MISCELLANEOUS SERVICE ARRANGEMENTS

A. General - Custom Calling Service

A.0.1 Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

A.1 Feature Description

A.1.1 Call Forwarding
This service allows calls to be redirected to another telephone number, selectable and changeable by the subscriber. A courtesy call is required for each activation which is completed by dialing a special access code, entering the desired number to forward the calls to and connecting with the party of the desired number to obtain consent. If the party of the desired number does not answer or if the line is busy, the process must be repeated immediately (within 2 minutes) to ensure the number dialed is correct, then the subscriber will receive a confirmation tone. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a subscriber must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

A.1.2 Call Waiting/Cancel Call Waiting
This service alerts the subscriber currently on the phone that another local or long distance caller is attempting to get through the line. The subscriber will receive a tone signal to indicate there is another incoming call and the caller will receive the usual ringing tone. To place the current caller on hold and answer the incoming call, the subscriber need only depress the switchhook once. The subscriber can then toggle between both parties by depressing the switchhook. If the subscriber hangs up when a party is still on hold, the subscriber's line will automatically ring back. When the subscriber picks-up the phone, he/she will be connected to the party that was on hold.

BY: Paul E. Pederson, Vice President

EFFECTIVE: October 4, 2000
MISCELLANEOUS SERVICE ARRANGEMENTS

A.1 Feature Description (Continued)

A.1.2 Call Waiting/Cancel Call Waiting (Continued)
Cancel Call Waiting allows a Call Waiting subscriber to deactivate the Call Waiting service. The Call Waiting subscriber will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal instead of a ring. Call Waiting will remain disabled for the rest of the call, but will be automatically restored to the line when the subscriber hangs up. To activate this service, the subscriber dials the Cancel Call Waiting code, receives a dial tone again, and then places the call normally.

A.1.3 Speed Call 8
This service allows the subscriber to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

A.1.4 Speed Call 30
This service allows the subscriber to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

A.1.5 3-Way Calling
This service allows a subscriber to add a third party to an existing phone conversation. To add a third party, the subscriber depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way talking connection. All calls made with 3-Way Calling are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use 3-Way Calling will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.

A.1.6 Do-Not-Disturb
This feature allows a station user to prevent incoming calls reaching their station. Customers who call the phone number will reach a recording which states the number is not accepting calls at this time and to try again later.
A.1.8 Call Reminder
This service allows a customer to program a time at which a reminder call is desired. At the programmed time, the customer will receive a call placed by the Central Office Equipment. When the call is answered, the customer will hear a tone or a Company recorded announcement.

A.1.9 Call Hold
This service allows a subscriber to place a current caller on hold, which frees the line so the subscriber can answer another incoming call. To activate Call Hold, the subscriber depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per station line can be held at a time. The held call cannot be added to the original call.

A.1.10 Personal Ringing
This service allows the subscriber to have up to four separate telephone numbers on a single line. The second, third and fourth number will each have their own distinctive ringing pattern to identify the incoming calls. If a subscriber of this service also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a subscriber to this service also subscribes to Call Forward, they have the option to forward the main directory number or all four telephone numbers.

Personal Ringing service subscribers will be entitled to one listing with each Personal Ringing service number. Listings for Personal Ring service are subject to regulations specified in other sections of this Tariff for directory listings. Other listings will also be provided under the terms and conditions described in other sections of this Tariff.

All telephone numbers associated with a line equipped with Personal Ringing service must originate from the same central office switching machine.
A.1.11 Call Forwarding-Remote Access
This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

A.1.12 Long Distance Call Waiting
This service alerts a Call Waiting subscriber currently on a call that a long distance caller is attempting to get through the line. The subscriber receives a special tone signal, which is different than the Call Waiting tone signal for a local call, to indicate there is incoming long distance call. The long distance caller will receive the usual ringing tone. To place the current caller on hold and answer the incoming call, the subscriber need only depress the switchhook once. The subscriber can then toggle between both parties by depressing the switchhook. If the subscriber hangs up when a party is still on hold, the subscriber's line will automatically ring back and the subscriber will be connected to the party that was on hold after the subscriber picks-up the phone. Long Distance Call Waiting is an add-on service which works only if a customer is subscribed to Call Waiting.

