completing such a transfer. CUSTOMER shall not attempt to transfer services to any entity to avoid its obligations hereunder.

24.3 Change in Control.

In the event that CUSTOMER enters into an agreement which, when consummated, would cause CUSTOMER to become subject to a Change of Control at any point during the term of this Agreement, BellSouth may, in its sole discretion, terminate this Agreement by giving CUSTOMER at least 5 days prior written notice.

- 24.3.1 The following definitions apply for purposes of this Section 24.3:
- 24.3.1.1 "Change of Control" means a change in Control of CUSTOMER (or its Controlling Affiliate or Controlling Affiliates) where such Control is acquired by any third party.
- 24.3.1.2 "Control" or "Controlling" or "Controlled by" shall, depending upon the context in which it is used, refer respectively to (a) a person that holds fifty percent (50%) or more of the voting power of another person, or (b) a person, fifty percent (50%) or more of whose voting power is held by another person. In addition, Control of a person includes the power, direct or indirect, to elect a majority of its board of directors or similar governing body or to direct or cause the direction of the management and policies of such person, whether by contract or otherwise.
- 24.3.1.3 "Affiliate" means another person that directly or indirectly Controls, is Controlled by, or is under common Control with, CUSTOMER.

25. Notices

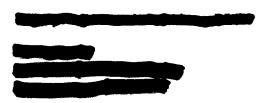

Every notice, consent, or approval of a legal nature required or permitted by this Agreement shall be in writing and shall be delivered by hand, by overnight courier or by US mail postage prepaid, address to:

BellSouth Telecommunications, Inc.

BellSouth Local Contract Manager 600 North 19th Street, 10th floor Birmingham, AL 35203

and

ICS Attorney Suite 4300 675 West Peachtree Street Atlanta, GA 30375

or at such other address as the intended recipient previously shall have designated by written notice to the other Party.

- Unless otherwise provided in this Agreement, notice by mail shall be effective on the date it is officially recorded as delivered by return receipt or equivalent, and in the absence of such record of delivery, it shall be presumed to have been delivered the fifth day, or next business day after the fifth day, after it was deposited in the mails.
- Notwithstanding the foregoing, BellSouth shall post to BellSouth's web site changes to business processes and policies, and shall post to BellSouth's web site or submit through applicable electronic systems, other business related notices not requiring an amendment to this Agreement.

26. Rule of Construction

No rule of construction requiring interpretation against the drafting Party hereof shall apply in the interpretation of this Agreement.

27. Headings of No Force or Effect

The headings of Articles and Sections of this Agreement are for convenience of reference only, and shall in no way define, modify or restrict the meaning or interpretation of the terms or provisions of this Agreement.

28. Multiple Counterparts

This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.

29. Good Faith Performance

01/13/05

Confidential and proprietary. May not be disclosed outside of BellSouth. Subject to Nondisclosure Agreement.

Each Party shall act in good faith in its performance under this Agreement and, in each case in which a Party's consent or agreement is required or requested hereunder, such Party shall not unreasonably withhold or delay such consent or agreement.

30. Survival

The Parties' obligations under this Agreement, which by their nature are intended to continue beyond the termination or expiration of this Agreement, shall survive the termination or expiration of this Agreement.

31. Entire Agreement

- This Agreement means the General Terms and Conditions, the Attachments identified in Section 31.2 below, and all incorporated documents, all of which, when taken together, are intended to constitute one indivisible agreement. This Agreement sets forth the entire understanding and supersedes prior agreements between the Parties as they relate to the Services provided under this Agreement and merges all prior discussions between them. Neither Party shall be bound by any definition, condition, provision, representation, warranty, covenant or promise other than as expressly stated in this Agreement or as is contemporaneously or subsequently set forth in writing and executed by a duly authorized officer or representative of the Party to be bound thereby.
- This Agreement includes Attachments and Exhibits, incorporated herein by reference with provisions for the following:

Services

Pre-Ordering, Ordering, Provisioning, Maintenance and Repair Billing

Service Level Commitments for DS0 Wholesale Local Voice Platform Services

Any reference throughout this Agreement to a tariff, industry guideline, BellSouth's technical guideline or reference, BellSouth business rule, guide or other such document containing processes or specifications applicable to the Services provided pursuant to this Agreement, shall be construed to refer to only those provisions thereof that are applicable to these Services, and shall include any successor or replacement versions thereof, all as they are amended from time to time and all of which are incorporated herein by reference. References to state tariffs throughout this Agreement shall be to the tariff for the state in which the Services were provisioned.

Services

1. Introduction

- 1.1 Upon request of CUSTOMER, BellSouth shall provide DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services as set forth in this Attachment, at the rates set forth in Exhibit A, and pursuant to the terms and conditions of this Agreement. The terms and conditions set forth in this Attachment apply only when the Services are purchased pursuant to this Agreement. The network components and associated services and functions that comprise DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services or that may be purchased in conjunction with DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services under this Agreement are available pursuant to this Agreement only in conjunction with CUSTOMER's purchase of DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services and are not available for individual purchase. These Services are provided to CUSTOMER solely for the purpose of providing Telecommunications Services to CUSTOMER's End Users and CUSTOMER agrees not to use such Services for any other purpose.
- The network components provided as part of the Services offered hereunder may be subject to modification, retirement, upgrades or other changes. BellSouth shall provide notice of such changes in accordance with the applicable provisions of the FCC's network disclosure requirements and any other applicable laws or regulations. In the event a network component is retired, such network component is no longer available.

2. DS0 Wholesale Switch Port Services

- 2.1 DS0 Wholesale Switch Port Services provide the features, functions and capabilities of the local circuit switch, including dial tone, the ability to originate and terminate calls, and all vertical features that the local circuit switch is capable of providing and that are available.
- 2.1.1 When ordering DS0 Wholesale Switch Port Services, network components that allow for the transport and termination of originated calls and the receipt of calls destined for the switch port are included. These network components, which each have their own pricing elements, include End Office Switching, Tandem Switching and Common Transport. CUSTOMER may also order for an additional charge switch based vertical features that the switch is capable of providing and that are available. BellSouth may make available certain ancillary services that may be

ordered with the DS0 Wholesale Switch Port Services. If available, such ancillary services will be ordered pursuant to BellSouth's tariff or pursuant to a BellSouth resale agreement.

- 2.1.2 When ordering DS0 Wholesale Switch Port Services as a stand-alone element, CUSTOMER is responsible for obtaining other required elements or components that may be needed to provide its desired voice grade services. These elements or component may include but are not limited to: loops; collocation arrangements; and collocation cross-connects between the DS0 Wholesale Switch Port Services and CUSTOMER's collocation arrangement.
- 2.1.3 End Office Switching
- 2.1.3.1 End Office Switching provides the switching function of connecting lines to lines, lines to trunks, trunks to lines, and trunks to trunks. End Office Switching includes the pricing elements of End Office Switching Function and End Office Trunk Ports, as set forth in Exhibit A.
- 2.1.4 Tandem Switching
- 2.1.4.1 Tandem Switching provides the following: (i) trunk connect facilities, which include, but are not limited to, the connection between trunk termination at a cross connect panel and switch trunk card; (ii) the basic switch trunk function of connecting trunks to trunks; and (iii) the functions that are centralized in the Tandem Switches (as distinguished from separate end office switches), including, but not limited to call recording, the routing of calls to operator services and signaling conversion features. Tandem Switching includes the pricing elements of Tandem Switching Function, Tandem Trunk Ports, Melded Tandem Switching Function and Melded Tandem Trunk Ports, as set forth in Exhibit A.
- 2.1.4.2 When an interoffice call originates from a DS0 Wholesale Switch Port and terminates to a BellSouth, independent company or facility based CLEC end office, BellSouth shall apply the Melded Tandem Switching rate(s) as set forth in Exhibit A. For all other calls utilizing Tandem Switching, the Tandem Switching rate as set forth in Exhibit A shall apply.
- 2.1.5 Common Transport
- 2.1.5.1 Common (Shared) Transport is defined as transmission facilities shared by more than one carrier, including BellSouth, between end office switches, between end office switches and tandem switches, and between tandem switches, in BellSouth's network. Common Transport includes the pricing elements of Common Transport per Mile and Common Transport Facilities Termination as set forth in Exhibit A.
- 2.1.6 Switch Based Vertical Features

- 2.1.6.1 Switch based vertical features include vertical features that the circuit switch is capable of providing and that are available and may be ordered in conjunction with the DS0 Wholesale Switch Port. Switch based vertical features are ordered separately and shall be charged at a single rate, as set forth in Exhibit A, regardless of the number of vertical features ordered. CUSTOMER may add or delete vertical features at no additional charge except the applicable ordering charge.
- 2.1.6.2 To the extent that a circuit switch is technically capable of providing a switch based vertical feature but such switch based vertical feature is not currently available, CUSTOMER may submit a request pursuant to BellSouth's established processes. Additional charges may apply.
- 2.1.7 Ancillary Services
- 2.1.7.1 CUSTOMER may request certain non-switch based services that are available with DS0 Wholesale Switch Port Services. If available, such services shall be provided pursuant to BellSouth's tariff or pursuant to a separate BellSouth resale agreement.
- 2.1.7.2 Directory Listings
- 2.1.7.2.1 BellSouth shall provide one basic White Pages directory listing per telephone number per End User account at no charge other than applicable service order charges as set forth in BellSouth's tariffs. If such listing is requested on the initial local service request ("LSR") associated with the request for Service, a single manual service order charge or electronic service order charge, as appropriate, as described in Attachment 2 of this Agreement will apply to both the request for Service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, separate service order charges as set forth in BellSouth's tariffs shall apply, as well as the manual service order charge or electronic service order charge, as appropriate, as described in Attachment 2. Additional, enhanced and miscellaneous listings may be provided and shall be rated according to BellSouth's General Subscriber Services Tariff ("GSST"), and tariffed service order charges and manual or electronic service order charges shall apply.
- 2.2 Remote Call Forwarding
- As an option, BellSouth shall make available to CUSTOMER a switch port with Remote Call Forwarding capability (RCF). RCF service combines the functionality of End Office Switching, Tandem Switching and Common Transport to forward calls from the RCF service telephone number (i.e., the number dialed by the calling party) to another telephone number selected by the RCF service subscriber ("Forward-to-Number"). When ordering RCF service, CUSTOMER will ensure that the following conditions are satisfied:

- 2.2.2 The End User of the Forward-to-Number agrees to receive calls forwarded using the RCF service (if such End User is different from the RCF service End User);
- 2.2.3 The Forward-to-Number is equipped with sufficient capacity to receive the volume of calls that will be generated from the RCF service;
- 2.2.4 The RCF service will not be utilized to forward calls to another RCF or similar service; and
- 2.2.5 The Forward-to-Number is not a public safety number (e.g., 911, fire or police number).
- 2.2.6 In addition to the charge for the RCF service port, BellSouth shall charge CUSTOMER the rates set forth in Exhibit A of this Attachment for End Office Switching, Tandem Switching, and Common Transport, including all associated usage incurred for calls from the RCF service telephone number to the Forward-to-Number.

3. DS0 Wholesale Local Voice Platform Services

- 3.1 DS0 Wholesale Local Voice Platform Services provide an end to end Telecommunications Service by combining DS0 Wholesale Switch Ports with the loop network component described in this Agreement, which together provide local exchange service for the origination or termination of calls. DS0 Wholesale Local Voice Platform Services support the same calling and feature attributes as described in the DS0 Wholesale Switch Port Services section of this Attachment.
- The loop network component is defined as a transmission facility between the distribution frame (or its equivalent) in BellSouth's central office and the loop demarcation point at the End User's premises. The loop includes all features, functions and capabilities of the transmission facilities, including the network interface device, and attached electronics (except those used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers), optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the End User's premises. CUSTOMER shall purchase the entire bandwidth of the loop in connection with the DS0 Wholesale Local Voice Platform Services and, unless otherwise expressly agreed by BellSouth in a separate agreement or tariff, BellSouth shall not subdivide the frequency of the loop.
- 3.2.1 DS0 Wholesale Local Voice Platform Services shall be provisioned with a 2-wire analog voice grade loop, which is a non-designed 2-wire loop start circuit that does not have remote access test points.
- 3.2.2 Except as set forth herein, loops may be provisioned using any type of facility that will support voice grade services. This may include loaded copper, non-loaded

DS0 Services Agreement Attachment 1 Page 7

copper, digital loop carrier systems, fiber/copper combination (hybrid loop) or a combination of any of these facilities. BellSouth, at any time, in the normal course of maintaining, repairing, and configuring its network, may also change the loop utilized in conjunction with the DS0 Wholesale Local Voice Platform Services. In these situations, BellSouth will only ensure that the newly provided facility will support the same voice grade services provided by the DS0 Wholesale Local Voice Platform Services.

- 3.2.3 The loop does not include any packet switched features, functions or capabilities.
- 3.2.4 BellSouth shall not provision DS0 Wholesale Local Voice Platform Services over any loop that is comprised entirely of fiber from the distribution frame (or equivalent) in the BellSouth central office to the demarcation point at the End User's premises.
- 3.2.5 The loop shall be provided to CUSTOMER in accordance with applicable provisions of BellCore/ANSI standard technical references for non-designed 2-wire loop start voice grade circuits.
- 3.2.6 BellSouth will only provision, maintain and repair the loops to the standards that are consistent with the loop component associated with the DS0 Wholesale Local Voice Platform Services.
- 3.3 Loop Tagging
- 3.3.1 When a BellSouth technician is required to be dispatched to provision the loop, BellSouth will tag the loop with the telephone number. When a dispatch is not required to provision the loop, BellSouth will tag the loop on the next required visit to the End User's location. If CUSTOMER wants to ensure the loop is tagged during the provisioning process for loops that may not require a dispatch, CUSTOMER may order Loop Tagging. Rates for Loop Tagging are as set forth in Exhibit A of this Attachment.
- 4. DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services Rates
- 4.1 The rates for DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services in Exhibit A shall be applied according to whether CUSTOMER is serving a Mass Market or an Enterprise Market End User and shall include monthly recurring and nonrecurring charges.
- 4.1.1 Mass Market. If CUSTOMER is serving an End User with less than four (4) voice grade (DS0) lines or equivalents in any service area covered by this Agreement, the rates applicable to DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services for the Mass Market shall apply.

- 4.1.2 Enterprise Market. If CUSTOMER is serving an End User with four (4) or more voice grade (DS0) lines or equivalents in any service area covered by this Agreement, or is serving an End User with DS0 services where such End User is also being served with a DS1 service in any service area covered by this Agreement, the rates applicable to DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services for the Enterprise Market shall apply to all Services provided to CUSTOMER for that End User.
- 4.1.3 For the DS0 Wholesale Switch Port, recurring charges apply to the switch port, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges apply to the switch port.
- 4.1.4 For the DS0 Wholesale Local Voice Platform Services, recurring charges apply to the switch port, loop, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges shall apply to the switch port for a new installation. If, however, the Service is converted from BellSouth retail, resale, or a loop/port combination provided by BellSouth to another CLEC, or is an initial new installation of a simple residential service line provisioned at a location where QuickServe is active on the line, the nonrecurring conversion charges shall apply to such conversions. In the scenario of a line provisioned at a QuickServe location, only the first line shall incur the conversion rate. Any additional lines or subsequently ordered lines shall incur new installation first and additional nonrecurring charges.
- 4.1.5 The rates for End Office Switching, Tandem Switching and Common Transport are applied based on their use in the transport of an originated or terminated call, with the exception of the coin class of service which contains a monthly recurring flat-rate charge for all three of these pricing elements combined. Originated calls shall utilize these pricing elements until the terminating end office is reached for a BellSouth or resale End User terminated call or until the call reaches the network of a third party on a third party terminated call.
- 4.1.6 Rates for loops purchased in conjunction with DS0 Wholesale Local Voice Platform Services are determined by the zone applicable to the specific loop location. Zones are established by the Commission and may be changed from time to time. In the event the Commission changes the zone applicable to any loop associated with any DS0 Wholesale Local Voice Platform Services, the loop component of such Services shall be billed at the applicable rate for the new zone.
- 4.2 Intercarrier Compensation
- 4.2.1 Intercarrier compensation for 7 or 10 digit dialed calls originated by CUSTOMER utilizing DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services shall apply as follows:

- 4.2.1.1 For calls terminating to a BellSouth or resale End User, BellSouth shall charge CUSTOMER for End Office Switching at the terminating end office.
- 4.2.1.2 For calls terminating to a CLEC where such CLEC is utilizing a BellSouth switch port or port/loop combination to provide service to its End User, BellSouth shall charge CUSTOMER for End Office Switching at the terminating end office. BellSouth will not charge the terminating CLEC for End Office Switching at the terminating end office.
- 4.2.1.3 For calls terminating to third party carriers utilizing their own switches to serve their End Users, such as CLECs, wireless carriers and independent companies, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through BellSouth's network. If CUSTOMER does not have such an agreement with a third party carrier and BellSouth is charged termination charges by a third party terminating a call originated by CUSTOMER, or if such third party carrier bills BellSouth for terminating such calls, despite the existence of such an agreement, then BellSouth may, at its option:
- pay such charges as billed by the third party carrier and bill an additional End Office Switching pricing element to CUSTOMER for each such call; or
- 4.2.1.3.2 pay such charges as billed by the third party carrier and CUSTOMER will reimburse the full amount of such charges within thirty (30) days of BellSouth's request for reimbursement.
- 4.2.2 Intercarrier compensation for 7 or 10 digit dialed calls terminating to CUSTOMER utilizing DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services shall apply as follows:
- 4.2.2.1 For calls originated by a BellSouth or resale End User, BellSouth shall not charge CUSTOMER for End Office Switching at the terminating end office for use of the network component; therefore, CUSTOMER shall not charge BellSouth reciprocal compensation or any other charges for termination of such calls.
- 4.2.2.2 For calls originated by a CLEC where such CLEC is utilizing a BellSouth switch port or port/loop combination to provide service to its End User, BellSouth shall not charge CUSTOMER for End Office Switching at the terminating end office for use of the network component; therefore, CUSTOMER shall not charge the originating CLEC or BellSouth reciprocal compensation or any other charges for termination of such calls.
- 4.2.2.3 For calls originated by third parties utilizing their own switches to serve their End Users, such as CLECs, wireless carriers and independent companies, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through BellSouth's network.

DS0 Services Agreement Attachment 1 Page 10

CUSTOMER may bill the third parties according to such agreements and shall not bill BellSouth for the exchange of traffic through BellSouth's network.

- 4.2.3 Intercarrier compensation shall apply as follows for intralata 1+ dialed calls originated by CUSTOMER utilizing DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services where CUSTOMER uses BellSouth's Carrier Identification Code (CIC) for its End User's Local Preferred Interexchange Carrier (LPIC):
- 4.2.3.1 For calls terminating to a BellSouth or resale End User, BellSouth shall charge CUSTOMER for End Office Switching at the terminating end office.
- 4.2.3.2 For calls terminating to a CLEC where such CLEC is utilizing a BellSouth switch port or port/loop combination to provide service to its End User, BellSouth shall charge CUSTOMER for End Office Switching at the terminating end office. BellSouth will not charge the terminating CLEC for End Office Switching at the terminating end office.
- 4.2.3.3 For calls terminating to third party carriers utilizing their own switches to serve their End Users, such as CLECs, wireless carriers and independent companies, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through BellSouth's network. If CUSTOMER does not have such an agreement with a third party carrier and BellSouth is charged termination charges by a third party terminating a call originated by CUSTOMER, or if such third party carrier bills BellSouth for terminating such calls, despite the existence of such an agreement, then BellSouth may, at its option:
- 4.2.3.3.1 pay such charges as billed by the third party carrier and bill an additional End Office Switching pricing element to CUSTOMER for each such call; or
- 4.2.3.3.2 pay such charges as billed by the third party carrier and CUSTOMER will reimburse BellSouth the full amount of such charges within thirty (30) days following BellSouth's request for reimbursement.
- 4.2.4 Intercarrier compensation shall apply as follows for intralata 1+ dialed calls terminating to CUSTOMER utilizing DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services where the originating carrier uses BellSouth's CIC for its End User's LPIC:
- 4.2.4.1 For calls originated by a BellSouth or resale End User, BellSouth shall charge CUSTOMER for End Office Switching at the terminating end office for use of the End Office Switching network component in terminating such calls. CUSTOMER may charge BellSouth for reciprocal compensation at the End Office Switching rate in this Agreement for such calls. CUSTOMER shall not charge originating or terminating switched access rates to BellSouth for termination of such calls.

4.2.5 For calls originated by or terminating to interexchange carriers through a switched access arrangement, CUSTOMER may bill the interexchange carrier in accordance with CUSTOMER's tariff and will not bill BellSouth any charges for such call. CUSTOMER shall pay BellSouth applicable charges for the use of BellSouth's network in accordance with the rates set forth in Exhibit A for originating and terminating such calls.

5. Call Related Databases

- Call related databases provided under this Agreement shall only be provided with either DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services pursuant to the terms and conditions herein and at the rates set forth in Exhibit A. Database services that are not available pursuant to this Agreement may be available at the rates, terms and conditions set forth in BellSouth's tariffs.
- 5.2 BellSouth's Calling Name (CNAM) Database Services
- 5.2.1 BellSouth's CNAM database Services provide the ability to associate a name with the calling party's number for any name and number stored in the BellSouth CNAM database, allowing the End User (to which a call is being terminated and which subscribes to the necessary services) to view the calling party's name before the call is answered.
- 5.2.2 CUSTOMER's End Users' names and numbers related to DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services shall be stored in the BellSouth CNAM database, and shall be available, on a per query basis only, to all entities that launch queries to the BellSouth CNAM database. BellSouth, at its sole discretion, may opt to interconnect with and query other calling name databases. In the event BellSouth does not query a third party calling name database that stores the calling party's information, BellSouth cannot deliver the calling party's information to a called End User. In addition, BellSouth cannot deliver the calling party's information where the calling party subscribes to any service that would block or otherwise cause the information to be unavailable.
- 5.2.3 For each CUSTOMER End User that subscribes to a switch based vertical feature providing calling name information to that End User for calls received, BellSouth will launch a query on a per call basis to the BellSouth CNAM database, or, subject to Section 5.2.2 above, to a third party calling name database, to provide calling name information, if available, to CUSTOMER's End User. CUSTOMER shall pay the rates set forth in Exhibit A, on a per query basis, for each query to the BellSouth CNAM database. In addition, CUSTOMER shall reimburse BellSouth for any charges BellSouth pays to third party calling name database providers for queries launched to such database providers for the benefit of CUSTOMER's End Users.

- 5.3 BellSouth's Line Information Database (LIDB) Storage
- 5.3.1 The LIDB stores current information on working telephone numbers and billing account numbers. LIDB data is used by providers of Telecommunications Services to validate billing of collect calls, calls billed to a third party number and nonproprietary calling card calls, to screen out attempts to bill calls to payphones, for billing and for fraud prevention.
- Where CUSTOMER purchases DS0 Wholesale Switch Port Services or DS0 Wholesale Local Voice Platform Services, BellSouth shall utilize BellSouth's service order generated from CUSTOMER's LSR to populate LIDB with CUSTOMER's End User information. BellSouth provides access to information in its LIDB, including CUSTOMER End User information, to various providers of Telecommunications Services via queries to LIDB pursuant to tariffs. Information stored for CUSTOMER, pursuant to this Agreement, shall be available to those Telecommunications Service providers.
- 5.3.2.1 When necessary for fraud control measures, BellSouth may perform additions, updates and deletions of CUSTOMER data to the LIDB (e.g., calling card deactivation).
- 5.3.2.2 BellSouth shall provide priority updates to LIDB for CUSTOMER data upon CUSTOMER's request (e.g., to support fraud detection), via password protected telephone card, facsimile, or electronic mail.
- 5.3.2.3 BellSouth shall perform periodic backup and recovery of all of CUSTOMER's data in LIDB.
- 5.3.3 Responsibilities of the Parties
- 5.3.3.1 BellSouth will administer the data provided by CUSTOMER pursuant to this Agreement in the same manner as BellSouth administers its own data.
- 5.3.3.2 CUSTOMER is responsible for the completeness and accuracy of the data being provided to BellSouth.
- 5.3.4 Other LIDB services, such as transport services or LIDB query services, are available pursuant to the rates set forth in Exhibit A of this Attachment.
- 5.3.5 Fees for Service and Taxes
- 5.3.5.1 CUSTOMER will not be charged a fee for LIDB storage Services provided by BellSouth to CUSTOMER pursuant to this Agreement.
- 5.3.5.2 Sales, use and all other taxes (excluding taxes on BellSouth's income) determined by BellSouth or any taxing authority to be due to any federal, state or local taxing

jurisdiction with respect to the provision of the Service set forth herein will be paid by CUSTOMER.

- 5.3.6 Billing and Collection Customers
- 5.3.6.1 BellSouth currently has in effect billing and collection ("B&C") agreements with various interexchange carriers and billing clearinghouses ("B&C Customers") that query BellSouth's LIDB to determine whether to accept various billing options from BellSouth's End Users.
- 5.3.6.2 BellSouth will identify CUSTOMER's End User originated long distance charges and upon receipt of charges applicable to CUSTOMER's End Users, BellSouth will reject those charges as not covered by the existing B&C agreement with the B&C Customers.
- 5.3.6.3 BellSouth shall have no obligation to become involved in or provide any information relating to any billing disputes between CUSTOMER and the B&C Customers. It shall be the responsibility of CUSTOMER and the B&C Customers to negotiate and arrange for any appropriate adjustments.
- 5.4 Toll Free Dialing Ten Digit Screening Service
- 5.4.1 Toll Free Dialing Ten Digit Screening Service through BellSouth's 8xx database in association with Services provided hereunder shall be subject to the rates, terms and conditions set forth in the BellSouth tariff.
- 5.5 Automatic Location Identification/Data Management System (ALI/DMS)
 Database-911/E911 Services
- 5.5.1 Basic 911 Services (911) and Enhanced 911 Services (E911) route 911 calls from within the BellSouth Network. BellSouth shall provide 911 and E911 capability for each End User of CUSTOMER's DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services in accordance with the provisions below where BellSouth is the 911 or E911 provider.
- 5.5.2 911 provides routing of a 911 call to a centralized answering location designated by the PSAP. The End User verbally relays the emergency information to the centralized answering location.
- 5.5.3 E911, through the ALI/DMS database, routes the call to the appropriate PSAP and displays to the PSAP the address associated with the End User's telephone number.
- 5.5.4 CUSTOMER shall be responsible for providing complete and accurate End User information to BellSouth via LSRs. BellSouth shall use such information to

populate and update the ALI/DMS database at no additional charge to CUSTOMER.

5.5.5 CUSTOMER is responsible for paying all 911 or E911 surcharges to the applicable governmental agency, and BellSouth will not bill CUSTOMER for such 911 or E911 surcharges.

6. Local Number Portability (LNP)

- 6.1 LNP will be provided in accordance with rules, regulations and guidelines adopted by the Commission, the FCC and industry fora, and CUSTOMER will work cooperatively with BellSouth to implement any LNP changes.
- When CUSTOMER submits an LSR for Services, if the telephone number associated with the Services requested resides in a switch other than BellSouth's, then BellSouth will submit an LNP LSR to the appropriate switch owner. CUSTOMER shall be responsible for reimbursing BellSouth for any costs or charges imposed on BellSouth by the switch owner resulting from the submission of the LNP LSR. In addition, CUSTOMER shall pay to BellSouth the manual service order charges specified in Exhibit B of Attachment 2 of this Agreement for Bellsouth's creation and submission of the LNP LSR to the appropriate switch owner.
- For each DS0 Wholesale Switch Port Service or DS0 Wholesale Local Voice Platform Service purchased hereunder, CUSTOMER shall pay the end user line charge associated with implementing LNP as set forth in BellSouth's FCC Tariff No. 1.
- Working telephone numbers, telephone numbers for which payment has been made to reserve and telephone numbers that are in a denied state (but not disconnected) or suspended status may be subject to porting.

7. Access To Numbers

- 7.1 Where BellSouth provides DS0 Wholesale Switch Port Service or DS0 Wholesale Local Voice Platform Services to CUSTOMER, BellSouth will provide CUSTOMER with online access to available telephone numbers as defined by, and in accordance with, applicable FCC rules and regulations on a first come first served basis. CUSTOMER may designate up to a forecasted six (6) months supply of available numbers as intermediate (an available number provided to CUSTOMER) telephone numbers per rate center if the following conditions are met:
- 7.1.1 CUSTOMER must: (1) indicate that all of the intermediate numbers currently held by CUSTOMER in each rate center where CUSTOMER will be requesting intermediate telephone numbers have six (6) or less months to exhaust; (2) supply

projected monthly telephone number demand on a rate center basis for the coming twelve (12) months for each rate center where CUSTOMER will be requesting intermediate telephone numbers; and, (3) demonstrate that the utilization level on current intermediate numbers held by CUSTOMER in the rate center where CUSTOMER is requesting telephone numbers has reached at least 70%. The above information will be provided by CUSTOMER by submitting to BellSouth a fully completed "CO Code Assignments Months To Exhaust Certification Worksheet – TN Level" ("MTE Worksheet"), Appendix B to the Central Office Code (NXX) Assignments Guidelines, INC 95-0407-008 for each rate center where CUSTOMER will be requesting intermediate telephone numbers. The utilization level is calculated by dividing all intermediate numbers currently assigned by CUSTOMER to End Users by the total number of intermediate numbers held by CUSTOMER in the rate center and multiplying the result by one hundred (100). After June 30, 2004, rate center utilization level must be at 75% (Part F of the MTE Worksheet).

- 7.1.2 If fulfilling CUSTOMER's request for intermediate numbers results in BellSouth having to submit a request for additional telephone numbers to a national numbering administrator (either the North American Numbering Plan Administration (NANPA) CO Code Administration or NeuStar Pooling Administration or their successors), BellSouth will submit the required numbering request to the national numbering administrator to satisfy CUSTOMER's request for intermediate numbers. BellSouth will also pursue all appropriate steps (including submitting a safety valve request (petition) to the appropriate Commission if the numbering request is denied by the national administrator) to satisfy CUSTOMER's request for intermediate numbers. In these cases, BellSouth is not obligated to fulfill the request by CUSTOMER for intermediate numbers unless, and until, BellSouth's request for additional numbering resources is granted.
- 7.1.3 CUSTOMER agrees to supply supporting information for any numbering request and/or safety valve request that BellSouth files pursuant to Section 7.1.2 above.
- 7.2 CUSTOMER acknowledges that there may be instances where there is an industry shortage of available telephone numbers in the Numbering Plan Area (NPA). These instances occur where a jeopardy status has been declared by NANPA and the industry has determined that limiting the assignment of new numbers is the appropriate method to employ until the jeopardy can be alleviated. In such NPA jeopardy situations where assignment of new numbers is restricted as per the jeopardy guidelines developed by the industry, BellSouth may request that CUSTOMER cancel all or a portion of its unassigned intermediate numbers. CUSTOMER's consent to BellSouth's request shall not be unreasonably withheld.

8. Wholesale Operator Call Processing Services

8.1 BellSouth's Wholesale Operator Call Processing (OCP) provides: (1) operator handling for call completion (for example, collect, third number billing, and manual calling card calls); (2) operator or automated assistance for billing after the End User has dialed the called number (for example, calling card calls); and (3) special services including but not limited to Busy Line Verification and Emergency Line Interrupt (ELI), Emergency Agency Call, and Operator-assisted Directory Assistance. 8.2 Upon request for OCP, BellSouth shall: 8.3 Process 0+ and 0- dialed local calls. 8.4 Process 0+ and 0- intraLATA toll calls. 8.5 Process calls that are billed to CUSTOMER End User's calling card that can be validated by BellSouth. 8.6 Process person-to-person calls. 8.6.1 Process collect calls. 8.6.2 Provide the capability for callers to bill to a third party and shall also process such calls. 8.6.3 Process station-to-station calls. 8.6.4 Process Busy Line Verify and Emergency Line Interrupt requests. Rates are set forth under Inward Operator Services in Exhibit 1 of this Attachment. 8.6.5 Process emergency call trace originated by a PSAP. 8.6.6 Process operator assisted directory assistance calls. 8.6.7 Adhere to equal access requirements, providing CUSTOMER local End Users the same IXC access as provided to BellSouth End Users. 8.6.8 Exercise at least the same level of fraud control in providing operator service to CUSTOMER that BellSouth provides for its own operator service. 8.6.9 Perform Billed Number Screening when handling collect, person-to-person, and billed-to-third-party calls. 8.6.10 Direct customer account and other similar inquiries to the customer service center designated by CUSTOMER. 8.6.11 Provide call detail records to CUSTOMER via the Optional Daily Usage File described in this Attachment.

- 8.6.12 The interface requirements shall conform to the interface specifications for the platform used to provide Operator Services as long as the interface conforms to industry standards.
- 8.6.13 BellSouth will provide access to OCP Service at the rates set forth in Exhibit A of this Attachment.

9. Wholesale Directory Assistance Service

- 9.1 BellSouth's Wholesale Directory Assistance (DA) Service provides local and non-local End User telephone number listings with the option to complete the call at the caller's direction separate and distinct from Wholesale Switch Ports Services or Wholesale Local Platform Services.
- 9.2 BellSouth will provide access to DA Service at the rates set forth in Exhibit A of this Attachment.
- 9.3 DA Service shall provide up to two listing requests per call. If available and if requested by CUSTOMER's End User, BellSouth shall provide caller-optional directory assistance call completion service to one of the provided listings.
- 9.4 DA Service Updates. BellSouth shall update End User listings changes daily. These changes include:
- 9.4.1 New End User connections;
- 9.4.2 End User disconnections;
- 9.4.3 End User address changes.
- 9.5 These updates shall also be provided for non listed and non published numbers for use in emergencies.

8. Optional Daily Usage File

- 8.1 Upon written request from CUSTOMER, BellSouth will provide the Optional Daily Usage File (ODUF) Services to CUSTOMER pursuant to the terms and conditions set forth in this section.
- 8.2 CUSTOMER shall furnish all relevant information required by BellSouth for the provision of the ODUF.
- 8.3 The ODUF feed provides CUSTOMER messages, associated with DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services that CUSTOMER has purchased from BellSouth, that were carried over the BellSouth network and processed by BellSouth for CUSTOMER.

8.4	Charges for the ODUF Service will appear on CUSTOMER's monthly bills for the previous month's usage in arrears. The charges are as set forth in Exhibit B to this Attachment.
8.5	The ODUF feed will contain both rated and unrated messages. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.
8.6	Messages that error in the billing system of CUSTOMER will be the responsibility of CUSTOMER. If, however, CUSTOMER should encounter significant volumes of errored messages that prevent processing by CUSTOMER within its systems, BellSouth will work with CUSTOMER to determine the source of the errors and the appropriate resolution.
8.7	ODUF Specifications
8.7.1	ODUF Messages to be Transmitted
8.7.1.1	The following messages recorded by BellSouth will be transmitted to CUSTOMER:
8.7.1.1.1	Message recording for per use/per activation type services (examples: Three-Way Calling, Verify, Interrupt, Call Return, etc.)
8.7.1.1.2	Measured local calls
8.7.1.1.3	Directory Assistance messages
8.7.1.1.4	IntraLATA Toll
8.7.1.1.5	WATS and 800 Service
8.7.1.1.6	N11
8.7.1.1.7	Information Service Provider Messages
8.7.1.1.8	Operator Services Messages
8.7.1.1.9	Operator Services Message Attempted Calls
8.7.1.1.10	Credit/Cancel Records
8.7.1.1.11	Usage for Voice Mail Message Service
8.7.1.1.12	Rated Incollects (messages BellSouth receives from other revenue accounting offices) also appear on ODUF. Rated Incollects will be intermingled with

BellSouth recorded rated and unrated usage. Rated Incollects will not be packed separately.

- 8.7.1.1.13 BellSouth will perform duplicate record checks on records processed to ODUF. Any duplicate messages detected will be deleted and not sent to CUSTOMER.
- 8.7.1.1.14 In the event that CUSTOMER detects a duplicate on ODUF they receive from BellSouth, CUSTOMER will drop the duplicate message and will not return the duplicate to BellSouth.
- 8.7.1.1.15 ODUF Physical File Characteristics
- 8.7.1.1.16 ODUF will be distributed to CUSTOMER via Secure File Transfer Protocol (FTP). The ODUF feed will be a variable block format. The data on the ODUF feed will be in a non-compacted EMI format (175 byte format plus modules). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN. If BellSouth determines the Secure FTP Mailbox is nearing capacity levels, BellSouth may move the CUSTOMER to CONNECT:Direct file delivery.
- If the CUSTOMER is moved to CONNECT: Direct, data circuits (private line or 8.7.1.1.17 dial-up) will be required between BellSouth and CUSTOMER for the purpose of data transmission. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit messages successfully on an ongoing basis will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the BellSouth end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on CUSTOMER's end for the purpose of data transmission will be the responsibility of CUSTOMER.
- 8.7.1.1.18 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.
- 8.7.1.1.19 ODUF Packing Specifications
- 8.7.1.1.20 The data will be packed using ATIS EMI records. A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack

header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.

- 8.7.1.1.21 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to CUSTOMER which BellSouth RAO is sending the message. BellSouth and CUSTOMER will use the invoice sequencing to control data exchange. CUSTOMER will notify BellSouth of sequence failures identified by CUSTOMER and BellSouth will resend the data as appropriate.
- 8.7.1.1.22 ODUF Pack Rejection
- 8.7.1.1.23 CUSTOMER will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (e.g. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. CUSTOMER will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to CUSTOMER by BellSouth.
- 8.7.1.1.24 ODUF Control Data
- 8.7.1.1.25 CUSTOMER will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate CUSTOMER's receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by CUSTOMER for reasons stated in the above section.
- 8.7.1.1.26 ODUF Testing
- 8.7.1.1.27 Upon request from CUSTOMER, BellSouth shall send ODUF test files to CUSTOMER. The Parties agree to review and discuss the ODUF content and/or format. For testing of usage results, BellSouth shall request that CUSTOMER set up a production (live) file. The live test may consist of CUSTOMER's employees making test calls for the types of services CUSTOMER requests on ODUF. These test calls are logged by CUSTOMER, and the logs are provided to BellSouth. These logs will be used to verify the files. Testing will be completed within thirty (30) calendar days from the date on which the initial test file was sent.
- 9. Access Daily Usage File
- 9.1 Upon written request from CUSTOMER, BellSouth will provide the Access Daily Usage File (ADUF) Services to CUSTOMER pursuant to the terms and conditions set forth in this section.
- 9.2 CUSTOMER shall furnish all relevant information required by BellSouth for the provision of ADUF Services.

- 9.3 The ADUF provides CUSTOMER originating and terminating access and third party messages associated with DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services that CUSTOMER has purchased from BellSouth.
- 9.4 Charges for ADUF Services will appear on CUSTOMER's monthly bills for the previous month's usage in arrears. The charges are as set forth in Exhibit B to this Attachment.
- 9.5 Messages that error in the billing system of CUSTOMER will be the responsibility of CUSTOMER. If, however, CUSTOMER should encounter significant volumes of errored messages that prevent processing by CUSTOMER within its systems, BellSouth will work with CUSTOMER to determine the source of the errors and the appropriate resolution.
- 9.6 ADUF Messages To Be Transmitted
- 9.6.1 The following messages recorded by BellSouth will be transmitted to CUSTOMER:
- 9.6.1.1 Recorded originating and terminating interstate and intrastate access records associated with DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services.
- 9.6.1.2 Recorded terminating access records for undetermined jurisdiction access records associated with DS0 Wholesale Switch Port Services and DS0 Wholesale Local Voice Platform Services.
- 9.6.2 BellSouth will perform duplicate record checks on records processed to ADUF. Any duplicate messages detected will be dropped and not sent to CUSTOMER.
- 9.6.3 In the event that CUSTOMER detects a duplicate on ADUF they receive from BellSouth, CUSTOMER will drop the duplicate message and will not return the duplicate to BellSouth.
- 9.6.4 ADUF Physical File Characteristics
- 9.6.4.1 ADUF will be distributed to CUSTOMER via Secure FTP Mailbox. The ADUF feed will be a fixed block format. The data on the ADUF feed will be in a non-compacted EMI format (210 bytes). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN. If BellSouth determines the Secure FTP Mailbox is nearing capacity levels, BellSouth may move the CUSTOMER to CONNECT:Direct file delivery.

- 9.6.4.2 If the CUSTOMER is moved to CONNECT: Direct, data circuits (private line or dial-up) will be required between BellSouth and CUSTOMER for the purpose of data transmission. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit messages successfully on an ongoing basis will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the BellSouth end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on CUSTOMER's end for the purpose of data transmission will be the responsibility of CUSTOMER.
- 9.6.4.3 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.
- 9.6.5 ADUF Packing Specifications
- 9.6.5.1 The data will be packed using ATIS EMI records. A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.
- 9.6.5.2 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to CUSTOMER which BellSouth RAO is sending the message. BellSouth and CUSTOMER will use the invoice sequencing to control data exchange. CUSTOMER will notify BellSouth of sequence failures identified by CUSTOMER and BellSouth will resend the data as appropriate.
- 9.6.6 ADUF Pack Rejection
- 9.6.6.1 CUSTOMER will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (e.g. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. CUSTOMER will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to CUSTOMER by BellSouth.
- 9.6.7 ADUF Control Data

- 9.6.7.1 CUSTOMER will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate CUSTOMER's receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by CUSTOMER for reasons stated in the above section.
- 9.6.8 ADUF Testing
- 9.6.8.1 Upon request from CUSTOMER, BellSouth shall send a test file of generic data to CUSTOMER via CONNECT:Direct or Text File via e-mail. The Parties agree to review and discuss the test file's content and/or format.