A.1.13 Home Intercom Services

1) Home Intercom - Basic
This service allows a subscriber to redial his/her own directory number in order to talk to another party at a different extension. To activate this service, the subscriber redials his/her own directory number and hangs-up. The phone will ring back after a short interval and then after both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.
MISCELLANEOUS SERVICE ARRANGEMENTS

A.1 Feature Description (Continued)

A.1.13 Home Intercom Services (Continued)

2) Home Intercom - Enhanced
   This service allows single-party residential subscribers to establish a talking path between two or more of their extensions. To activate this service, the subscriber dials one of the access code numbers predetermined by the telephone company, receives an announcement, and then hangs up the phone. Their phone will ring back in one of the distinctive patterns, depending on the access code dialed. Also included in this package is dialable hold, where one extension can transfer an outside call to another extension.

A.1.15 Call Transfer
   This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

A.1.16 Toll Restriction
   This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

A.1.17 Toll Restriction with PIN override
   This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.
GENERAL SUBSCRIBER SERVICES TARIFF

LESLIE COUNTY TELEPHONE CO., INC.

MISCELLANEOUS SERVICE ARRANGEMENTS

A.1 Feature Description (Continued)

A.1.18 Call Forward-Busy (Fixed)

This service automatically redirects incoming calls to a predesignated telephone number or voice mail service when the customer's line is busy. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the line is busy. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. All call forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

A.1.19 Call Forwarding-Busy (Variable)

This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

A.1.20 Call Forward-No Answer (Fixed)

This service automatically redirects incoming calls to another telephone number or voice mail service when the customer's telephone is not answered in a pre-determined number of rings. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer activates the service by contacting the telephone company and designating the number to which all calls will be forwarded when the telephone is not answered within an established period of time. The telephone company then establishes the fixed forward-to telephone number within the switch. To cancel the service or change the forward-to telephone number, the customer must contact the telephone company. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

A.1.21 Call Forward-No Answer (Variable)

This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.

B. RELOCATION FORWARDING SERVICE

GENERAL

Relocation Forwarding Service (RFS) is a voice only application service which allows calls sent to a telephone number programmed in the central office to automatically forward to a customer's terminating premises equipment or voice mail box. The customers premise equipment or voice mail box may be located in the same or different exchange from the call forwarding location.

CONDITIONS AND LIMITATIONS

1. RFS service is offered subject to availability of suitable facilities.

2. RFS is provided on the condition that the Telephone Company's facilities are able to adequately handle calls to the RFS customer without interfering with or impairing any services offered by the Telephone Company. If in the opinion of the Telephone Company, the facilities are inadequate to handle the calls to the RFS customer, the customer will be required to pay for the cost of additional services and facilities.

3. Only one call will be forwarded at one time. Another call will not be sent through until the previous call is completed.

4. Customers subscribing to this service are responsible for any toll call charges between the call forwarding location and the terminating point.

5. One listing in the white and yellow page directories, covering the exchange in which the call forwarding central office is located, is provided without additional charge.

6. The minimum service period is one month.

7. RFS service is not offered where the terminating station is a coin telephone.

8. Service is not available on ported numbers or to Internet Service Providers.

MISCELLANEOUS SERVICE ARRANGEMENTS

C. DIRECTORY LISTINGS

1. General
   The alphabetical section of the telephone directory consists of a list of names of end users in alphabetical order and is designed solely for the purpose of informing calling parties of the telephone numbers of end users and those entitled to use the end user's service as an aid to the use of the telephone service. Any restrictions, changes or additions are provided for in this section.