10. CMDS Utilizing RAO Hosting

- 10.1 Definitions
- 10.1.1 Centralized Message Distribution System (CMDS) is a national message exchange system administered by Telcordia Technologies ("Telcordia") used to transmit alternately billed calls (e.g., credit card, third number and collect) from the Earning Company, as defined herein, to the Billing Company, as defined herein, to permit the Earning Company and the Billing Company to receive appropriate compensation.
- Direct Participants are Telecommunications carriers that exchange data directly with other Direct Participants via the CMDS Data Center and may act as host companies ("Host") for those Telecommunications carriers that do not exchange data directly via the CMDS Data Center ("Indirect Participants").
- 10.1.3 Revenue Accounting Office (RAO) Hosting is a hosting relationship where an Indirect Participant sends and receives CMDS eligible messages to and from its Host, who then interfaces, on behalf of the Indirect Participant, with other Direct Participants for distribution and collection of these messages. RAO Hosting also includes the Direct Participant's provision of revenue settlements functions (compensation) for alternately billed calls based upon reports generated by Credit Card and Third Number Settlement (CATS) and Non-InterCompany Settlement (NICS) as described herein. CATS and NICS are collectively referred to as Intercompany Settlements.
- The CATS System is a national system administered by Telcordia, used to settle revenues for calls that are sent from one CMDS Direct Participant to another for billing. CATS applies to calls that originate within one Regional Bell Operating Company's (RBOC) territory, as defined at Divestiture, and bill in another RBOC's territory. CATS calculates the amounts due to Earning Companies (i.e. billed revenue less the billing and collection fee). For alternately billed calls, the originating company, whose facilities are used to place the call, is the Earning

Company and the company that puts the charges on the End User's bill is the Billing Company.

- 10.1.5 The Non-InterCompany Settlement (NICS) System is the national system administered by Telcordia that is used in the settlement of revenues for calls that are originated and billed by two different local exchange carriers (LEC) within a single Direct Participant's territory to another for billing. NICS applies to calls involving another LEC where the Earning Company and the Billing Company are located within BellSouth's territory.
- 10.2 Upon CUSTOMER's request, BellSouth, as a Direct Participant, shall provide RAO Hosting Services to CUSTOMER, as an Indirect Participant, as set forth herein.
- 10.2.1 Where CUSTOMER selects BellSouth as its RAO Host for the delivery of Intercompany Settlements messages, CUSTOMER must request that BellSouth establish a unique hosted RAO code for CUSTOMER. Such request shall be in writing to the BellSouth RAO Hosting coordinator and must be submitted at least eight (8) weeks prior to provision of Services pursuant to this Section. Services shall commence on a date mutually agreed to by the Parties.
- 10.2.2 BellSouth will record CUSTOMER's End User messages and forward such messages to CUSTOMER via the ODUF in Exchange Message Interface (EMI) format. CUSTOMER must rate the messages and forward them to BellSouth, as its RAO Host, for distribution to the Billing Company via CMDS. BellSouth will deliver such messages for CUSTOMER through CMDS and will bill CUSTOMER for CMDS on a per message basis as set forth in Exhibit B of this Attachment. CUSTOMER must follow all Telcordia message exchange standards to send and receive the above referenced NICS and CATS settlements.
- BellSouth will receive messages from CUSTOMER that are to be processed by BellSouth, another LEC in the BellSouth region or a LEC outside the BellSouth region. CUSTOMER must send all messages to BellSouth no later than eighty nine (89) days after the message date or Telcordia will reject the entire pack.
- 10.2.4 RAO Hosting, CATS and NICS Services provided to CUSTOMER by BellSouth will be in accordance with the methods and practices regularly applied by BellSouth to its own operations during the term of this Agreement, including such revisions as may be made from time to time by BellSouth.
- 10.2.5 CUSTOMER shall furnish all relevant information required by BellSouth for the provision of RAO Hosting, CATS and NICS.
- 10.2.6 BellSouth will perform invoice sequence checking, standard EMI format editing, and balancing of message data with the EMI trailer record counts on all data received from CUSTOMER. All messages and related data exchanged between

DS0 Services Agreement Attachment 1 Page 25

BellSouth and CUSTOMER will be formatted for EMI formatted records and packed between appropriate EMI header and trailer records in accordance with accepted industry standards.

- All data received from CUSTOMER that is to be processed or billed by another LEC within the BellSouth region will be distributed to that LEC in accordance with the agreement(s) in effect between BellSouth and the involved LEC.
- All data received from CUSTOMER that is to be placed on the CMDS network for distribution outside the BellSouth region will be handled in accordance with the agreement(s) in effect between BellSouth and its connecting contractor, currently Telcordia.
- 10.2.9 BellSouth will receive messages from the CMDS network that are destined to be processed by CUSTOMER and will forward them to CUSTOMER on a daily basis for processing.
- 10.2.10 CMDS data between BellSouth and CUSTOMER will be distributed via Secure FTP Mailbox. It will be created on a daily basis Monday through Friday, except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. If BellSouth determines the Secure FTP Mailbox is nearing capacity levels, BellSouth may move CUSTOMER to CONNECT:Direct file delivery.
- 10.2.11 If CUSTOMER is moved to CONNECT: Direct, data circuits (private line or dialup) will be required between BellSouth and CUSTOMER for the purpose of data transmission when utilizing CONNECT:Direct. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit successfully ongoing will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dialup facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the BellSouth end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on the CUSTOMER end for the purpose of data transmission will be the responsibility of CUSTOMER.
- 10.2.12 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.

- 10.2.13 CUSTOMER will maintain recorded message detail necessary to recreate files provided to BellSouth for a period of three (3) calendar months beyond the related message dates.
- In the event that data to be exchanged between CUSTOMER and BellSouth via CMDS should become lost or destroyed, the Party responsible for creating the data will make every effort to restore and retransmit such data. Should an error be detected by the EMI format edits performed by BellSouth on data received from CUSTOMER, the entire pack containing the affected data will not be processed by BellSouth. BellSouth will notify CUSTOMER of the error. CUSTOMER will correct the error(s) and will resend the entire pack to BellSouth for processing. In the event that an out-of-sequence condition occurs on subsequent packs, CUSTOMER will resend these packs to BellSouth after the pack containing the error has been successfully reprocessed by BellSouth.
- 10.3 Intercompany Settlements Messages
- 10.3.1 BellSouth will receive the monthly NICS and CATS reports from Telcordia on behalf of CUSTOMER and will distribute copies of these reports to CUSTOMER on a monthly basis.
- Through CATS BellSouth will collect the revenue earned by CUSTOMER from the RBOC in whose territory the messages are billed, less a per message billing and collection fee of five cents (\$0.05), or such other amount as may be approved by the Direct Participants and Telcordia, on behalf of CUSTOMER. BellSouth will remit the revenue billed by CUSTOMER to the RBOC in whose territory the messages originated, less a per message billing and collection fee of five cents (\$0.05), or such other amount as may be approved by the Direct Participants and Telcordia, on behalf of CUSTOMER. These two amounts will be netted together by BellSouth and the resulting charge or credit issued to CUSTOMER via a Carrier Access Billing System (CABS) miscellaneous bill on a monthly basis in arrears.
- Through NICS BellSouth will collect the revenue earned by CUSTOMER within the BellSouth territory from another LEC also within the BellSouth territory (NICS) where the messages are billed, less a per message billing and collection fee of five cents (\$0.05), on behalf of CUSTOMER. BellSouth will remit the revenue billed by CUSTOMER within the BellSouth region to the LEC also within the BellSouth region, where the messages originated, less a per message billing and collection fee of five cents (\$0.05). These two amounts will be netted together by BellSouth and the resulting charge or credit issued to CUSTOMER via a CABS miscellaneous bill on a monthly basis in arrears.
- 10.3.4 BellSouth and CUSTOMER agree that monthly-netted amounts of less than fifty dollars (\$50.00) will not be settled.

11. Rates

11.1 For ODUF, ADUF and CMDS rates are as set forth in Exhibit B to this Attachment.

PRE-ORDERING, ORDERING, PROVISIONING AND MAINTENANCE AND REPAIR

1. Guidelines

- 1.1 The guidelines for pre-ordering, ordering, provisioning and maintenance and repair are set forth in Exhibit A attached hereto.
- 1.2 BellSouth shall provide CUSTOMER pre-ordering, ordering, provisioning and maintenance and repair capabilities through manual and electronic interfaces as described in this Attachment ("Interfaces"). It is the sole responsibility of CUSTOMER to obtain the technical capability to access and utilize BellSouth's Interfaces as they may be modified from time to time. CUSTOMER's use of BellSouth's Interfaces shall be in accordance with the applicable guides, business rules and specifications set forth in Exhibit A hereto.
- 1.3 Notwithstanding anything to the contrary in any guides, business rules or other specifications, listed or referenced in Exhibit A, CUSTOMER shall have no right to submit requests, vote on issues, or otherwise participate in BellSouth's Change Control Process with respect to the Services hereunder.
- 1.4 CUSTOMER agrees to comply with the provisions of the Operations Support Systems (OSS) Interconnection Volume Guidelines as set forth at BellSouth's Interconnection Web site, as amended from time to time, incorporated herein by reference.

2. Pre-Ordering

- 2.1 The Interfaces provide access to the following pre-ordering functions: service address validation, telephone number selection, service and feature availability, due date information and customer service record ("CSR") information.
- 2.1.1 Loop make-up information is not necessary for the Services offered pursuant to this Agreement and, although the function may be available as a pre-ordering function of the Interfaces, CUSTOMER is not authorized to receive loop make-up information pursuant to this Agreement. CUSTOMER shall not request loop make-up information for Services under this Agreement and shall indemnify BellSouth against any claims, loss, damage or other expenses arising as a result of CUSTOMER requesting loop make-up.
- 2.2 CUSTOMER shall provide to BellSouth access to the same type of CSR information that BellSouth makes available to CUSTOMER, including circuit numbers associated with each telephone number where applicable. CUSTOMER

shall provide such information within four (4) hours after request via electronic access where available. If electronic access is not available, CUSTOMER shall provide to BellSouth paper copies of CSR information, via email, to an address designated by BellSouth, unless otherwise agreed to by BellSouth including circuit numbers associated with each telephone number where applicable. If BellSouth requests the information before noon, the CSR information shall be provided the same day. If BellSouth requests the information after noon, the CSR information shall be provided by noon the following day.

2.3 CUSTOMER agrees not to view, copy, or otherwise obtain access to the CSR information of any End User without that End User's permission. CUSTOMER will obtain access to CSR information only in strict compliance with applicable laws, rules, or regulations of the state in which the Service is provided. BellSouth reserves the right to monitor CUSTOMER's access to CSR information. If BellSouth determines that CUSTOMER is accessing CSR information without having obtained the proper End User authorization, BellSouth upon reasonable notice to CUSTOMER may take corrective action, including but not limited to suspending or terminating CUSTOMER's access to BellSouth's Interfaces.

3. Ordering

- 3.1 CUSTOMER shall place orders for Services by submitting a complete and correct ("Valid") local service request ("LSR") to BellSouth. BellSouth shall bill CUSTOMER an electronic service order charge as specified in Exhibit C for each LSR submitted by means of an electronic interface. BellSouth shall bill CUSTOMER a manual service order charge as specified in Exhibit C for each LSR submitted by means other than the electronic interfaces (e.g. mail, fax, courier, etc.). An individual LSR will be identified for billing purposes by its Purchase Order Number ("PON").
- 3.2 CUSTOMER may submit an LSR to request that an End User's service be temporarily suspended or denied, or restored. Alternatively, CUSTOMER may submit a list of such End Users if CUSTOMER provides a separate PON for each location on the list. Each location will be billed as a separate LSR.
- 3.3 BellSouth will bill the electronic or manual service order charge, as applicable, for an LSR, regardless of whether that LSR is later supplemented, clarified or cancelled.
- 3.4 Notwithstanding the foregoing, BellSouth will not bill an additional electronic or manual service order charge for supplements to any LSR submitted to clarify, correct, change or cancel a previously submitted LSR.
- 3.5 <u>Pending Orders and LSRs.</u> To the extent that CUSTOMER submits an LSR with incomplete, incorrect or conflicting information, BellSouth will return the LSR to

CUSTOMER for clarification. CUSTOMER shall respond to the request for clarification within thirty (30) days by submitting a supplement LSR. If CUSTOMER does not submit a supplement LSR within thirty (30) days, BellSouth will cancel the original LSR and CUSTOMER shall be required to submit a new LSR, with a new PON.

4. Provisioning

- 4.1 BellSouth shall provision Services during its regular working hours. To the extent CUSTOMER requests provisioning of Service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or Project Manager to work outside of regular working hours, the overtime charges set forth in BellSouth's State E Tariff, Section 13.2, shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or Project Manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of CUSTOMER, BellSouth will not assess overtime charges. To the extent CUSTOMER requests project management for provisioning of Services under this Agreement, additional charges may apply and shall be negotiated by the Parties.
- In the event BellSouth must dispatch to the End User's location more than once due to incorrect or incomplete information provided by CUSTOMER (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill CUSTOMER for each additional dispatch required to provision the Service due to the incorrect/incomplete information provided. BellSouth will assess applicable Maintenance of Service rates from BellSouth's FCC No. 1 Tariff, Section 13.3.1.
- 4.3 <u>Cancellation Charges.</u> If CUSTOMER cancels an LSR subsequent to BellSouth's generation of a service order, any costs incurred by BellSouth in conjunction with the provisioning of Services as requested on the cancelled LSR will be recovered in accordance with the cancellation methodology set forth in Exhibit B.
- 4.4 <u>Service Date Advancement Charges (Expedites).</u> Service Date Advancement charges will apply where CUSTOMER, requests that Services be provisioned prior to the due date provided by BellSouth, and where BellSouth agrees to an expedited provisioning time frame. Charges shall be as set forth in Exhibit C.

5. Maintenance and Repair

BellSouth will make Interfaces available to CUSTOMER for the purpose of reporting and monitoring service troubles. CUSTOMER's use of BellSouth's maintenance and repair Interfaces shall be in accordance with the applicable guides, business rules and specifications for maintenance and repair as set forth in Exhibit A hereto.

- Once CUSTOMER has isolated a trouble on a Wholesale Local Platform Service to the BellSouth provided network, and has issued a trouble report to BellSouth, BellSouth will take the actions necessary to repair the network when the trouble is found. BellSouth will repair its network facilities to its Wholesale customers in the same time frames that BellSouth repairs similar services to its own End Users.
- 5.3 If CUSTOMER reports a trouble on a Wholesale Local Platform Service and no trouble is found in BellSouth's network, BellSouth will charge CUSTOMER a Maintenance of Service Charge for any dispatching and testing (both inside and outside the CO) required by BellSouth in order to confirm the Service's working status. BellSouth will assess the applicable Maintenance of Service rates from BellSouth's FCC No.1 Tariff, Section 13.3.1.
- In the event BellSouth must dispatch to the End User's location more than once due to incorrect or incomplete information provided by CUSTOMER (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill CUSTOMER for each additional dispatch required to repair the Service due to the incorrect/incomplete information provided. BellSouth will assess the applicable Maintenance of Service rates from BellSouth's FCC No. 1 Tariff, Section 13.3.1.

6. Miscellaneous

- Single Point of Contact. CUSTOMER will be the single point of contact with BellSouth for ordering activity pursuant to this Agreement, except that BellSouth may accept a request directly from another CLEC, or from BellSouth, acting with authorization of the affected End User, to disconnect the Services provided hereunder in order to permit the End User to change service providers, as described in Section 6.3 below. CUSTOMER shall execute a blanket letter of authorization with respect to CUSTOMER's ordering activity so that prior proof of End User authorization will not be necessary with every LSR (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of End User authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines.
- 6.2 CUSTOMER shall not prevent or delay an End User from changing to another carrier because of unpaid bills, denied service, or contract terms.
- 6.3 <u>Use of Facilities.</u> Pursuant to a request from an End User of CUSTOMER, or from another local exchange carrier (LEC), including BellSouth, on behalf of such End User, BellSouth shall have the right to disconnect the Services being used by CUSTOMER to provide Service to that End User and reuse those facilities to enable such other LEC to provide service to that End User. In addition, BellSouth may disconnect and reuse facilities when the Service to the End User has been withheld or denied by CUSTOMER, or by BellSouth in accordance with the terms

of this Agreement, and BellSouth has received a request from an End User or another LEC to establish new or additional service at, or to transfer service to, the same address served by that facility. BellSouth will notify CUSTOMER that such a request has been processed after the order disconnecting CUSTOMER's Service to that End User has been completed.

- 6.4 <u>Contact Numbers.</u> The Parties agree to provide one another with toll-free nation-wide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of Services.
- 6.5 <u>Subscription Functions.</u> In cases where BellSouth performs subscription functions for an interexchange carrier (IXC) (i.e., where BellSouth changes the End User Preferred Interexchange Carrier (PIC) and/or End User Local Preferred Interexchange Carrier (LPIC) via Customer Account Record Exchange (CARE)), BellSouth will provide the affected IXCs with the Operating Company Number (OCN) of CUSTOMER for the purpose of obtaining End User billing account and other End User information required under subscription requirements.
- 6.6 <u>PIC and LPIC Charges.</u> When CUSTOMER's End User that is served utilizing Wholesale Local Platform Services or Wholesale Switch Port Services, changes its PIC and/or LPIC, and per BellSouth's FCC or state tariff, the IXC elects to charge the End User the PIC and/or LPIC change charge, BellSouth will bill the PIC and/or LPIC change charge to CUSTOMER, which has the billing relationship with that End User, and CUSTOMER may pass such charge to the End User.

7. Rates

Unless otherwise specified herein, charges for the use of BellSouth's Interfaces, and other charges applicable to preordering, ordering, provisioning and maintenance and repair, shall be as set forth in Exhibit C to this Attachment. In the event CUSTOMER modifies the rates or rate structure for use of BellSouth's manual or electronic interfaces in any other agreement with BellSouth, then upon BellSouth's request, CUSTOMER shall amend this Agreement to reflect the same rates or rate structure. In the state of Tennessee, manual service order charges shall apply on a per element, non-recurring basis as identified in Exhibit A of Attachment 1 in lieu of the per LSR manual service order charge set forth in Exhibit C hereto.

Guides, Business Rules and Specifications

The applicable guides, business rules and specifications are set forth on the BellSouth Interconnection Services web site and include, but are not limited to, the following:

BellSouth Local Ordering Handbook (LOH)

CLEC Billing Guide

CLEC Service Order Tracking System (CSOTS) User Guide

CLEC Trouble Analysis Facilitation Interface (TAFI) User Guide

CLEC Universal Service Order Code (USOC) Manual

Electronic Communications Trouble Administration (ECTA) Start-Up Guide

Electronic Data Interchange (EDI) Specifications Guide

Local Exchange Navigation System (LENS) User Guide

Operational Understanding

Operations Support Systems (OSS) Interconnection Volume Guidelines

Telecommunications Access Gateway (TAG) User Guide

2.	BILLING DISPUTES	9

BILLING

1 PAYMENT AND BILLING ARRANGEMENTS

- 1.1 The terms and conditions set forth in this Attachment shall apply to all Services ordered and provisioned pursuant to this Agreement.
- 1.2 <u>Billing.</u> BellSouth will bill CUSTOMER in Carrier Access Billing System (CABS) Billing Output Specification (CBOS) standard format. BellSouth's billing format may change in accordance with applicable industry standards.
- 1.2.1 Subject to Section 5 of the General Terms and Conditions of this Agreement BellSouth will render bills each month on established bill days for each of CUSTOMER's accounts. If CUSTOMER requests multiple billing media or additional copies of the bills, BellSouth will provide these at the rates set forth in BellSouth's FCC No. 1 Tariff, Section 13.3.6.3.
- 1.2.2 BellSouth will bill CUSTOMER in advance for all Services to be provided during the ensuing billing period except charges associated with Service usage and nonrecurring charges, which will be billed in arrears.
- 1.2.3 BellSouth will not perform billing and collection services for CUSTOMER as a result of the execution of this Agreement.
- 1.3 <u>Establishing Accounts.</u> Unless BellSouth elects otherwise, BellSouth will bill for Services using wholesale billing accounts established by BellSouth pursuant to a separate agreement between the Parties. If BellSouth elects to establish a new account under this Agreement for billing Services, or if CUSTOMER does not have an appropriate wholesale billing account established under a separate agreement with BellSouth, such account shall be established under this Agreement as follows.
- 1.3.1 After submitting a credit profile and deposit, if required, and after receiving certification as a local exchange carrier from the appropriate Commission, CUSTOMER will provide the appropriate BellSouth advisory team/local contract manager the necessary documentation to enable BellSouth to establish accounts for the Services described in this Agreement. Such documentation shall include an application for the establishment of accounts, if applicable, proof of authority to provide Telecommunications Services, the appropriate Operating Company Numbers (OCN) for each state as assigned by the National Exchange Carriers Association (NECA), Carrier Identification Code (CIC), Access Customer Name and Abbreviation (ACNA), Blanket Letter of Authorization (LOA), Misdirected Number form, and a tax exemption certificate, if applicable. Notwithstanding anything to the contrary in this Agreement, CUSTOMER may not order Services

Version: 02/16/05

under a new account established in accordance with this Section 1.3.1 until thirty (30) days after all information specified in this Section 1.3.1 is received from CUSTOMER.

- 1.3.2 Company Identifiers. If CUSTOMER needs to change, add to, eliminate or convert its OCN(s), ACNAs, and other identifying codes (collectively "Company Identifiers") under which it operates when CUSTOMER has already been conducting business utilizing those Company Identifiers, CUSTOMER shall pay all charges as a result of such change, addition, elimination or conversion to the new Company Identifiers. Such charges include, but are not limited to, all time required to make system updates to all of CUSTOMER's End User records and any other changes to BellSouth systems or CUSTOMER records, and will be handled in a separately negotiated agreement or as otherwise required by BellSouth.
- 1.3.3 Tax Exemption. It is the responsibility of CUSTOMER to provide BellSouth with a properly completed tax exemption certificate at intervals required by the appropriate taxing authorities. A tax exemption certificate must be supplied for each individual CUSTOMER entity purchasing Services under this Agreement. Upon BellSouth's receipt of a properly completed tax exemption certificate, subsequent billings to CUSTOMER will not include those taxes or fees from which CUSTOMER is exempt. Prior to receipt of a properly completed exemption certificate, BellSouth shall bill, and CUSTOMER shall pay all applicable taxes and fees. In the event that CUSTOMER believes that it is entitled to an exemption from and refund of taxes with respect to the amount billed prior to BellSouth's receipt of a properly completed exemption certificate, BellSouth shall assign to CUSTOMER its rights to claim a refund of such taxes. If applicable law prohibits the assignment of tax refund rights or requires the claim for refund of such taxes to be filed by BellSouth, BellSouth shall, after receiving a written request from CUSTOMER and at CUSTOMER's sole expense, pursue such refund claim on behalf of CUSTOMER, provided that CUSTOMER promptly reimburses BellSouth for any costs and expenses incurred by BellSouth in pursuing such refund claim, and provided further that BellSouth shall have the right to deduct any such outstanding costs and expenses from the amount of any refund obtained prior to remitting such refund to CUSTOMER. CUSTOMER shall be solely responsible for the computation, tracking, reporting and payment of all taxes and fees associated with the Services provided by CUSTOMER to its End Users.
- 1.4 <u>Deposit Policy.</u> Prior to the inauguration of Service or, thereafter, upon BellSouth's request, CUSTOMER shall complete the BellSouth Credit Profile (BellSouth form) and provide information to BellSouth regarding CUSTOMER's credit and financial condition. Based on BellSouth's analysis of the BellSouth Credit Profile and other relevant information regarding CUSTOMER's credit and financial condition, BellSouth reserves the right to require CUSTOMER to provide BellSouth with a suitable form of security deposit for CUSTOMER's

account(s). If, in BellSouth's sole discretion, circumstances so warrant and/or CUSTOMER's gross monthly billing has increased, BellSouth reserves the right to request additional security (or to require a security deposit if none was previously requested) and/or file a Uniform Commercial Code (UCC-1) security interest in CUSTOMER's "accounts receivables and proceeds".

- 1.4.1 Security deposit shall take the form of cash, an Irrevocable Letter of Credit (BellSouth form), Surety Bond (BellSouth form) or, in BellSouth's sole discretion, some other form of security proposed by CUSTOMER. Any such security deposit shall in no way release CUSTOMER from its obligation to make complete and timely payments of its bill(s). If BellSouth requires CUSTOMER to provide a security deposit, CUSTOMER shall provide such security deposit prior to the inauguration of Service or within fifteen (15) days of BellSouth's request, as applicable. Deposit request notices will be sent to CUSTOMER via certified mail or overnight delivery. Such notice period will start the day after the deposit request notice is rendered by certified mail or overnight delivery. Interest on a cash security deposit shall, accrue and be applied or refunded in accordance with the terms in BellSouth's General Subscriber Services Tariff (GSST).
- 1.4.2 Security deposits collected under this Section 1.4 shall not exceed two (2) months' estimated billing. Estimated billings are calculated based upon the monthly average of the previous six (6) months current billings, if CUSTOMER has received service from BellSouth during such period at a level comparable to that anticipated to occur over the next six (6) months. If either CUSTOMER or BellSouth has reason to believe that the level of service to be received during the next six (6) months will be materially higher or lower than received in the previous six (6) months, CUSTOMER and BellSouth shall agree on a level of estimated billings based on all relevant information.
- 1.4.3 In the event CUSTOMER fails to provide BellSouth with a suitable form of security deposit or additional security deposit as required herein, defaults on its account(s), or otherwise fails to make any payment or payments required under this Agreement in the manner and within the time required, service to CUSTOMER may be Suspended, Discontinued or Terminated in accordance with the terms of Section 1.6 below. Upon Termination of Services, BellSouth shall apply any security deposit to CUSTOMER's final bill for its account(s).
- 1.4.3.1 At least seven (7) days prior to the expiration of any letter of credit provided by CUSTOMER as security under this Agreement, CUSTOMER shall renew such letter of credit or provide BellSouth with evidence that CUSTOMER has obtained a suitable replacement for the letter of credit. If CUSTOMER fails to comply with the foregoing, BellSouth shall thereafter be authorized to draw down the full amount of such letter of credit and utilize the cash proceeds as security for CUSTOMER account(s). If CUSTOMER provides a security deposit or additional security deposit in the form of a surety bond as required herein,

CUSTOMER shall renew the surety bond or provide BellSouth with evidence that CUSTOMER has obtained a suitable replacement for the surety bond at least seven (7) days prior to the cancellation date of the surety bond. If CUSTOMER fails to comply with the foregoing, BellSouth shall thereafter be authorized to take action on the surety bond and utilize the cash proceeds as security for CUSTOMER's account(s). If the credit rating of any bonding company that has provided CUSTOMER with a surety bond provided as security hereunder has fallen below B, BellSouth will provide written notice to CUSTOMER that CUSTOMER must provide a replacement bond or other suitable security within fifteen (15) days of BellSouth's written notice. If CUSTOMER fails to comply with the foregoing, BellSouth shall thereafter be authorized to take action on the surety bond and utilize the cash proceeds as security for CUSTOMER's account(s). Notwithstanding anything contained in this Agreement to the contrary, BellSouth shall be authorized to draw down the full amount of any letter of credit or take action on any surety bond provided by CUSTOMER as security hereunder if CUSTOMER defaults on its account(s) or otherwise fails to make any payment or payments required under this Agreement in the manner and within the time, as required herein.

- 1.5 <u>Payment Responsibility.</u> Payment of all charges will be the responsibility of CUSTOMER. CUSTOMER shall pay invoices utilizing wire transfer services or automatic clearing house services. CUSTOMER shall make payment to BellSouth for all services billed including disputed amounts. BellSouth will not become involved in billing disputes that may arise between CUSTOMER and CUSTOMER's End User.
- 1.5.1 Payment Due. Payment for Services provided by BellSouth, including disputed charges, is due on or before the next bill date. Information required to apply payments must accompany the payment. The information must notify BellSouth of Billing Account Numbers (BAN) paid; invoices paid and the amount to be applied to each BAN and invoice (Remittance Information). Payment is considered to have been made when the payment and Remittance Information are received by BellSouth. If the Remittance Information is not received with payment, BellSouth will be unable to apply amounts paid to CUSTOMER's accounts. In such event, BellSouth shall hold such funds until the Remittance Information is received. If BellSouth does not receive the Remittance Information by the payment due date for any account(s), late payment charges shall apply.
- 1.5.1.1 <u>Due Dates.</u> If the payment due date falls on a Sunday or on a holiday that is observed on a Monday, the payment due date shall be the first non-holiday day following such Sunday or holiday. If the payment due date falls on a Saturday or on a holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-holiday day preceding such Saturday or holiday. If payment is not received by the payment due date, a late payment charge, as set forth in Section 1.5.1.2, below, shall apply.

- Late Payment. If any portion of the payment is not received by BellSouth on or before the payment due date as set forth preceding, or if any portion of the payment is received by BellSouth in funds that are not immediately available to BellSouth, then a late payment and/or interest charge shall be due to BellSouth. The late payment and/or interest charge shall apply to the portion of the payment not received and shall be assessed as set forth in Section A2 of the General Subscriber Services Tariff, Section B2 of the Private Line Service Tariff or Section E2 of the Intrastate Access Tariff or pursuant to the applicable state law as determined by BellSouth. In addition to any applicable late payment and/or interest charges, CUSTOMER may be charged a fee for all returned checks at the rate set forth in Section A2 of the General Subscriber Services Tariff or pursuant to the applicable state law.
- 1.6 <u>Discontinuing Service to CUSTOMER.</u> The procedures for discontinuing Service to CUSTOMER are as follows:
- 1.6.1 In order of severity, Suspend/Suspension, Discontinue/Discontinuance and Terminate/Termination are defined as follows for the purposes of this Attachment:
- 1.6.1.1 Suspend/Suspension is the temporary restriction of the billed Party's access to the ordering systems and/or access to the billed Party's ability to initiate PIC-related changes. In addition, during Suspension, pending orders may not be completed and orders for new Service or changes to existing Services may not be accepted.
- 1.6.1.2 Discontinue/Discontinuance is the denial of service by the billing Party to the billed Party that will result in the disruption and discontinuation of Service to the billed Party's End Users or customers. Additionally, at the time of Discontinuance, BellSouth will remove any Local Service Freezes in place on the billed Party's End Users.
- 1.6.1.3 Terminate/Termination is the disconnection of Service by the billing Party to the billed Party.
- 1.6.1.4 BellSouth reserves the right to Suspend, Discontinue or Terminate service in the event of prohibited, unlawful or improper use of BellSouth facilities or service, abuse of BellSouth facilities, or any other violation or noncompliance by CUSTOMER of the rules and regulations of BellSouth's tariffs.
- Suspension. If payment of amounts due as described herein is not received by the bill date in the month after the original bill date, or fifteen (15) days from the date of a deposit request in the case of security deposits, BellSouth will provide written notice to CUSTOMER that Services will be Suspended if payment of such amounts, and all other amounts that become past due before Suspension, is not received by wire transfer, automatic clearing house or cashier's check in the manner set forth in Section 1.5.1 above or in the case of a security deposit request, in the manner set forth in Section 1.4.1 above: (1) within seven (7) days following such notice for CABS billed Services; (2) within fifteen (15) days following such

notice for CRIS and IBS billed Services; and (3) within seven (7) days following such notice for security deposit requests.

- 1.6.2.1 The Suspension notice shall also provide that all past due charges for CRIS and IBS billed Services, and all other amounts that become past due for such services before Discontinuance, must be paid within thirty (30) days from the date of the Suspension notice to avoid Discontinuance of CRIS and IBS billed Services.
- 1.6.2.2 For CABS billed services, BellSouth will provide a Discontinuance notice that is separate from the Suspension notice, that all past due charges for CABS billed Services, and all other amounts that become past due for such Services before Discontinuance, must be paid within thirty (30) days from the date of the Suspension notice to avoid Discontinuance of CABS billed Services. This Discontinuance notice may be provided at the same time that BellSouth provides the Suspension notice.
- 1.6.2.3 <u>Discontinuance.</u> If payment of amounts due as described herein is not received by the bill date in the month after the original bill date, BellSouth will provide written notice that BellSouth may Discontinue the provision of existing Services to CUSTOMER if payment of such amounts and all other amounts that become past due before Discontinuance, including requested security deposits, is not received by wire transfer, automatic clearing house or cashier's check in the manner set forth in Section 1.5.1 above or in the case of a security deposit in accordance with Section 1.4.1 within thirty (30) days following such written notice; provided, however, that BellSouth may provide written notice that such existing Services may be Discontinued within fifteen (15) days following such notice, subject to the criteria described in Section 1.5.
- 1.6.3 BellSouth may take the action to Discontinue the provision of existing Service upon fifteen (15) days from the day after BellSouth provides written notice of such Discontinuance if (a) such notice is sent by certified mail or overnight delivery; (b) CUSTOMER has not paid all amounts due pursuant to a subject bill(s), or has not provided adequate security pursuant to a deposit request; and (c) either:
 - (1) BellSouth has sent the subject bill(s) to CUSTOMER within (7) business days of the bill date(s), verifiable by records maintained by BellSouth:
 - i. in paper or CDROM form via the United States Postal Service (USPS), or
 - ii. in magnetic tape form via overnight delivery, or
 - iii. via electronic transmission; or
 - (2) BellSouth has sent the subject bill(s) to CUSTOMER, using one of the media described in (1) above, more than thirty (30) days before notice to discontinue service has been rendered.

- 1.6.4 In the case of Discontinuance of Services, all billed charges, as well as applicable disconnect, interest and late payment charges, shall become due.
- 1.6.5 CUSTOMER is solely responsible for notifying the End User of the Discontinuance of service. If, within seven (7) days after CUSTOMER's Services have been Discontinued, CUSTOMER pays, by wire transfer, automatic clearing house or cashier's check, all past due charges, including late payment charges, outstanding security deposit request amounts if applicable and any applicable restoral charges as set forth in Section A4 of the GSST, then BellSouth will reestablish Service for CUSTOMER.
- 1.6.6 <u>Termination.</u> If within seven (7) days after CUSTOMER's Service has been Discontinued and CUSTOMER has failed to pay all past due charges as described above, then CUSTOMER's Service will be Terminated.
- Notices. Notwithstanding anything to the contrary in this Agreement, all bills and notices regarding billing matters, disconnection of services for nonpayment of charges, and rejection of additional orders from CUSTOMER, shall be forwarded to the individual and/or address provided by CUSTOMER in establishment of its billing account(s) with BellSouth, or to the individual and/or address subsequently provided by CUSTOMER as the contact for billing. All monthly bills and notices described in this Section shall be forwarded to the same individual and/or address; provided, however, upon written request from CUSTOMER to BellSouth's billing organization, the notice of discontinuance of services purchased by CUSTOMER under this Agreement provided for in Section 1.6.2 of this Attachment shall be sent via certified mail to the individual(s) listed in the Notices provision of the General Terms and Conditions of this Agreement.

2. BILLING DISPUTES

- CUSTOMER shall electronically submit all billing disputes to BellSouth using the form specified by BellSouth. In the event of a billing dispute, the Parties will endeavor to resolve the dispute within sixty (60) days of the notification date. Within five (5) business days of BellSouth's denial, or partial denial, of the billing dispute, if CUSTOMER is not satisfied with BellSouth's resolution of the billing dispute or if no response to the billing dispute has been received by CUSTOMER by such sixtieth (60th) day, CUSTOMER must pursue the escalation process as outlined in the Billing Dispute Escalation Matrix, set forth on the BellSouth Interconnection Services Web site, or the billing dispute shall be considered denied and closed. If, after escalation, the Parties are unable to reach resolution, then the aggrieved Party, if it elects to pursue the dispute, shall pursue dispute resolution in accordance with the General Terms and Conditions of this Agreement.
- For purposes of this Section 2, a billing dispute means a reported dispute submitted pursuant to Section 2.1 of a specific amount of money actually billed by BellSouth. The billing dispute must be clearly explained by CUSTOMER and

supported by written documentation, which clearly shows the basis for disputing charges. The determination as to whether the billing dispute is clearly explained or clearly shows the basis for disputing charges shall be within BellSouth's sole reasonable discretion. Disputes that are not clearly explained or those that do not provide complete information may be rejected by BellSouth. Claims by CUSTOMER for damages of any kind will not be considered a billing dispute for purposes of this Section. If BellSouth resolves the billing dispute, in whole or in part, in favor of CUSTOMER, any credits and interest due to CUSTOMER as a result thereof shall be applied to CUSTOMER's account by BellSouth upon resolution of the billing dispute.

Service Level Commitments (SLCs) for DS0 Wholesale Local Voice Platform Services

1. Introduction

The SLCs as stated in this Attachment 4 shall become effective and apply to Services ordered during and after the first full calendar month following the Effective Date of the Agreement and shall be applied only to BellSouth's performance with respect to DS0 Wholesale Local Voice Platform Services.

2. Reporting Methodology

- 2.1 BellSouth will self-report CUSTOMER service performance data (and BellSouth retail performance data for SLC-4, Maintenance Average Duration) using BellSouth's internal processes to determine performance metrics for DS0 Wholesale Local Voice Platform Services. The reporting period for each metric is a full calendar month. CUSTOMER data will be collected and reports will be generated on both a regional and a state specific basis for all metrics. In addition, for SLC-4, Maintenance Average Duration, BellSouth retail data reports will be generated on a BellSouth regional retail aggregate basis. Reports will display all percentages and averages to two decimal points, using standard rounding rules.
- 2.2 BellSouth will utilize the reports described above to calculate the performance metrics and associated payments, if any, for the reporting period.

3. SLC Methodology

The following SLCs, as defined in this Attachment, will be measured in accordance with the terms and conditions herein. Payments for SLCs, as applicable, shall be paid based upon regional data only within the reporting period. SLCs and applicable remedy payments are as follows:

Service Level Commitments	Per Occurrence Payment
FOC Timeliness (≤3 hours): 95%	\$10*
Installation Appointments Met: 98%	\$25*
Repair Appointments Met: 94%	\$25*
Maintenance Average Duration: <u>SellSouth retail aggregate</u>	\$25**

^{*} Per missed occurrence below the stated performance objective as described in Section 5

Version: 07/07/04

Confidential and proprietary. May not be disclosed outside of BellSouth. Subject to Nondisclosure Agreement.

** Per occurrence below the stated performance objective as described in SLC-4 as described in Section 5

4. SLC Performance Metric Definitions

- 4.1 SLC-1: Firm Order Confirmation (FOC) Timeliness
- 4.1.1 SLC-1 measures the percentage of Local Service Requests (LSRs) confirmed through the return of a FOC within an interval of three (3) hours or less during the reporting period. The interval for return of a FOC is measured by the elapsed time from receipt of a valid (complete and correct) fully mechanized LSR (date and time stamped in ordering interface gateways) until BellSouth processes the LSR, generates appropriate service orders and returns a FOC to CUSTOMER via ordering interface gateways. When multiple FOCs occur on a single LSR, the first FOC is used to measure the interval.
- 4.1.2 The following exclusions apply: 1) LSRs that are identified as Projects as defined in BellSouth's Local Ordering Handbook, as amended from time to time; 2) Test Transactions/Records; 3) LSRs cancelled by CUSTOMER prior to a FOC being returned; 4) Scheduled OSS Maintenance; 5) Partially Mechanized LSRs (submitted electronically but processed manually); and 6) Non-Mechanized LSRs (submitted and processed manually).
- 4.2 SLC-2: Installation Appointments Met
- 4.2.1 SLC-2 measures the percentage of total completed installation service orders for which BellSouth meets the committed due date for service orders completed in the reporting period. BellSouth is considered to have met the committed due date unless the installation date is later than the committed due date and the missed installation appointment is due to a BellSouth reason. The SLC-2 metric only applies to the first committed due date, regardless of whether subsequent committed due dates are established for the same service order. Calculation of SLC-2 includes service orders requiring dispatches and service orders not requiring dispatches.
- 4.2.2 The following exclusions apply: 1) Cancelled service orders; 2) Order activities of BellSouth or CUSTOMER associated with internal or administrative use of local services (e.g. Record Orders, Test Orders, etc., which may be order types C, N, R or T); 3) Disconnect orders; and 4) Listing orders.
- 4.3 SLC-3: Repair Appointments Met
- 4.3.1 SLC-3 measures the percentage of closed CUSTOMER trouble reports within the reporting period where the service is resolved as repaired by the committed date

Version: 07/07/04

and time. Calculation of the metric includes repairs requiring dispatch and repairs not requiring dispatch.