2. Conditions and Limitations
   a. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory.
   b. The company has the right to limit the length of any listing to one line in the directory by the use of abbreviations when the clearness of the listing or the identification of the customer is not impaired thereby.
   c. A listing must conform to the Company's specifications with respect to its directories.
   d. Listings are regularly provided in connection with all classes of exchange service except public telephone service.
   e. The length of the contract period for directory listings where the listing actually appears in the directory is the directory period. The directory period is from the day that the directory is distributed to the customers to the day the succeeding directory is distributed to the customers, unless the listing no longer services the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for at least 30 days. When the listing appears on information records only, the minimum contract period will be for at least 30 days.
   f. The Telephone Company shall not be liable for damage claimed on account of errors in or omissions from its directories; nor for the result of the publications of such errors in the directory; nor will the Telephone Company be a party to controversies arising between end users or others as a result of listing published in its directories.
   g. In cases of extra listing in the alphabetical section of the directory for which a charge is made, the Telephone Company's liability shall be limited to cancellation of the charges and refunding of any charges to the customer in question.
   h. Listings are furnished only as specified for the various services mentioned in this section. Listings which, in the opinion of the company, are not necessary in connection with any services or facilities not specifically mentioned in this section are not furnished either with or without charge permitted.
C. DIRECTORY LISTING (Continued)

3. Primary Listings

A Primary Listing, which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished at no charge.

a. Listings will be limited to such information as is necessary for the proper identification of the customer.

b. The length of a listing may be limited to the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.

c. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.

d. Primary business listings must be the name under which the subscriber is conducting business.

e. Business listings may include a designation descriptive of the business or profession if the name does not indicate the nature of the business.

f. Titles are permitted in business or residence primary service listings where required for the purpose of identification.

When two or more main station lines or private branch exchange trunk lines are consecutively operated, the first number of the group is considered the primary listing. Where two or more main station lines or private branch exchange trunk lines are consecutively operated, a primary listing may be made for each line. DID trunk numbers and trunk hunting lines listed will be charged the applicable listing charges for regular or additional listings.

4. Additional Listings

General

a. Additional listings for which a charge is made, are available to business and residence customers and are subject to the same regulations as Primary listings.

b. Additional listings must bear the same address and telephone number as the primary or regular listing. An exception to this may be made in the case of off-premises access lines that are located in other premises solely occupied by the customer, in which case, a different address may be listed. This exception is not permitted when the off-premise access line is located in the residence of an employee of the customer.
MISCELLANEOUS SERVICE ARRANGEMENTS

C. **DIRECTORY LISTING (Continued)**

4. **Additional Listings (Continued)**

   General (Continued)

   c. Additional listings must be contracted for by the customer who is responsible for the charges.

   d. Residence additional listings are available for other persons who are members of the customer’s domestic establishment and occupy the same premises.

   e. After insertion of an additional listing in the directory, such listing shall not be discontinued during the life of the directory unless the telephone is also discontinued or the party having the additional listing moves from the premises in which the telephone service is located.

   f. Additional listings may come in various forms. Below are a few examples:

   - Reverse order of the individual names
     Primary Listing: Jones, John & Mary 123 Main St.-----123-4567
     Additional Listing: Jones, Mary & John 123 Main St.-----123-4567

   - Reference to certain other telephone numbers
     Primary Listing: Joe’s Garage 12 West Main St.-----555-1212
     Additional Listing: After five and weekends-----555-1243

   - Reference to another listing
     Primary Listing: Housing, City
     Additional Listing: See Government-Planning and Development

   - Other information possibly listed on a separate line
     - Email address
     - Office Hours
     - Fax Number
     - Former name of a company
     - Residence number for a doctor, dentist, attorney, etc.
MISCELLANEOUS SERVICE ARRANGEMENTS

C. DIRECTORY LISTING (Continued)

5. Non-Published and Non-Listed Numbers

a. General

At the request of the customer, a listing or listings (including name, address and telephone number) may be omitted or deleted from the telephone directory. The divulgence of the customer's telephone number to the public is dependent upon the type of service provided.

1) Non-Published Numbers

The customer listing is omitted or deleted from the telephone directory. Only the name and address of the customer will be carried in the telephone company records, and the number will not be given to any calling party.