- 4.3.2 The following exclusions apply: 1) CUSTOMER trouble reports cancelled at CUSTOMER's request; 2) BellSouth trouble reports associated with internal or administrative service; 3) Customer (End User) Provided Equipment (CPE) or CUSTOMER equipment troubles; 4) Trouble outside BellSouth's control; and 5) Informational trouble tickets.
- 4.4 SLC-4: Maintenance Average Duration
- 4.4.1 SLC-4 measures the average duration of closed CUSTOMER trouble reports compared to closed BellSouth End User trouble reports in the reporting period. The duration of a trouble report starts on the date and time of receipt of a trouble report and stops on the date and time the service is resolved as repaired. Calculation of the metric includes trouble reports requiring dispatches and trouble reports not requiring dispatches.
- 4.4.2 The following exclusions apply: 1) CUSTOMER trouble tickets cancelled at CUSTOMER's request; 2) BellSouth trouble reports associated with internal or administrative service; 3) Customer (End User) Provided Equipment (CPE) or CUSTOMER equipment troubles; 4) Troubles outside BellSouth's control; and 5) Informational trouble tickets.
- 5. Calculation of Occurrences and Payment

The metrics described above shall be calculated and the payments, if any, to CUSTOMER shall be determined as follows:

- 5.1 For SLC-1, FOC Timeliness:
- 5.1.1 BellSouth will divide (i) the number of CUSTOMER LSRs submitted for which a FOC is returned within the reporting period within 3 hours by (ii) the total number of CUSTOMER LSRs submitted for which a FOC is returned in the reporting period.
- 5.1.2 If the resulting quotient in Section 5.1.1 above is .95 or greater, there are no missed occurrences for which payment is due under this Attachment.
- 5.1.3 In the event that greater than 5% of the FOCs returned within the reporting period exceed the 3-hour interval, then each FOC returned in greater than 3 hours in excess of 5% shall constitute a missed occurrence.
- 5.1.4 BellSouth shall pay CUSTOMER \$10 for each such missed occurrence.
- 5.2 For SLC-2, Installation Appointments Met:

Version: 07/07/04

Confidential and proprietary. May not be disclosed outside of BellSouth. Subject to Nondisclosure Agreement.

- 5.2.1 BellSouth will divide (i) the number of CUSTOMER installation service orders completed within the reporting period on or before the committed due date by (ii) the total number of CUSTOMER installation service orders completed within the reporting period.
- 5.2.2 If the resulting quotient in Section 5.2.1 above is .98 or greater, there are no missed occurrences for which payment is due under this Attachment.
- 5.2.3 In the event that greater than 2% of the completed installation service orders within the reporting period are not completed on or before the committed due date due to BellSouth reasons, then each installation service order not completed on or before the committed due date due to BellSouth reasons in excess of 2% shall constitute a missed occurrence.
- 5.2.4 BellSouth shall pay CUSTOMER \$25 for each such missed occurrence.
- 5.3 For SLC-3, Repair Appointments Met:
- 5.3.1 BellSouth will divide (i) the number of closed CUSTOMER trouble reports within the reporting period that were resolved as repaired by the committed date and time by (ii) the total number of closed CUSTOMER trouble reports within the reporting period that were resolved as repaired.
- 5.3.2 If the resulting quotient in Section 5.3.1 above is .94 or greater, there are no missed occurrences for which payment is due under this Attachment.
- 5.3.3 In the event that greater than 6% of the closed trouble reports within the reporting period were not resolved as repaired by the committed date and time, then each closed trouble report that was not resolved as repaired by the committed date and time in excess of 6% shall constitute a missed occurrence.
- 5.3.4 BellSouth shall pay CUSTOMER \$25 for each such missed occurrence.
- 5.4 For SLC-4, Maintenance Average Duration:
- 5.4.1 BellSouth will add the maintenance duration (as defined in Section 4) of each trouble report received from BellSouth Retail Residence and Business Plain Old Telephone Service (POTS) End Users, and divide that number by the total number of BellSouth Retail Residence and Business POTS End User trouble reports closed during the reporting period to determine the Maintenance Average Duration for BellSouth retail;
- 5.4.2 BellSouth will add the maintenance duration (as defined in Section 4) of each trouble report received from CUSTOMER, and divide that number by the total number of CUSTOMER trouble reports closed during the reporting period to determine the Maintenance Average Duration for CUSTOMER.

Version: 07/07/04

Confidential and proprietary. May not be disclosed outside of BellSouth. Subject to Nondisclosure Agreement.

- 5.4.3 If the Maintenance Average Duration for BellSouth retail is equal to or greater than the Maintenance Average Duration for CUSTOMER, there are no occurrences for which payment is due under this Attachment.
- 5.4.4 If the Maintenance Average Duration for BellSouth retail is less than the Maintenance Average Duration for CUSTOMER, BellSouth shall remove from the metric calculation the number of trouble reports received from CUSTOMER (starting with the longest duration trouble report and proceeding to the next longest duration trouble report) that, when added together and removed from the metric calculation, results in a revised Maintenance Average Duration for CUSTOMER that is equal to or less than the Maintenance Average Duration for BellSouth.
- 5.4.5 Each CUSTOMER trouble report removed from the metric calculation shall constitute an occurrence.
- 5.4.6 BellSouth shall pay CUSTOMER \$25 for each such occurrence.
- Performance payments shall not be paid in the event of a Force Majeure condition, as described in the General Terms and Conditions of this Agreement.

BellSouth d/b/a AT&T Commercial (DS0) Amendment

Contract ID: <u>090047d4802dceea</u> (CLEC Name Redacted)

Public Inspection Copy #61

Amendment to the Agreement Between

and

BellSouth Telecommunications, Inc. d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee Dated January 1, 2005

Pursuant to this Amendment, (the "Amendment").

AT&T OMER"), and BellSouth Telecommunications, Inc., now d/b/a
AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana,
AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee
(hereinafter referred to "AT&T"), hereinafter referred to collectively as the "Parties,"
hereby agree to amend that certain Commercial Agreement between the Parties dated
January 1, 2005 ("Agreement") to be effective thirty (30) calendar days after the date of
the last signature executing the Amendment ("Effective Date").

WHEREAS, AT&T and CUSTOMER entered into the Agreement on January 1, 2005, and;

WHEREAS, the Parties desire to amend the Agreement in order to extend its term;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. Section 3.1 of the General Terms and Conditions is hereby deleted in its entirety and replaced with the following:
 - 3.1 The term of this Agreement shall commence on the Effective Date and shall apply to the AT&T Southeast Region 9-State in the state(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee. It shall continue in effect until December 31, 2008, except as otherwise provided in this Agreement.

This Agreement shall continue in effect as specified herein unless: a) Either Party terminates, without cause, at any time upon at least thirty (30) days prior written notice to the other Party provided no Services are being purchased pursuant to this Agreement; or b) Either Party terminates pursuant to the terms hereof upon the other's breach.

- 2. Section 3.2 of the General Terms and Conditions is hereby deleted in its entirety and replaced with the following:
 - 3.2 The Parties agree that no earlier than one hundred eighty (180) days and no later than one hundred twenty (120) days prior to the expiration of this Agreement, they may mutually agree to commence negotiations for a new agreement to be effective beginning on the expiration date of this Agreement. Alternatively, the Parties shall develop a transition plan to ensure a full transition of all Services on December 31, 2008. In the event the Parties are unable to agree upon a transition plan, BellSouth may, at its discretion, terminate all or any of the Services at any time after December 31, 2008. In such event, the rates, terms and conditions hereof shall continue to apply such Services after December 31, 2008, to the date such Services are actually terminated.
- 3. Section 5 Rates of the General Terms and Conditions is hereby deleted in its entirety and replaced with the following new section 5:

5. Rates

CUSTOMER shall pay the rates set forth in Exhibit A and A2 of Attachment 1 of this Agreement in addition to any other charges specifically set forth in this Agreement. If no rate is set forth for a Service in this Agreement then BellSouth's tariff rates shall apply. If no tariff rate exists, then BellSouth shall not be required to provide such Service until a rate has been established between the Parties. In the event that BellSouth is unable to bill the applicable rate under this Agreement for any Services provided pursuant to this Agreement, BellSouth reserves the right to back-bill CUSTOMER for such rate or for the difference between the rate actually billed and the rate that should have been billed pursuant to this Agreement. The Net Effective Rates set forth in supplemental Exhibit A2 to

Attachment 1 hereof reflect discounts for DS0 Wholesale Local Voice Platform Services ("Transitional Discounts").

- 4. All remaining sections in the General Terms and Conditions shall be amended to delete the terms "Mass Market" and "Enterprise Market" and any definitions of Mass Market and Enterprise Market.
- 5. The Parties agree to delete Attachment 1, terms and conditions in its entirety, and replace with Exhibit 1 attached hereto and by reference incorporated into this Amendment.
- 6. The rates and sections in Exhibit A labeled individually as CNAM, DS0 Wholesale Local Switch Ports Mass Market, DS0 Wholesale Local Switch Ports Enterprise Market, DS0 Wholesale Local Voice Platform Services Mass Market, and DS0 Wholesale Local Voice Platform Services Enterprise Market are hereby deleted in their entirety and replaced with the supplemental exhibit attached as Exhibit A2.
- 7. Exhibit D as attached hereto is added to the agreement.
- 8. The Parties agree to add the following Section 4.5 to Attachment 2:
 - 4.5 Order Modification Charges. If CUSTOMER modifies an order (Order Modification Charge (OMC) or Order Modification Charge Additional Dispatch (OMCAD)) after being sent a Firm Order Confirmation (FOC) from AT&T, any costs incurred by AT&T to accommodate the modification will be paid by CUSTOMER in accordance with applicable rates set forth in Exhibit C.
- 9. The Parties agree to add the rates for Order Modification to Exhibit C of Attachment 2, attached hereto as Exhibit 2 and by reference incorporated into this Amendment.
- 10. All of the other provisions of the Agreement shall remain in full force and effect.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

BellSouth Telecommunications, Inc. d/b/a AT&T Alabama,
AT&T Florida, AT&T Georgia,
AT&T Kentucky, AT&T Louisiana,
AT&T Mississippi, AT&T North
Carolina, AT&T South Carolina and
AT&T Tennessee

Services

1. Introduction

- 1.1 Upon request of CUSTOMER, AT&T shall provide Wholesale Switch Port Services and Wholesale Local Platform Services as set forth in this Attachment, at the rates set forth in Exhibit A, and pursuant to the terms and conditions of this Agreement. The terms and conditions set forth in this Attachment apply only when the Services are purchased pursuant to this Agreement. The network components and associated services and functions that comprise Wholesale Switch Port Services and Wholesale Local Platform Services or that may be purchased in conjunction with Wholesale Switch Port Services and Wholesale Local Platform Services under this Agreement are available pursuant to this Agreement only in conjunction with CUSTOMER's purchase of Wholesale Switch Port Services and Wholesale Local Platform Services and are not available for individual purchase. These Services are provided to CUSTOMER solely for the purpose of providing Telecommunications Services to CUSTOMER's End Users and CUSTOMER agrees not to use such Services for any other purpose.
- 1.2 The network components provided as part of the Services offered hereunder may be subject to modification, retirement, upgrades or other changes. AT&T shall provide notice of such changes in accordance with the applicable provisions of the FCC's network disclosure requirements and any other applicable laws or regulations. In the event a network component is retired, such network component is no longer available.
- Unless otherwise specified, the terms and conditions in this Attachment related to Wholesale Switch Port Services apply to both DS0 and DS1 Wholesale Switch Port Services, and the terms and conditions in this Attachment related to Wholesale Local Platform Services apply to both DS0 and DS1 Wholesale Local Platform Services.

2. Wholesale Switch Port Services

- Wholesale Switch Port Services provide the features, functions and capabilities of the local circuit switch, including dial tone, the ability to originate and terminate calls, and all vertical features that the local circuit switch is capable of providing and that are available.
- 2.1.1 When ordering Wholesale Switch Port Services, network components that allow for the transport and termination of originated calls and the receipt of calls destined for the switch port are included. These network components, which each have their own pricing elements, include End Office Switching, Tandem Switching

and Common Transport. CUSTOMER may also order for an additional charge switch based vertical features that the switch is capable of providing and that are available. AT&T may make available certain ancillary services that may be ordered with the Wholesale Switch Port Services. If available, such ancillary services will be ordered pursuant to AT&T's tariff or pursuant to an AT&T resale agreement.

- 2.1.2 When ordering Wholesale Switch Port Services as a stand-alone element, CUSTOMER is responsible for obtaining other required elements or components that may be needed to provide its desired voice grade services. These elements or component may include but are not limited to: loops; collocation arrangements; and collocation cross-connects between the Wholesale Switch Port Services and CUSTOMER's collocation arrangement.
- 2.1.3 Wholesale Switch Port Services shall be provided at DS0 and DS1 levels. The following Wholesale Switch Ports are available for ordering. For services not currently available, CUSTOMER may contact their Local Contract Manager and will follow the appropriate AT&T processes.
- 2.1.3.1 DS0 Wholesale Switch Ports listed below shall be provisioned with a 2-wire voice grade port:
- 2.1.3.1.1 DS0 Wholesale Switch Port Residential Service
- 2.1.3.1.2 DS0 Wholesale Switch Port Business Service
- 2.1.3.1.3 DS0 Wholesale Switch Port Residential Service with Remote Call Forwarding
- 2.1.3.1.4 DS0 Wholesale Switch Port Business Service with Remote Call Forwarding
- 2.1.3.1.5 DS0 Wholesale Switch Port Coin
- 2.1.3.2 DS1 Wholesale Switch Ports for ISDN/PRI and ISDN/PRI with Detailed E911 Locator Capability shall be provisioned with a 4-wire ISDN port.
- 2.1.4 <u>End Office Switching.</u> End Office Switching provides the switching function of connecting lines to lines, lines to trunks, trunks to lines, and trunks to trunks. End Office Switching includes the pricing elements of End Office Switching Function and End Office Trunk Ports, as set forth in Exhibit A.
- 2.1.5 <u>Tandem Switching</u>
- 2.1.5.1 Tandem Switching provides the following: (i) trunk connect facilities, which include, but are not limited to, the connection between trunk termination at a cross connect panel and switch trunk card; (ii) the basic switch trunk function of

connecting trunks to trunks; and (iii) the functions that are centralized in the Tandem Switches (as distinguished from separate end office switches), including, but not limited to call recording, the routing of calls to operator services and signaling conversion features. Tandem Switching includes the pricing elements of Tandem Switching Function, Tandem Trunk Ports, Melded Tandem Switching Function and Melded Tandem Trunk Ports, as set forth in Exhibit A.

- When an interoffice call originates from a Wholesale Switch Port and terminates to an AT&T, independent company or facility based CLEC end office, AT&T shall apply the Melded Tandem Switching rate(s) as set forth in Exhibit A. For all other calls utilizing Tandem Switching, the Tandem Switching rate as set forth in Exhibit A shall apply.
- 2.1.6 Common Transport. Common (Shared) Transport is defined as transmission facilities shared by more than one carrier, including AT&T, between end office switches, between end office switches and tandem switches, and between tandem switches, in AT&T's network. Common Transport includes the pricing elements of Common Transport per Mile and Common Transport Facilities Termination as set forth in Exhibit A.

2.1.7 Switch Based Vertical Features

- 2.1.7.1 Switch based vertical features include vertical features that the circuit switch is capable of providing and that are available and may be ordered in conjunction with the Wholesale Switch Port. Switch based vertical features are ordered separately and shall be charged at a single rate, as set forth in supplemental Exhibit A2, regardless of the number of vertical features ordered. CUSTOMER may add or delete vertical features at no additional charge except the applicable ordering charge.
- 2.1.7.2 To the extent that a circuit switch is technically capable of providing a switch based vertical feature but such switch based vertical feature is not currently available, CUSTOMER may contact their Local Contract Manager and shall follow the appropriate AT&T processes.
- 2.1.8 <u>Ancillary Services.</u> CUSTOMER may request certain non-switch based services that are available with Wholesale Switch Port Services. If available, such services shall be provided pursuant to AT&T's tariff or pursuant to a separate AT&T resale agreement.

2.1.8.1 Directory Listings

2.1.8.1.1 AT&T shall provide one basic White Pages directory listing per telephone number per End User account at no charge other than applicable service order charges as

set forth in AT&T's tariffs. If such listing is requested on the initial local service request (LSR) associated with the request for Service, a single manual service order charge or electronic service order charge, as appropriate, as described in Attachment 2 of this Agreement will apply to both the request for Service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, separate service order charges as set forth in AT&T's tariffs shall apply, as well as the manual service order charge or electronic service order charge, as appropriate, as described in Attachment 2. Additional, enhanced and miscellaneous listings may be provided and shall be rated according to AT&T's General Subscriber Services Tariff (GSST), and tariffed service order charges and manual or electronic service order charges shall apply.

2.2 Remote Call Forwarding

- As an option, AT&T shall make available to CUSTOMER a DS0 switch port with Remote Call Forwarding capability (RCF). RCF service combines the functionality of End Office Switching, Tandem Switching and Common Transport to forward calls from the RCF service telephone number (i.e., the number dialed by the calling party) to another telephone number selected by the RCF service subscriber (Forward-to-Number). When ordering RCF service, CUSTOMER will ensure that the following conditions are satisfied:
- 2.2.1.1 The End User of the Forward-to-Number agrees to receive calls forwarded using the RCF service (if such End User is different from the RCF service End User);
- 2.2.1.2 The Forward-to-Number is equipped with sufficient capacity to receive the volume of calls that will be generated from the RCF service;
- 2.2.1.3 The Forward-to-Number is not a public safety number (e.g., 911, fire or police number).
- 2.2.2 In addition to the charge for the RCF service port, AT&T shall charge CUSTOMER the rates set forth in Exhibit A for End Office Switching, Tandem Switching, and Common Transport, including all associated usage incurred for calls from the RCF service telephone number to the Forward-to-Number.
- 2.3 Detailed E911 with Locator Capability.
- 2.3.1 CUSTOMER is required to purchase Detailed E911 Locator Capability with any 4-wire ISDN DS1 Port, that has the ability to make and receive voice calls to or from the Public Switched Telecommunications Network (PSTN).
- 2.3.2 Detailed E911 with Locator Capability allows End Users located on CUSTOMER's network ring or loop facilities direct access into an E911 tandem

office, delivering the telephone number and location of the End User's number as well as the actual physical location of the calling party's extension to the appropriate E911 Public Safety Answering Point (PSAP).

- 2.3.3 All CUSTOMER's End Users who have service provisioned via 4-wire ISDN DS1 Port with Detailed E911 Locator Capability shall be physically located in the E911 Tandem Switch service area.
- 2.3.4 CUSTOMER shall pass its End User's telephone number to AT&T over the Primary Rate Interface trunk group via Automatic Number Identification (ANI).
- 2.3.5 CUSTOMER shall maintain the individual telephone number and the correct corresponding address/location data, including maintaining the End User's listed address as the actual physical End User location in the E911 Automatic Location Identification (ALI) Database.
- 2.3.6 CUSTOMER will be liable for any errors resulting from the submission of invalid telephone number and address/location data for CUSTOMER's End Users.

3. Wholesale Local Platform Services

- 3.1 Wholesale Local Platform Services provide an end to end Telecommunications Service by combining Wholesale Switch Ports with the loop network component described in this Agreement, which together provide local exchange service for the origination or termination of calls. The loop network component described in this Agreement shall only be provided as part of the Wholesale Local Platform Service. Wholesale Local Platform Services support the same calling and feature attributes as described in the Wholesale Switch Port Services section of this Attachment.
- 3.2 The following DS0 Wholesale Local Platform Services are available for ordering. For services not currently available CUSTOMER shall contact their Local Contract Manager and will follow the appropriate AT&T processes.
- 3.2.1 DS0 Wholesale Local Platform Services listed below shall be provisioned with a 2-wire voice grade port and either a non-designed (SL1) or designed (SL2) 2-wire voice grade loop. Exhibit A2 shall list the applicable loops associated with each of the DS0 Wholesale Local Platform Services:
- 3.2.1.1 DS0 Wholesale Local Platform Service [Residence]
- 3.2.1.2 DS0 Wholesale Local Platform Service [Business]
- 3.2.1.3 DS0 Wholesale Local Platform Service [Residence Private Branch Exchange (PBX)]

3.2.1.4	DS0 Wholesale Local Platform Service [Business – PBX]
3.2.1.5	DS0 Wholesale Local Platform Service [Coin]
3.2.1.6	DS0 Wholesale Local Platform Service [Direct Inward Dial (DID)]
3.2.1.7	DS0 Wholesale Local Platform Service [Residence – Foreign Exchange (FX)/Foreign Central Office (FCO)]
3.2.1.7.1	DS0 Wholesale Local Platform Service [Business – FX/FCO]
3.2.1.8	DS0 Wholesale Local Platform Service [PBX – FX/FCO]
3.2.1.9	DS0 Wholesale Local Platform Service – [PBX/DID with E911 Call Locator]
3.2.2	DS0 Wholesale Local Platform Services listed below shall be provisioned with a 2-wire ISDN port and a 2-wire ISDN digital loop:
3.2.2.1	DS0 Wholesale Local Platform Service – [ISDN/BRI]
3.3	DS1 Wholesale Local Platform Services include the following. For services not currently available CUSTOMER shall contact their Local Contract Manager and will follow the appropriate AT&T processes.

- 3.3.1 <u>DS1 Wholesale Local Platform Service Direct Digital Integration Termination Service (DDITS).</u> DS1 Wholesale Local Platform Service –DDITS is an arrangement that allows the termination of a 4-wire DS1 digital loop directly into a digital switch port. It will consist of a DS1 facility that will be terminated into a digital carrier trunk port on a switch. These ports can only be used for DS1 terminations on the trunk side of the switch. A DDITS arrangement can consist of twenty-four (24) DS0 level channels that can be configured as a 2-way, 2-way DID with user transfer, 1-way outward, or 1-way inward with or without DID service. This service allows for assigning multiple trunk groups (made up of individual channel assignments) within a single digital loop, single trunk groups across multiple digital loops, or combinations of both.
- 3.3.2 <u>DS1 Wholesale Local Platform Service 4-wire Integrated Services Digital</u>
 Network/ Primary Rate ISDN (4-wire ISDN/PRI). DS1 Wholesale Local Platform Service 4-wire ISDN/PRI is a 4-wire ISDN DS1 port and 4-wire DS1 digital loop that is an intraLATA offering supported by the Integrated Services Digital Network (ISDN) architecture. DS1 Wholesale Local Platform Service 4-wire ISDN/PRI provides an ISDN-based, DS1 access to the PSTN and includes the flexibility of integration of multiple voice and/or data transmission channels on the same line. The service provides connectivity between ISDN compatible Customer Provided Equipment (CPE) and a serving central office. The basic channel

structure is twenty-three (23) sixty-four (64) kilobits per second (Kbps) B-Channels and one (1) sixty-four (64) Kbps D-Channel. The End User may activate up to twenty-three (23) B-Channels on the first ISDN/PRI arrangement and up to twenty-four (24) channels on additional 4-wire ISDN/PRI arrangements. The product offerings are: voice/data (standard), digital data only and inward data option.

3.3.3 DS1 Wholesale Local Platform Service – 4-wire DS1 Loop with Channelization with Port. DS1 Wholesale Local Platform Service - 4-wire DS1 Loop with Channelization with Port is a port/loop arrangement consisting of the following four (4) basic components: (a) one (1) 4-wire DS1 digital loop; (b) one (1) channelization interface device (D4 Channel Bank or equivalent) in the AT&T central office; (c) selected central office ports (up to twenty-four (24) per DS1) in the AT&T switch; and (d) DS0 feature activation cards (one (1) per DS0) in the AT&T channel bank. Each DS1 loop supports any combination of the following four (4) service offerings up to a maximum of twenty-four (24) DS0 channels. The following service offerings are available: (1) a 2-way, combination trunks/trunk groups (line side termination in AT&T switch); (2) a 1-way, outward trunks/trunk groups (line side termination in AT&T switch); (3) a 1-way, inward trunks/trunk groups, without DID (line side termination in AT&T switch); and (4) a 1-way, inward trunks/trunk groups, with DID (trunk side termination in a AT&T switch).

3.4 E911 Call Locator Capability

- 3.4.1 E911 Call Locator Capability is available as an adjunct service to DS1 Wholesale Local Platform Services –ISDN/PRI, DS1 Wholesale Local Platform Service DDITS, DS1 Wholesale Local Platform Services 4-wire DS1 Loop with Channelization with Port, and DS0 Wholesale Local Platform Services with E911 Call Locator (includes DID and On/Off Premises Extensions).
- 3.4.2 E911 Call Locator Capability allows a PBX switch located on an End User's premises direct access into an E911 tandem office, delivering the telephone number and location of the PBX End User's station number to the appropriate E911 PSAP.
- 3.4.3 E911 Call Locator Capability offers full E911 service to CUSTOMER's End User's PBX station users. Full E911 service means the actual physical location of the PBX 911 caller and the station telephone number will be identified to the PSAP when a 911 call is made.
- 3.4.4 There are two (2) components to this service: (1) access to the ALI database, which is the database service component of this product. The PBX station information is initiated and maintained by CUSTOMER or CUSTOMER's PBX

End User in the ALI database; and (2) E911 Call Locator Capability Service Local Channels, which are the paths that carry E911 calls to the E911 tandem. If CUSTOMER's End User is served via PRI, the E911 calls may travel over either the Primary Rate Interface or over separate CAMA trunks to the E911 tandem, as specified by CUSTOMER when placing the order for the service. If CUSTOMER's End User is served by DDITS, 4-wire Channelization with Port or PBX Trunks, then CAMA trunks must be used.

- 3.4.5 CUSTOMER can as an option purchase private dedicated trunks at the resale tariff rate installed between the AT&T E911 Tandem and CUSTOMER's Point of Interface (POI), usually an adjunct box located at the PBX. If the PBX supports Primary Rate Interface and the calling stations are DID numbers, then the 911 call can be transmitted using Primary Rate Interface without E911 Call Locator Capability Service Local Channels.
- 3.4.6 CUSTOMER is responsible for providing the correct E911 tandem information to AT&T during the ordering and provisioning process.
- 3.4.7 CUSTOMER is responsible for maintaining individual telephone numbers and corresponding address/location data.
- 3.4.8 CUSTOMER is responsible for insuring that the End User listed address is the actual physical End User location as mandated by regulatory and public safety agencies (e.g., E911).
- 3.4.9 CUSTOMER is liable for any error conditions resulting from the submission of invalid telephone number and address/location data for the CUSTOMER's End Users and the PBX stations.
- 3.4.10 CUSTOMER will insure that its End User's telephone number can be passed over the appropriate E911 Call Locator Capability Local Service Channels, the Primary Rate Interface trunk group, or direct CAMA trunks to the appropriate E911 Tandem switch.
- 3.4.11 CUSTOMER or CUSTOMER's designated representative will work with the third party provider of E911 Call Locator Capability to ensure all information in the ALI database is up-to-date.
- 3.5 On/Off Premises extensions and Different Premises Address extension are available for select DS0 Wholesale Local Platform Services. The rates are as set forth in Exhibit A2.
- 3.5.1 On/Off Premises extensions are station numbers that are associated with an End User's PBX but which are located at a different physical address than the PBX and

On/Off Premises extensions require additional loops to provision the Service. The On/Off Premises extension draws its digital tone from the PBX and must dial an access code to access the PSTN via port/loop combinations (PBX trunks) terminating in the CPE PBX.

- A Different Premises Address extension consists of one (1) port and two (2) loops with each loop terminating at a different physical address. The Different Premises Address extension draws dial tone directly from the AT&T central office. It constitutes the same telephone number working at two (2) separate physical addresses.
- 3.6 DS0 Wholesale Local Platform Services Centrex provides an end-to-end Telecommunications Service by combining DS0 Wholesale Switch Ports, a Common Block Program within the Switch, and a loop network component described in this Agreement, which together provide local exchange service for the End User for the origination or termination of calls.
- 3.6.1 Within the AT&T Switch the 2-wire Voice Grade Ports (Centrex) are programmed into a Common Block of numbers which will partition the Central Office switch to serve a specific customer and as such share certain inherent Centrex functionalities, capabilities and features. The Common Block program is also known as the "Common Block" or the "Centrex Customer Group". The Centrex Common Block defines system level parameters. Common equipment parameters offer the minimum capabilities of the system:
- 3.6.1.1 Station to Station Calling within the Common Block (intercom calling).
- 3.6.1.2 Direct Inward Dialing to Stations (DID).
- 3.6.1.3 Direct Outward Dialing.
- 3.6.1.4 Touchtone service.
- 3.6.1.5 Common recorded announcement on interception of calls to unassigned numbers.
- 3.6.2 Network Access Registers (NARs). A NAR is an optional part of the Common Block programming associated with access outside of the Centrex system. Each NAR provides a single talking path to the PSTN. A NAR can be inbound, outbound or combination. All ports are subject to Switching and Local Interconnection Usage charges. These charges will apply to each Centrex line. Other than to limit access to the PSTN, NARs are not necessary components of DS0 Wholesale Local Platform Service Centrex. NARs will be zero rated on the CUSTOMER Account. Rearrangements, additions, or removal of NARs will incur the appropriate subsequent activity charges set forth in Exhibit A2. New

installations can be provisioned with or without NARs at the request of CUSTOMER.

- 3.6.3 Centrex feature functionality that is a function of the switch will be available to the Centrex port at the rates set forth in Exhibit A2. Feature functionality that has been developed by AT&T outside of the function of the Switch, including but not limited to Centrex Control and Centrex Select Features, is separately priced and included in Exhibit A2.
- 3.6.4 The Centrex Common Block can be provisioned with a Switch Port to accept/terminate selected ancillary services within the Centrex, including but not limited to FX, Tie Lines, DS1/high cap services, Wide Area Telephone Service (WATS/800 Service), Music on Hold, and Simplified Message Detail Interface. These services are accessed via a dialing code or preprogrammed access as part of the Centrex functionality. Access to the ancillary services will be priced with Wholesale Local Platform Centrex. The ancillary services will be priced separately from Wholesale Local Platform Centrex. Pricing for the ancillary/associated service could be at a negotiated rate, tariff rate, or a combination of both depending on the service.
- 3.6.5 DS0 Wholesale Local Platform Service Centrex shall be provisioned with a 2-wire analog voice grade loop, which is a non-designed 2-wire loop start circuit that does not have remote access test points.
- 3.7 <u>Loops.</u> The local loop network component is a transmission facility that AT&T provides between a distribution frame (or its equivalent) in AT&T's central office and the loop demarcation point at an End User premises. Facilities that do not terminate at a demarcation point at an End User premises, including, by way of example, but not limited to, facilities that terminate to another carrier's switch or premises, a cell site, Mobile Switching Center or base station, do not constitute local loops. The loop includes all features, functions, and capabilities of the transmission facilities, including the network interface device, and attached electronics (except those used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers (DSLAMs)), optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the End User's premises, including inside wire owned or controlled by AT&T. CUSTOMER shall purchase the entire bandwidth of the loop and, except as required herein or as otherwise agreed to by the Parties, AT&T shall not subdivide the frequency of the loop.
- 3.7.1 Except as set forth herein, 2-wire voice grade loops may be provisioned using any type of facility that will support voice grade services. This may include loaded copper, non-loaded copper, digital loop carrier systems, fiber/copper combination (hybrid loop) or a combination of any of these facilities. AT&T, at any time, in the

normal course of maintaining, repairing, and configuring its network, may also change the facilities that are used to provide the loop utilized in conjunction with the Wholesale Local Platform Service. This change may occur at any time. In these situations, AT&T will only ensure that the newly provided facility will support the same voice grade services provided by the Wholesale Local Platform Services. 2-wire voice grade loops come in two (2) different service levels - Service Level One (SL1) and Service Level Two (SL2).

- 3.7.1.1 Service Level One (SL1) 2-wire voice grade loops are 2-wire loop start circuits, will be non-designed, and will not have remote access test points.
- 3.7.1.2 Service Level Two (SL2) 2-wire voice grade loops shall have remote access test points and will be designed with a DLR provided to CUSTOMER. SL2 circuits can be provisioned with a loop start, ground start or reverse battery signaling.
- 3.7.2 As specified, certain Wholesale Local Platform services utilize digital loop network components. Digital loops are service specific, will be designed and will be provisioned with test points (where appropriate).
- 3.7.2.1 The following digital loops shall apply to Wholesale Local Platform Services:
- 3.7.2.2 2-Wire ISDN Digital Loop This loop will be provisioned according to industry standards for 2-Wire Basic Rate ISDN services and will come standard with a test point.
- 3.7.2.3 4-Wire DS1 Digital Loop This loop is a designed 4-wire loop that is provisioned according to industry standards for DS1 or Primary Rate ISDN services and will come standard with a test point.
- 3.7.3 The loop does not include any packet switched features, functions or capabilities.
- 3.7.4 AT&T shall not provision Wholesale Local Platform Services over any loop that is comprised entirely of fiber from the distribution frame (or equivalent) in the AT&T central office to the demarcation point at the End User's premises.
- 3.7.5 The loop shall be provided to CUSTOMER in accordance with applicable provisions of Telcordia/ANSI standard technical references.
- 3.7.6 AT&T will only provision, maintain and repair the loops to the standards that are consistent with the loop component associated with the Wholesale Local Platform Services.
- 3.8 Loop Tagging

3.8.1 When an AT&T technician is required to be dispatched to provision the loop, AT&T will tag the loop with the telephone number. When a dispatch is not required to provision the loop, AT&T will tag the loop on the next required visit to the End User's location. If CUSTOMER wants to ensure the loop is tagged during the provisioning process for loops that may not require a dispatch, CUSTOMER may order Loop Tagging. Rates for Loop Tagging are as set forth in Exhibit A2.

4. Wholesale Switch Port Services and Wholesale Local Platform Services Rates

4.1 The rates for Wholesale Switch Port Services and Wholesale Local Platform Services in Exhibit A and supplemental Exhibit A2 shall include monthly recurring and nonrecurring charges.

4.1.1 <u>Composite Rate</u>

- 4.1.1.1 For purposes of determining the composite rates set forth in supplemental Exhibit A2, and as described for illustrative purposes in Exhibit D attached hereto, Mass Market is defined as an End User location with less than four (4) voice grade (DS0) lines or equivalents in any service area covered by this Agreement.
- 4.1.1.2 For purposes of determining the composite rates set forth in supplemental Exhibit A2, and as described for illustrative purposes in Exhibit D hereto, Enterprise Market is defined as an End User location with four (4) or more voice grade (DS0) lines or equivalents in any service area covered by this Agreement, or is serving an End User with DS0 services where such End User is also being served with a DS1 service in any service area covered by this Agreement. The quantification of an End User's DS0 lines shall include services purchased from AT&T including DS0 Wholesale Local Switch Port Services (both stand-alone and those riding higher capacity facilities), DS0 Wholesale Local Platform Services, DS0 channels on DS1 Wholesale Local Platform Services (such as PRI, DDITs, and DS1 loop with channelization with port), resold AT&T Telecommunications Services and unbundled network element stand-alone loops.
- 4.1.1.3 For the DS0 Wholesale Local Platform following classes of service, UEPBX (business lines) and UEPCO (coin lines), a composite rate shall be developed as calculated in Exhibit D to this Agreement. The composite rate shall be calculated for and effective only in those states and for those classes of service listed in Exhibit D. The composite rate shall be calculated by (i) multiplying the Mass Market rate for each applicable class of service (as set forth in Exhibit D) by the percentage of Mass Market lines for each applicable class of service (as set forth in Exhibit D), (ii) multiplying the Enterprise Market rate for each class of service (as set forth in Exhibit D) by the percentage of Enterprise Market lines for each applicable class of service (as set forth in Exhibit D), and (iii) adding the two

figures together to form a single rate. The composite rate is set forth in supplemental Exhibit A2.

- Either Party may request a revision to the composite rate provided in this Agreement in the event of a substantive change in the percentage mix of Mass Market and Enterprise Market lines for the UEPBX and UEPCO class of service in the states that the composite rate was calculated for and as listed in Exhibit D. Such request may not occur more frequently than one (1) time per quarter, and may only be requested where the percentage mix has fluctuated by more that 2.5% for one of the applicable classes of service since establishment of the composite rate, or since the last revision to the composite rate, as applicable. Revisions to the composite rate shall be determined using the Mass Market and Enterprise Market lines for the UEPBX and UEPCO classes of service in service for the last full month prior to the revision request and shall be incorporated via an amendment to the Agreement, which shall become effective thirty (30) days after execution. The new revised composite rate shall be applied prospectively from the effective date of such amendment.
- 4.1.2 For the Wholesale Switch Port, recurring charges apply to the switch port; switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges apply to the switch port.
- 4.1.3 For the Wholesale Local Platform Services, recurring charges apply to the switch port, loop, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges shall apply to the switch port for a new installation. If, however, the Service is converted from AT&T retail, resale, or a loop/port combination provided by AT&T to another CLEC, or is an initial new installation of a simple residential service line provisioned at a location where QuickServe is active on the line, the nonrecurring conversion charges shall apply to such conversions. In the scenario of a line provisioned at a QuickServe location, only the first line shall incur the conversion rate. Any additional lines or subsequently ordered lines shall incur new installation first and additional nonrecurring charges.
- 4.1.4 For the DS0 Wholesale Local Platform Service Centrex, recurring charges apply to the Switch Port, loop, Common Block Program, Centrex Intercom Function, switch based vertical features, End Office Switching, Tandem Switching and Common Transport pricing elements. Nonrecurring charges shall apply to the switch port for a new installation. The DS0 Wholesale Local Platform Service Centrex is available only for the Enterprise Market.
- 4.1.5 Direct Inward Dialing (DID), ISDN/BRI and DS0 Wholesale Local Platform Services with E911 Call Locator (including DID and On/Off Premises Extensions) are available only for the Enterprise market and shall include both recurring and

nonrecurring charges.

- 4.2 ISDN/PRI, DS1 Wholesale Local Platform Service DDITS, DS1 Wholesale Local Platform Services 4-wire DS1 Loop with Channelization with Port, are available only for the Enterprise Market and shall include both recurring and nonrecurring charges.
- 4.2.1 DS1 Wholesale Local Platform Services also require additional elements, including but not limited to DID number blocks, Superframe Format, D1 channel banks, inter-office channels, for proper provisioning of the particular DS1 Wholesale Local Platform Service. Appropriate recurring and nonrecurring charges for these applicable service specific elements are located in Exhibit A2.
- 4.3 The rates for End Office Switching, Tandem Switching and Common Transport are applied based on their use in the transport of an originated or terminated call, with the exception of the coin class of service which contains a monthly recurring flat-rate charge for all three (3) of these pricing elements combined. Originated calls shall utilize these pricing elements until the terminating end office is reached for a AT&T or resale End User terminated call or until the call reaches the network of a third party on a third party terminated call.
- 4.4 Rates for loops purchased in conjunction with Wholesale Local Platform Services are determined by the zone applicable to the specific loop location. Zones are established by the Commission and may be changed from time to time. In the event the Commission changes the zone applicable to any loop associated with any Wholesale Local Platform Services, the loop component of such Services shall be billed at the applicable rate for the new zone.
- 4.5 Intercarrier Compensation
- 4.5.1 Intercarrier compensation for seven (7) or ten (10) digit dialed calls originated by CUSTOMER utilizing Wholesale Switch Port Services or Wholesale Local Platform Services shall apply as follows:
- 4.5.1.1 For calls terminating to an AT&T End User or to an End User served by AT&T resold services, AT&T shall charge CUSTOMER for End Office Switching as set forth in Exhibit A at the terminating end office.
- 4.5.1.2 For calls terminating to a CLEC where such CLEC is utilizing an AT&T switch port or port/loop combination to provide service to its End User, AT&T shall charge CUSTOMER for End Office Switching as set forth in Exhibit A at the terminating end office. AT&T will not charge the terminating CLEC for End Office Switching at the terminating end office.

- 4.5.1.3 For calls terminating to third party carriers, such as CLECs, wireless carriers and independent companies, utilizing their own switches to serve their End Users, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through AT&T's network. If CUSTOMER does not have such an agreement with a third party carrier and AT&T is charged termination charges by a third party terminating a call originated by CUSTOMER, or if such third party carrier bills AT&T for terminating such calls, despite the existence of such an agreement, then AT&T may, at its option:
- 4.5.1.3.1 pay such charges as billed by the third party carrier and charge End Office Switching as set forth in Exhibit A to CUSTOMER for each such call; or
- pay such charges as billed by the third party carrier and CUSTOMER will reimburse the full amount of such charges within thirty (30) days of AT&T's request for reimbursement.
- 4.5.2 Intercarrier compensation for seven (7) or ten (10) digit dialed calls terminating to CUSTOMER utilizing Wholesale Switch Port Services or Wholesale Local Platform Services shall apply as follows:
- 4.5.2.1 For calls originated by an AT&T End User or to an End User served by AT&T resold services, AT&T shall not charge CUSTOMER for End Office Switching at the terminating end office for use of the network component; therefore, CUSTOMER shall not charge AT&T intercarrier compensation or any other charges for termination of such calls.
- 4.5.2.2 For calls originated by a CLEC where such CLEC is utilizing a AT&T switch port or port/loop combination to provide service to its End User, AT&T shall not charge CUSTOMER for End Office Switching at the terminating end office for use of the network component; therefore, CUSTOMER shall not charge the originating CLEC or AT&T intercarrier compensation or any other charges for termination of such calls.
- 4.5.2.3 For calls originated by third party carriers, such as CLECs, wireless carriers and independent companies, utilizing their own switches to serve their End Users, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through AT&T's network. CUSTOMER may bill the third parties according to such agreements and shall not bill AT&T for the exchange of traffic through AT&T's network.
- 4.5.3 Intercarrier compensation shall apply as follows for intralata 1+ dialed calls originated by CUSTOMER utilizing Wholesale Switch Port Services or Wholesale

Local Platform Services where CUSTOMER uses AT&T's Carrier Identification Code (CIC) for its End User's Local Preferred Interexchange Carrier (LPIC):

- 4.5.3.1 For calls terminating to an AT&T End User or to an End User served by AT&T resold services, AT&T shall charge CUSTOMER for End Office Switching as set forth in Exhibit A at the terminating end office.
- 4.5.3.2 For calls terminating to a CLEC where such CLEC is utilizing an AT&T switch port or port/loop combination to provide service to its End User, AT&T shall charge CUSTOMER for End Office Switching as set forth in Exhibit A at the terminating end office. AT&T will not charge the terminating CLEC for End Office Switching at the terminating end office. In the event that AT&T is charged termination charges by the CLEC, AT&T may pay such charges and CUSTOMER will reimburse AT&T the full amount of such charges within thirty (30) days following AT&T's request for reimbursement.
- 4.5.3.3 For calls terminating to third party carriers, such as CLECs, wireless carriers and independent companies, utilizing their own switches to serve their End Users, CUSTOMER is required to enter into interconnection or traffic exchange agreements with such third parties for the exchange of traffic through AT&T's network. If CUSTOMER does not have such an agreement with a third party carrier and AT&T is charged termination charges by a third party terminating a call originated by CUSTOMER, or if such third party carrier bills AT&T for terminating such calls, despite the existence of such an agreement, then AT&T may, at its option:
- pay such charges as billed by the third party carrier and charge End Office Switching as set forth in Exhibit A to CUSTOMER for each such call; or
- pay such charges as billed by the third party carrier and CUSTOMER will reimburse AT&T the full amount of such charges within thirty (30) days following AT&T's request for reimbursement.
- 4.5.4 Intercarrier compensation shall apply as follows for intralata 1+ dialed calls terminating to CUSTOMER utilizing Wholesale Switch Port Services or Wholesale Local Platform Services where the originating carrier uses AT&T's CIC for its End User's LPIC:
- 4.5.4.1 For calls originated by an AT&T End User or by an End User served by AT&T resold services, AT&T shall charge CUSTOMER for End Office Switching as set forth in Exhibit A at the terminating end office for use of the End Office Switching network component in terminating such calls. CUSTOMER may charge AT&T for intercarrier compensation at the End Office Switching rate in this Agreement

for such calls. CUSTOMER shall not charge originating or terminating switched access rates to AT&T for termination of such calls.

4.5.5 For calls originated by or terminating to interexchange carriers through a switched access arrangement, CUSTOMER may bill the interexchange carrier in accordance with CUSTOMER's tariff and will not bill AT&T any charges for such call. CUSTOMER shall pay AT&T applicable charges for the use of AT&T's network in accordance with the rates set forth in Exhibit A for originating and terminating such calls.

5. Call Related Databases

- Call related databases provided under this Agreement shall only be provided with wholesale local circuit switching pursuant to the terms and conditions herein and at the rates set forth in Exhibit A and supplemental A2. Database services that are not available pursuant to this Agreement may be available at the rates, terms and conditions set forth in AT&T's tariffs.
- 5.2 AT&T's Calling Name (CNAM) Database Services
- 5.2.1 AT&T's CNAM database Services provide the ability to associate a name with the calling party's number for any name and number stored in the AT&T CNAM database, allowing the End User (to which a call is being terminated and which subscribes to the necessary services) to view the calling party's name before the call is answered.
- 5.2.2 CUSTOMER's End Users' names and numbers related to Wholesale Switch Port Services and Wholesale Local Platform Services shall be stored in the AT&T CNAM database, and shall be available, to all entities that launch queries to the AT&T CNAM database. AT&T, at its sole discretion, may opt to interconnect with and query other calling name databases. In the event AT&T does not query a third party calling name database that stores the calling party's information, AT&T cannot deliver the calling party's information to a called End User. In addition, AT&T cannot deliver the calling party's information where the calling party subscribes to any service that would block or otherwise cause the information to be unavailable.
- 5.2.3 For each CUSTOMER End User that subscribes to a switch based vertical feature providing calling name information to that End User for calls received, AT&T will launch a query on a per call basis to the AT&T CNAM database, or, subject to Section 5.2.2 above, to a third party calling name database, to provide calling name information, if available, to CUSTOMER's End User. CUSTOMER shall pay the rates set forth in supplemental Exhibit A2, for each CUSTOMER End

User that subscribes to the appropriate vertical features that support Caller ID or a variation thereof.

- 5.3 AT&T's Line Information Database (LIDB) Storage
- 5.3.1 The LIDB stores current information on working telephone numbers and billing account numbers. LIDB data is used by providers of Telecommunications Services to validate billing of collect calls, calls billed to a third party number and nonproprietary calling card calls, to screen out attempts to bill calls to payphones, for billing and for fraud prevention.
- 5.3.2 Where CUSTOMER purchases Wholesale Switch Port Services or Wholesale Local Platform Services, AT&T shall utilize AT&T's service order generated from CUSTOMER's LSR to populate LIDB with CUSTOMER's End User information. AT&T provides access to information in its LIDB, including CUSTOMER End User information, to various providers of Telecommunications Services via queries to LIDB pursuant to tariffs. Information stored for CUSTOMER, pursuant to this Agreement, shall be available to those Telecommunications Service providers.
- 5.3.2.1 When necessary for fraud control measures, AT&T may perform additions, updates and deletions of CUSTOMER data to the LIDB (e.g., calling card deactivation).
- 5.3.2.2 AT&T shall provide priority updates to LIDB for CUSTOMER data upon CUSTOMER's request (e.g., to support fraud detection), via password protected telephone card, facsimile, or electronic mail.
- 5.3.2.3 AT&T shall perform periodic backup and recovery of all of CUSTOMER's data in LIDB.
- 5.3.3 Responsibilities of the Parties
- 5.3.3.1 AT&T will administer the data provided by CUSTOMER pursuant to this Agreement in the same manner as AT&T administers its own data.
- 5.3.3.2 CUSTOMER is responsible for the completeness and accuracy of the data being provided to AT&T.
- Other LIDB services, such as transport services or LIDB query services, are available pursuant to AT&T's tariffs. CUSTOMER shall pay the rates set forth in Exhibit A, on a per query basis, for each query to the AT&T LIDB database made on behalf of a CUSTOMER End User.
- 5.3.5 Fees for Service and Taxes

Version: DS0 - Attachment 1 Amendment - Add Additional Services 04/30/07

Confidential and proprietary. May not be used or disclosed outside of AT&T. Subject to Nondisclosure Agreement.

- 5.3.5.1 CUSTOMER will not be charged a fee for LIDB storage Services provided by AT&T to CUSTOMER pursuant to this Agreement.
- 5.3.5.2 Sales, use and all other taxes (excluding taxes on AT&T's income) determined by AT&T or any taxing authority to be due to any federal, state or local taxing jurisdiction with respect to the provision of the Service set forth herein will be paid by CUSTOMER.
- 5.3.6 Billing and Collection Customers
- 5.3.6.1 AT&T currently has in effect billing and collection (B&C) agreements with various interexchange carriers and billing clearinghouses ("B&C Customers") that query AT&T's LIDB to determine whether to accept various billing options from AT&T's End Users.
- 5.3.6.2 AT&T will identify CUSTOMER's End User originated long distance charges and upon receipt of charges applicable to CUSTOMER's End Users, AT&T will reject those charges as not covered by the existing B&C agreement with the B&C Customers.
- 5.3.6.3 AT&T shall have no obligation to become involved in or provide any information relating to any billing disputes between CUSTOMER and the B&C Customers. It shall be the responsibility of CUSTOMER and the B&C Customers to negotiate and arrange for any appropriate adjustments.
- 5.4 <u>Toll Free Dialing Ten Digit Screening Service.</u> Toll Free Dialing Ten Digit Screening Service through AT&T's 8XX database in association with Services provided hereunder shall be subject to the terms and conditions set forth in the AT&T tariff. The rates are as set forth in Exhibit A.
- 5.5 <u>Automatic Location Identification/Data Management System (ALI/DMS)</u>
 Database-911/E911 Services
- 5.5.1 Basic 911 Services (911) and Enhanced 911 Services (E911) route 911 calls from within the AT&T Network. AT&T shall provide 911 and E911 capability for each End User of CUSTOMER's Wholesale Switch Port Services and Wholesale Local Platform Services in accordance with the provisions below where AT&T is the 911 or E911 provider.
- 5.5.2 911 provides routing of a 911 call to a centralized answering location designated by the PSAP. The End User verbally relays the emergency information to the centralized answering location.

- 5.5.3 E911, through the ALI/DMS database, routes the call to the appropriate PSAP and displays to the PSAP the address associated with the End User's telephone number.
- 5.5.4 CUSTOMER shall be responsible for providing complete and accurate End User information to AT&T via LSRs. AT&T shall use such information to populate and update the ALI/DMS database at no additional charge to CUSTOMER.
- 5.5.5 CUSTOMER is responsible for paying all 911 or E911 surcharges to the applicable governmental agency, and AT&T will not bill CUSTOMER for such 911 or E911 surcharges.

6. Local Number Portability (LNP)

- 6.1 LNP will be provided in accordance with rules; regulations and guidelines adopted by the Commission, the FCC and industry fora, and CUSTOMER will work cooperatively with AT&T to implement any LNP changes.
- When CUSTOMER submits an LSR for Services, if the telephone number associated with the Services requested resides in a switch other than AT&T's, then AT&T will submit an LNP LSR to the appropriate switch owner. CUSTOMER shall be responsible for reimbursing AT&T for any costs or charges imposed on AT&T by the switch owner resulting from the submission of the LNP LSR. In addition, CUSTOMER shall pay to AT&T the manual service order charges specified in Exhibit C of Attachment 2 for AT&T's creation and submission of the LNP LSR to the appropriate switch owner.
- Working telephone numbers, telephone numbers for which payment has been made to reserve and telephone numbers that are in a denied state (but not disconnected) or suspended status may be subject to porting.

7. Access To Numbers

- 7.1 Where AT&T provides Wholesale Switch Port Service or Wholesale Local Platform Services to CUSTOMER, AT&T will provide CUSTOMER with online access to available telephone numbers as defined by, and in accordance with, applicable FCC rules and regulations on a first come first served basis. CUSTOMER may designate up to a forecasted six (6) months supply of available numbers as intermediate (an available number provided to CUSTOMER) telephone numbers per rate center if the following conditions are met:
- 7.1.1 CUSTOMER must: (1) indicate that all of the intermediate numbers currently held by CUSTOMER in each rate center where CUSTOMER will be requesting intermediate telephone numbers have six (6) or less months to exhaust; (2) supply projected monthly telephone number demand on a rate center basis for the coming

twelve (12) months for each rate center where CUSTOMER will be requesting intermediate telephone numbers; and, (3) demonstrate that the utilization level on current intermediate numbers held by CUSTOMER in the rate center where CUSTOMER is requesting telephone numbers has reached at least seventy percent (70%). The above information will be provided by CUSTOMER by submitting to AT&T a fully completed "CO Code Assignments Months To Exhaust Certification Worksheet – TN Level" (MTE Worksheet), Appendix B to the Central Office Code (NXX) Assignments Guidelines, INC 95-0407-008 for each rate center where CUSTOMER will be requesting intermediate telephone numbers. The utilization level is calculated by dividing all intermediate numbers currently assigned by CUSTOMER to End Users by the total number of intermediate numbers held by CUSTOMER in the rate center and multiplying the result by one hundred (100). After June 30, 2004, rate center utilization level must be at seventy-five percent (75%) (Part F of the MTE Worksheet).

- 7.1.2 If fulfilling CUSTOMER's request for intermediate numbers results in AT&T having to submit a request for additional telephone numbers to a national numbering administrator (either the North American Numbering Plan Administration (NANPA) CO Code Administration or NeuStar Pooling Administration or their successors), AT&T will submit the required numbering request to the national numbering administrator to satisfy CUSTOMER's request for intermediate numbers. AT&T will also pursue all appropriate steps (including submitting a safety valve request (petition) to the appropriate Commission if the numbering request is denied by the national administrator) to satisfy CUSTOMER's request for intermediate numbers. In these cases, AT&T is not obligated to fulfill the request by CUSTOMER for intermediate numbers unless, and until, AT&T's request for additional numbering resources is granted.
- 7.1.3 CUSTOMER agrees to supply supporting information for any numbering request and/or safety valve request that AT&T files pursuant to Section 7.1.2 above.
- 7.2 CUSTOMER acknowledges that there may be instances where there is an industry shortage of available telephone numbers in the Numbering Plan Area (NPA). These instances occur where a jeopardy status has been declared by NANPA and the industry has determined that limiting the assignment of new numbers is the appropriate method to employ until the jeopardy can be alleviated. In such NPA jeopardy situations where assignment of new numbers is restricted as per the jeopardy guidelines developed by the industry, AT&T may request that CUSTOMER cancel all or a portion of its unassigned intermediate numbers. CUSTOMER's consent to AT&T's request shall not be unreasonably withheld.
- 8. Wholesale Operator Call Processing Services

8.1	AT&T's Wholesale Operator Call Processing (OCP) provides: (1) operator handling for call completion (for example, collect, third number billing, and manual calling card calls); (2) operator or automated assistance for billing after the End User has dialed the called number (for example, calling card calls); and (3) special services including but not limited to Busy Line Verification and Emergency Line Interrupt (ELI), Emergency Agency Call, and Operator-assisted Directory Assistance.
8.2	Upon request for OCP, AT&T shall:
8.2.1	Process 0+ and 0- dialed local calls.
8.2.2	Process 0+ and 0- intraLATA toll calls.
8.2.3	Process calls that are billed to CUSTOMER End User's calling card that can be validated by AT&T.
8.2.4	Process person-to-person calls.
8.2.5	Process collect calls.
8.2.6	Provide the capability for callers to bill to a third party and shall also process such calls.
8.2.7	Process station-to-station calls.
8.2.8	Process Busy Line Verify and ELI requests. Rates are set forth under Inward Operator Services in Exhibit A.
8.2.9	Process emergency call trace originated by a PSAP.
8.2.10	Process operator assisted directory assistance calls.
8.2.11	Adhere to equal access requirements, providing CUSTOMER local End Users the same Interexchange Carrier (IXC) access as provided to AT&T End Users.
8.2.12	Exercise at least the same level of fraud control in providing operator service to CUSTOMER that AT&T provides for its own operator service.
8.2.13	Perform Billed Number Screening when handling collect, person-to-person, and billed-to-third-party calls.
8.2.14	Direct customer account and other similar inquiries to the customer service center designated by CUSTOMER.

Exhibit	1
DS0 Services Agreeme	nt
Attachment	1
Page 2	25

8.2.15 Provide call detail records to CUSTOMER via the Optional Daily Usage File (ODUF) described in this Attachment. 8.3 The interface requirements shall conform to the interface specifications for the platform used to provide Operator Services as long as the interface conforms to industry standards. 8.4 AT&T will provide access to OCP Service at the rates set forth in Exhibit A. 9. **Wholesale Directory Assistance Service** 9.1 AT&T's Wholesale Directory Assistance (DA) Service provides local and non-local End User telephone number listings with the option to complete the call at the caller's direction separate and distinct from Wholesale Switch Ports Services or Wholesale Local Platform Services. 9.2 AT&T will provide access to DA Service at the rates set forth in Exhibit A. 9.3 DA Service shall provide up to two (2) listing requests per call. If available and if requested by CUSTOMER's End User, AT&T shall provide caller-optional directory assistance call completion service to one of the provided listings. 9.4 DA Service Updates. AT&T shall update End User listings changes daily. These changes include: 9.4.1 New End User connections; 9.4.2 End User disconnections; 9.4.3 End User address changes. 9.5 These updates shall also be provided for non listed and non published numbers for use in emergencies. **10. ODUF** 10.1 Upon written request from CUSTOMER, AT&T will provide the ODUF Services to CUSTOMER pursuant to the terms and conditions set forth in this section. 10.2 CUSTOMER shall furnish all relevant information required by AT&T for the provision of the ODUF.

Version: DS0 - Attachment 1 Amendment - Add Additional Services 04/30/07

10.3

The ODUF feed provides CUSTOMER messages, associated with Wholesale Switch Port Services and Wholesale Local Platform Services that CUSTOMER

has purchased from AT&T that were carried over the AT&T network and processed by AT&T for CUSTOMER.

- 10.4 Charges for the ODUF Service will appear on CUSTOMER's monthly bills for the previous month's usage in arrears. The charges are as set forth in Exhibit A.

 10.5 The ODUF feed will contain both rated and unrated messages. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.

 10.6 Messages that error in the billing system of CUSTOMER will be the responsibility
- of CUSTOMER. If, however, CUSTOMER should encounter significant volumes of errored messages that prevent processing by CUSTOMER within its systems, AT&T will work with CUSTOMER to determine the source of the errors and the appropriate resolution.
- 10.7 <u>ODUF Specifications</u>
- 10.7.1 ODUF Messages to be Transmitted
- 10.7.1.1 The following messages recorded by AT&T will be transmitted to CUSTOMER:
- 10.7.1.1.1 Message recording for per use/per activation type services (examples: Three-Way Calling, Verify, Interrupt, Call Return, etc.)
- 10.7.1.1.2 Measured local calls
- 10.7.1.1.3 DA messages
- 10.7.1.1.4 IntraLATA Toll
- 10.7.1.1.5 WATS and 800 Service
- 10.7.1.1.6 N11
- 10.7.1.1.7 Information Service Provider Messages
- 10.7.1.1.8 Operator Services Messages
- 10.7.1.1.9 Operator Services Message Attempted Calls
- 10.7.1.1.10 Credit/Cancel Records
- 10.7.1.1.11 Usage for Voice Mail Message Service

- 10.7.1.2 Rated Incollects (messages AT&T receives from other revenue accounting offices) also appear on ODUF. Rated Incollects will be intermingled with AT&T recorded rated and unrated usage. Rated Incollects will not be packed separately.
- 10.7.1.3 AT&T will perform duplicate record checks on records processed to ODUF. Any duplicate messages detected will be deleted and not sent to CUSTOMER.
- In the event that CUSTOMER detects a duplicate on ODUF they receive from AT&T, CUSTOMER will drop the duplicate message and will not return the duplicate to AT&T.
- 10.7.2 <u>ODUF Physical File Characteristics</u>
- ODUF will be distributed to CUSTOMER via Secure File Transfer Protocol (FTP). The ODUF feed will be a variable block format. The data on the ODUF feed will be in a non-compacted EMI format (175 byte format plus modules). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one (1) dataset per workday per OCN. If AT&T determines the Secure FTP Mailbox is nearing capacity levels, AT&T may move the CUSTOMER to CONNECT:Direct file delivery.
- 10.7.2.2 If the CUSTOMER is moved to CONNECT: Direct, data circuits (private line or dial-up) will be required between AT&T and CUSTOMER for the purpose of data transmission. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with AT&T. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the AT&T end to attach the line to the mainframe computer and to transmit messages successfully on an ongoing basis will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dial-up facility is required, dial circuits will be installed in the AT&T data center by AT&T and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the AT&T end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on CUSTOMER's end for the purpose of data transmission will be the responsibility of CUSTOMER.
- 10.7.2.3 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.
- 10.7.3 ODUF Packing Specifications

Version: DS0 - Attachment 1 Amendment – Add Additional Services 04/30/07

Confidential and proprietary. May not be used or disclosed outside of AT&T. Subject to Nondisclosure Agreement.

- 10.7.3.1 The data will be packed using ATIS EMI records. A pack will contain a minimum of one (1) message record or a maximum of ninety nine thousand nine hundred and ninety nine (99,999) message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of ninety-nine (99) packs and a minimum of one (1) pack.
- The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to CUSTOMER which AT&T RAO is sending the message. AT&T and CUSTOMER will use the invoice sequencing to control data exchange. CUSTOMER will notify AT&T of sequence failures identified by CUSTOMER and AT&T will resend the data as appropriate.
- ODUF Pack Rejection. CUSTOMER will notify AT&T within one (1) business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (e.g., out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. CUSTOMER will not be required to return the actual rejected data to AT&T. Rejected packs will be corrected and retransmitted to CUSTOMER by AT&T.
- 10.7.5 ODUF Control Data. CUSTOMER will send one (1) confirmation record per pack that is received from AT&T. This confirmation record will indicate CUSTOMER's receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by CUSTOMER for reasons stated in the above section.
- 10.7.6 ODUF Testing. Upon request from CUSTOMER, AT&T shall send ODUF test files to CUSTOMER. The Parties agree to review and discuss the ODUF content and/or format. For testing of usage results, AT&T shall request that CUSTOMER set up a production (live) file. The live test may consist of CUSTOMER's employees making test calls for the types of services CUSTOMER requests on ODUF. These test calls are logged by CUSTOMER, and the logs are provided to AT&T. These logs will be used to verify the files. Testing will be completed within thirty (30) days from the date on which the initial test file was sent.

11. Access Daily Usage File

- 11.1 Upon written request from CUSTOMER, AT&T will provide the Access Daily Usage File (ADUF) Services to CUSTOMER pursuant to the terms and conditions set forth in this section.
- 11.2 CUSTOMER shall furnish all relevant information required by AT&T for the provision of ADUF Services.

- The ADUF provides CUSTOMER originating and terminating access and third party messages associated with Wholesale Switch Port Services and Wholesale Local Platform Services that CUSTOMER has purchased from AT&T.
- 11.4 Charges for ADUF Services will appear on CUSTOMER's monthly bills for the previous month's usage in arrears. The charges are as set forth in Exhibit A.
- Messages that error in the billing system of CUSTOMER will be the responsibility of CUSTOMER. If, however, CUSTOMER should encounter significant volumes of errored messages that prevent processing by CUSTOMER within its systems, AT&T will work with CUSTOMER to determine the source of the errors and the appropriate resolution.
- 11.6 <u>ADUF Messages To Be Transmitted</u>
- 11.6.1 The following messages recorded by AT&T will be transmitted to CUSTOMER:
- 11.6.1.1 Recorded originating and terminating interstate and intrastate access records associated with Wholesale Switch Port Services and Wholesale Local Platform Services.
- 11.6.1.2 Recorded terminating access records for undetermined jurisdiction access records associated with Wholesale Switch Port Services and Wholesale Local Platform Services.
- 11.6.2 AT&T will perform duplicate record checks on records processed to ADUF. Any duplicate messages detected will be dropped and not sent to CUSTOMER.
- In the event that CUSTOMER detects a duplicate on ADUF they receive from AT&T, CUSTOMER will drop the duplicate message and will not return the duplicate to AT&T.
- 11.6.4 <u>ADUF Physical File Characteristics</u>
- 11.6.4.1 ADUF will be distributed to CUSTOMER via Secure FTP Mailbox. The ADUF feed will be a fixed block format. The data on the ADUF feed will be in a non-compacted EMI format (210 bytes). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one (1) dataset per workday per OCN. If AT&T determines the Secure FTP Mailbox is nearing capacity levels, AT&T may move the CUSTOMER to CONNECT:Direct file delivery.
- 11.6.4.2 If the CUSTOMER is moved to CONNECT:Direct, data circuits (private line or dial-up) will be required between AT&T and CUSTOMER for the purpose of data

transmission. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with AT&T. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the AT&T end to attach the line to the mainframe computer and to transmit messages successfully on an ongoing basis will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dial-up facility is required, dial circuits will be installed in the AT&T data center by AT&T and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the AT&T end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on CUSTOMER's end for the purpose of data transmission will be the responsibility of CUSTOMER.

- 11.6.4.3 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.
- 11.6.5 ADUF Packing Specifications
- The data will be packed using ATIS EMI records. A pack will contain a minimum of one (1) message record or a maximum of ninety nine thousand nine hundred and ninety nine (99,999) message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of ninety-nine (99) packs and a minimum of one (1) pack.
- The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to CUSTOMER which AT&T RAO is sending the message. AT&T and CUSTOMER will use the invoice sequencing to control data exchange. CUSTOMER will notify AT&T of sequence failures identified by CUSTOMER and AT&T will resend the data as appropriate.
- 11.6.6 <u>ADUF Pack Rejection.</u> CUSTOMER will notify AT&T within one (1) business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (e.g., out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. CUSTOMER will not be required to return the actual rejected data to AT&T. Rejected packs will be corrected and retransmitted to CUSTOMER by AT&T.
- 11.6.7 <u>ADUF Control Data.</u> CUSTOMER will send one (1) confirmation record per pack that is received from AT&T. This confirmation record will indicate CUSTOMER's receipt of the pack and acceptance or rejection of the pack. Pack

Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by CUSTOMER for reasons stated in the above section.

- 11.6.8 <u>ADUF Testing.</u> Upon request from CUSTOMER, AT&T shall send a test file of generic data to CUSTOMER via CONNECT:Direct or Text File via e-mail. The Parties agree to review and discuss the test file's content and/or format.
- 12. Centralized Message Distribution System (CMDS) Utilizing Revenue Accounting Office (RAO) Hosting
- 12.1 **Definitions**
- 12.1.1 CMDS is a national message exchange system administered by Telcordia used to transmit alternately billed calls (e.g., credit card, third number and collect) from the Earning Company, as defined herein, to the Billing Company, as defined herein, to permit the Earning Company and the Billing Company to receive appropriate compensation.
- Direct Participants are Telecommunications carriers that exchange data directly with other Direct Participants via the CMDS Data Center and may act as host companies (Host) for those Telecommunications carriers that do not exchange data directly via the CMDS Data Center (Indirect Participants).
- 12.1.3 RAO Hosting is a hosting relationship where an Indirect Participant sends and receives CMDS eligible messages to and from its Host, who then interfaces, on behalf of the Indirect Participant, with other Direct Participants for distribution and collection of these messages. RAO Hosting also includes the Direct Participant's provision of revenue settlements functions (compensation) for alternately billed calls based upon reports generated by Credit Card and Third Number Settlement (CATS) and Non-InterCompany Settlement (NICS) as described herein. CATS and NICS are collectively referred to as Intercompany Settlements.
- The CATS System is a national system administered by Telcordia, used to settle revenues for calls that are sent from one CMDS Direct Participant to another for billing. CATS applies to calls that originate within one Regional Bell Operating Company's (RBOC) territory, as defined at Divestiture, and bill in another RBOC's territory. CATS calculates the amounts due to Earning Companies (i.e., billed revenue less the billing and collection fee). For alternately billed calls, the originating company, whose facilities are used to place the call, is the Earning Company and the company that puts the charges on the End User's bill is the Billing Company.
- 12.1.5 The Non-InterCompany Settlement (NICS) System is the national system administered by Telcordia that is used in the settlement of revenues for calls that

are originated and billed by two (2) different local exchange carriers (LEC) within a single Direct Participant's territory to another for billing. NICS applies to calls involving another LEC where the Earning Company and the Billing Company are located within AT&T's territory.

- 12.2 Upon CUSTOMER's request, AT&T, as a Direct Participant, shall provide RAO Hosting Services to CUSTOMER, as an Indirect Participant, as set forth herein.
- 12.2.1 Where CUSTOMER selects AT&T as its RAO Host for the delivery of Intercompany Settlements messages, CUSTOMER must request that AT&T establish a unique hosted RAO code for CUSTOMER. Such request shall be in writing to the AT&T RAO Hosting coordinator and must be submitted at least eight (8) weeks prior to provision of Services pursuant to this Section. Services shall commence on a date mutually agreed to by the Parties.
- 12.2.2 AT&T will record CUSTOMER's End User messages and forward such messages to CUSTOMER via the ODUF in Exchange Message Interface (EMI) format. CUSTOMER must rate the messages and forward them to AT&T, as its RAO Host, for distribution to the Billing Company via CMDS. AT&T will deliver such messages for CUSTOMER through CMDS and will bill CUSTOMER for CMDS on a per message basis as set forth in Exhibit A. CUSTOMER must follow all Telcordia message exchange standards to send and receive the above referenced NICS and CATS settlements.
- 12.2.3 AT&T will receive messages from CUSTOMER that are to be processed by AT&T, another LEC in the AT&T region or a LEC outside the AT&T region. CUSTOMER must send all messages to AT&T no later than eighty-nine (89) days after the message date or Telcordia will reject the entire pack.
- 12.2.4 RAO Hosting, CATS and NICS Services provided to CUSTOMER by AT&T will be in accordance with the methods and practices regularly applied by AT&T to its own operations during the term of this Agreement, including such revisions as may be made from time to time by AT&T.
- 12.2.5 CUSTOMER shall furnish all relevant information required by AT&T for the provision of RAO Hosting, CATS and NICS.
- 12.2.6 AT&T will perform invoice sequence checking, standard EMI format editing, and balancing of message data with the EMI trailer record counts on all data received from CUSTOMER. All messages and related data exchanged between AT&T and CUSTOMER will be formatted for EMI formatted records and packed between appropriate EMI header and trailer records in accordance with accepted industry standards.

- 12.2.7 All data received from CUSTOMER that is to be processed or billed by another LEC within the AT&T region will be distributed to that LEC in accordance with the agreement(s) in effect between AT&T and the involved LEC.
- 12.2.8 All data received from CUSTOMER that is to be placed on the CMDS network for distribution outside the AT&T region will be handled in accordance with the agreement(s) in effect between AT&T and its connecting contractor, currently Telcordia.
- 12.2.9 AT&T will receive messages from the CMDS network that are destined to be processed by CUSTOMER and will forward them to CUSTOMER on a daily basis for processing.
- 12.2.10 CMDS data between AT&T and CUSTOMER will be distributed via Secure FTP Mailbox. It will be created on a daily basis Monday through Friday, except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. If AT&T determines the Secure FTP Mailbox is nearing capacity levels, AT&T may move CUSTOMER to CONNECT:Direct file delivery.
- 12.2.11 If CUSTOMER is moved to CONNECT: Direct, data circuits (private line or dial-up) will be required between AT&T and CUSTOMER for the purpose of data transmission when utilizing CONNECT:Direct. Where a dedicated line is required, CUSTOMER will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with AT&T. CUSTOMER will also be responsible for any charges associated with this line. Equipment required on the AT&T end to attach the line to the mainframe computer and to transmit successfully ongoing will be negotiated on an individual case basis. Any costs incurred for such equipment will be CUSTOMER's responsibility. Where a dialup facility is required, dial circuits will be installed in the AT&T data center by AT&T and the associated charges assessed to CUSTOMER. Additionally, all message toll charges associated with the use of the dial circuit by CUSTOMER will be the responsibility of CUSTOMER. Associated equipment on the AT&T end, including a modem, will be negotiated on an individual case basis between the Parties. All equipment, including modems and software, that is required on the CUSTOMER end for the purpose of data transmission will be the responsibility of CUSTOMER.
- 12.2.12 If CUSTOMER utilizes FTP for data file transmission, purchase of the FTP software will be the responsibility of CUSTOMER.
- 12.2.13 CUSTOMER will maintain recorded message detail necessary to recreate files provided to AT&T for a period of three (3) calendar months beyond the related message dates.

In the event that data to be exchanged between CUSTOMER and AT&T via CMDS should become lost or destroyed, the Party responsible for creating the data will make every effort to restore and retransmit such data. Should an error be detected by the EMI format edits performed by AT&T on data received from CUSTOMER, the entire pack containing the affected data will not be processed by AT&T. AT&T will notify CUSTOMER of the error. CUSTOMER will correct the error(s) and will resend the entire pack to AT&T for processing. In the event that an out-of-sequence condition occurs on subsequent packs, CUSTOMER will resend these packs to AT&T after the pack containing the error has been successfully reprocessed by AT&T.

12.3 <u>Intercompany Settlements Messages</u>

- 12.3.1 AT&T will receive the monthly NICS and CATS reports from Telcordia on behalf of CUSTOMER and will distribute copies of these reports to CUSTOMER on a monthly basis.
- Through CATS AT&T will collect the revenue earned by CUSTOMER from the RBOC in whose territory the messages are billed, less a per message billing and collection fee of five cents (\$0.05), or such other amount as may be approved by the Direct Participants and Telcordia, on behalf of CUSTOMER. AT&T will remit the revenue billed by CUSTOMER to the RBOC in whose territory the messages originated, less a per message billing and collection fee of five cents (\$0.05), or such other amount as may be approved by the Direct Participants and Telcordia, on behalf of CUSTOMER. These two (2) amounts will be netted together by AT&T and the resulting charge or credit issued to CUSTOMER via a Carrier Access Billing System (CABS) miscellaneous bill on a monthly basis in arrears.
- Through NICS AT&T will collect the revenue earned by CUSTOMER within the AT&T territory from another LEC also within the AT&T territory (NICS) where the messages are billed, less a per message billing and collection fee of five cents (\$0.05), on behalf of CUSTOMER. AT&T will remit the revenue billed by CUSTOMER within the AT&T region to the LEC also within the AT&T region, where the messages originated, less a per message billing and collection fee of five cents (\$0.05). These two (2) amounts will be netted together by AT&T and the resulting charge or credit issued to CUSTOMER via a CABS miscellaneous bill on a monthly basis in arrears.
- 12.3.4 AT&T and CUSTOMER agree that monthly-netted amounts of less than fifty dollars (\$50.00) will not be settled.

13. Rates

For ODUF, ADUF and CMDS rates are as set forth in Exhibit A.

14. Inside Wire Maintenance Services

- 14.1 Upon request of CUSTOMER, AT&T will provide the Inside Wire Maintenance ("ISWM") Services ordered by CUSTOMER as further detailed in this Attachment.
- ISWM Services are defined as follows: AT&T will repair telephone service troubles that may exist in the wiring and jacks inside CUSTOMER's end user's business or residence where the telecommunications service provided to the CUSTOMER's end user is basic residential and/or business lines purchased from CUSTOMER and provided to CUSTOMER pursuant to this Agreement. Basic residential and/or business lines are defined as Plain Old Telephone Service ("POTS") lines which are provisioned with simple wiring and which do not terminate at a communications system.
- As part of the ISWM Services, AT&T will isolate the source of the trouble reported by CUSTOMER. If the trouble is located in AT&T's network (i.e. on the network side of the demarcation point for that line), AT&T will repair the trouble as specified elsewhere in this Agreement. If the trouble is located between the network demarcation point and the interface to the jack(s) inside the end user's premises, AT&T, subject to the terms and conditions set forth herein, will repair the basic inside telephone wire and modular jacks.
- 14.4 ISWM Services do not include repairs to telephone sets, fax machines, answering machines, modems, and similar equipment, also known as Customer Premises Equipment ("CPE").
- 14.5 If the trouble is caused by a defect or condition present in the CPE or in the cord from the jack to the CPE, AT&T will advise CUSTOMER and/or CUSTOMER's end user that the CPE should be disconnected and either repaired or replaced, and the trouble ticket will be closed to CUSTOMER.
- ISWM Services do not include (i) troubles caused by willful damage to inside wire or jacks; (ii) damage caused by acts of God; (iii) obvious conditions existing at the time of CUSTOMER's subscription to the ISWM Services (e.g. wiring does not exist to the jack at the time of the subscription to the ISWM Services); (iv) inside wire or jacks that do not meet industry standards for telecommunications services; (v) any repair to and/or maintenance of CUSTOMER's end user's inside wiring or jacks to the extent that after reasonable effort AT&T determines that such repair/maintenance cannot be performed in a safe manner due to the presence of asbestos or any other environmentally hazardous substance or due to the existence of an unsafe condition (vi) damage to wiring or jacks due to painting or

remodeling; (vii) the rearranging of inside wiring from one DS0 Wholesale Local Voice Platform Services to another DS0 Wholesale Local Voice Platform Services (e.g. previous occupant of premises had two (2) lines and CUSTOMER's end user has only one (1) line); (viii) on-premise, different building extensions; and (ix) inside wiring or jacks installed in Recreational Vehicles, boats and/or travel trailers.

- 14.7 Replacement of standard miniature modular jacks (i.e. RJ11C/D, RJ11W, RJ14C and RJ14W) is included in ISWM Services. If any other jack type requires replacement, CUSTOMER will be liable for the material cost of said jack type. The labor associated with the replacement of other jack types is included in the ISWM Services.
- 14.8 Basic residential and business lines serving buildings or developments where the owner/developer of said building or development has chosen to have a single demarcation point installed for all services, and where the owner/developer requires a pre-determined vendor(s) to perform these services, are not eligible for ISWM Services.
- 14.9 If an end user of CUSTOMER has more than one (1) DS0 Wholesale Local Voice Platform line to a premises, each DS0 Wholesale Local Voice Platform line to said premises must be subscribed to ISWM Services.
- 14.10 If one (1) or more than one (1) non-basic line is terminated at a premises, all lines at that premise are considered non-basic and are thus ineligible for the ISWM Services.
- 14.11 If an end user of CUSTOMER utilizes a key telephone system, a Private Branch Exchange (PBX) or other non basic telephone system, ISWM Services are not available to CUSTOMER for said end user.
- 14.12 Except on holidays, AT&T will provide ISWM Services to CUSTOMER Monday through Saturday 8am to 6pm local time of CUSTOMER's end user.
- 14.13 For new DS0 Wholesale Local Voice Platform Services ordered after the Effective Date of this Agreement for which CUSTOMER chooses to order ISWM Service, CUSTOMER will order ISWM Services through the Local Service Request ("LSR") process.
- 14.14 After subscription to ISWM Services for end users, there will be a thirty (30) day waiting period before ISWM is available to that end user. When ISWM Services are available, CUSTOMER shall submit requests for ISWM Services to be provided to CUSTOMER's end users by submitting a repair request through the maintenance and repair electronic interface available to CUSTOMER.

CUSTOMER may alter or cancel a repair request at any time without charge. In an attempt to reduce unnecessary dispatches, CUSTOMER shall use commercially reasonable efforts to cancel a repair request prior to AT&T's dispatch of a technician. ISWM Services will not be performed on a premises visit to install DS0 Wholesale Local Voice Platform Services.

- 14.15 AT&T may, at its discretion and upon thirty (30) days written notice to CUSTOMER, discontinue or cancel ISWM Services to an individual end user of CUSTOMER provided that AT&T can demonstrate that the individual end user is abusing the provisions of the ISWM Services, such as, by way of example, where AT&T dispatches to the same location on a repeated basis and trouble is caused by, but not limited to, substandard wire, pets, children or defective CPE.
- In the event AT&T misses an appointment or is delayed in arriving for an appointment to provide ISWM Services to CUSTOMER's end user, AT&T will so notify CUSTOMER through the electronic interface utilized by CUSTOMER to request ISWM Services.
- 14.17 Inside Wire Charges
- 14.17.1 AT&T will charge CUSTOMER per DS0 Wholesale Local Voice Platform line for each CUSTOMER end user subscribing to ISWM at the rates set forth in supplemental Exhibit A2 hereto.
- 14.17.2 Billing for ISWM Services shall be on a monthly basis. So long as CUSTOMER's documentation regarding its reseller exemption is current, AT&T shall not assess taxes on the charges associated with ISWM Services.
- 14.18 <u>No Exclusivity</u>
- 14.18.1 This Agreement does not require AT&T to be the exclusive provider of ISWM Services to CUSTOMER and nothing in this Attachment shall be construed to limit in any way CUSTOMER's ability to enter into any similar agreement with any other provider of ISWM Services for services that are the same as or similar to those performed for CUSTOMER under the terms of this Attachment.

EXHIBIT D – COMPOSITE RATE CALCULATIONS

For illustrative purposes only, this Exhibit D outlines the calculations used to provide the composite rates set forth in supplemental Exhibit A2 that are associated with Business Lines (UEPBX class of service). Mass Market and Enterprise Market percentages in Table 1 below were developed from the line data in Table 2 and were used to calculate a composite rate for the classes of service and states listed below for DS0 Wholesale Local Platform. The percentages were developed using April 2007 in-service data for the business classes of service listed below. The percentages in Table 1 were multiplied by the applicable Mass Market rate and Enterprise Market rate set forth in Table 3 below to determine the composite rates in Table 4 and Exhibit A2 of Attachment 1 as set forth in this Agreement.

Table 1:

April 2007 Data	AL	FL	GA	KY	LA	MS	NC	SC	TN
Mass Lines	76.33%	55.43%	45.56%	55.03%	69.57%	88.37%	42.11%	63.44%	72.40%
Enterprise Lines	23.67%	44.57%	54.44%	44.97%	30.43%	11.63%	57.89%	36.56%	27.60%

Table 2:

April 2007 Data	AL	FL	GA	KY	LA	MS	NC	SC	TN
Mass Lines (UEPBX)	129.	296.	1,221.	454.	48.	38.	72.	59.	244.
Enterprise Lines (UEPBX)	40.	238.	1,459.	371.	21.	5.	99.	34.	93.
Total Lines	169.	534.	2,680.	825.	69.	43.	171.	93.	337.

Table 3:

Former Exhibit A Bus Rate (UEPBX)		AL	FL		GA	KY		LA	MS	NC	SC	TN
Mass Lines	44	8.15	\$ 8.17	44	8.79	\$ 8.15	49	8.36	\$ 8.23	\$ 9.28	\$ 8.13	\$ 8.70
Enterprise Lines	\$	11.15	\$ 11.17	\$	11.79	\$ 11.15	\$	11.36	\$ 11.23	\$ 12.28	\$ 11.13	\$ 11.70

Table 4:

New Exhibit A Composite Rate	AL	FL	GA	KY	LA	MS	NC	SC	TN
UEPBX	\$ 8.86	\$ 9.51	\$ 10.42	\$ 9.50	\$ 9.27	\$ 8.58	\$ 11.02	\$ 9.23	\$ 9.53