2) Non-Listed Numbers

The customer listing is omitted or deleted from the telephone directory, but such listings will be carried in the telephone company information records and the number will be given to any calling party upon request.

b. Regulations

1) The Company shall not be liable should a non-listed or non-published telephone number be divulged inadvertently. When a non-published or a non-listed number is inadvertently published in a directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges that the customer has incurred for such service. Charge for the addition of the second name to the listing.
MISCELLANEOUS SERVICE ARRANGEMENTS

C. DIRECTORY LISTING (Continued)

6. Rates

   a. Listing charges date from the day information records are posted and are payable in the same manner as are charges for exchange service.

   b. All listing charges are automatically discontinued upon the termination of the main service. Charges for additional listings are also discontinued when, (a) the listed party dies, (b) when the listed party subscribes for similar exchange service, and/or (c) when the listed party moves from the premises at which the exchange service is furnished. The minimum charge for additional listings is the amount of such charges for one full directory period.

   c. The following monthly charges may apply:

      | Monthly Charge                      | Monthly Rate |
      |-------------------------------------|--------------|
      | 1) Additional Listing, per listing  | $0.50        |
      | 2) Non-Published Number, per listing| $2.75        |
      | 3) Non-Listed Number, per listing   | $1.50        |

\[1\]Includes Alternate listings, Duplicate, Cross Reference listings, additional line matter, Temporary, dual Name, Caption & Indented listings.
D. DIRECTORY ASSISTANCE SERVICE

1. General

Directory Assistance Service gives customers access to telephone numbers of individuals or businesses by dialing 555-1212, 4-1-1 or 1-4-1-1.

2. Definitions

a. Local numbers are any NPA/NXXs within the customer’s local calling area or home NPA.

b. National numbers are any NPA/NXXs within the United States, Canada, Puerto Rico and the U.S. Virgin Islands, but outside the customer’s local calling area or home NPA.

c. Call Completion is when a customer requests that a call be completed to the number that was provided during the directory assistance call.

3. Regulations

1. A maximum of two requested telephone numbers is allowed per call.

2. Rates will apply based on the NPA/NXX requested.

3. Charges for Directory Assistance Service for requests of a local or national number are not applicable to calls placed from customers whose physical, visual, or reading handicaps prevent them from using the telephone directory.

4. Rates

The following rates apply for Directory Assistance Service.

F. TRUNK HUNT (ROTARY SERVICE)

1. General

Trunk Hunt (Rotary) service provides for incoming calls to be directed to the next available (sequentially numbered) line or trunk, when previous lines or trunks in the line or trunk group are busy.

2. Conditions

   a. Applicable to each line or trunk equipped in the rotary group.

   b. Sequentially numbered trunks or lines are not required when trunk hunt (rotary service) is provided from x-bar, electronic, or digital central offices.

   c. Trunk Hunt (rotary) service will be provided only when connector numbers are available.

3. Rates

   a. PBX or Key Trunk Hunt (Rotary) Charge
      each key trunk or line
      Monthly Rate

   b. Business or Residential One Party Trunk Hunt (Rotary) Charge
      Additional Charge per Line
      $3.00

   * As set forth in Section III, Local Exchange Service Rates.

G. SUSPENSION OF SERVICE

A. General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. Conditions

1. Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.

2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.

ISSUED: September 29, 2011  EFFECTIVE: October 1, 2011

BY: Joel Dohmeier, Vice President
G. SUSPENSION OF SERVICE (Continued)

B. Conditions (Continued)

3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.

4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.

5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.

6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.

7. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.

8. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.

9. The customer’s listing will be retained in the directory.

10. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension.

11. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent.

12. Dial tone access will be limited to 911/E911 and the Company’s Business Office.

13. Unless specifically exempted, Suspension of Service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff.

14. The ten (10) month maximum does not apply to military personnel who are on active duty.

(M) Text previously found on this page is now found on Sheet 13.1.
G.  SUSPENSION OF SERVICE (Continued)

C.  Rates and Charges

1. The monthly rate will be based upon 50% of the regular rate for basic local one-party exchange service. All other local services will be zero rated except for the following:

   a) 911/E911 applicable surcharges will be billed at the full rate.

   b) The Federal Subscriber Line Charge will be discounted 50% per the National Exchange Carrier Association FCC Tariff No. 5, Section 4.5.5.

2. Non-recurring charges do not apply for reconnection to regular full service.

3. Personal Greeting Service

   This optional service is available for customers who prefer to leave a personalized greeting for incoming calls while they are on Suspension of Service.

   Monthly Rate: $3.50
H. EMPLOYEE TELEPHONE SERVICE

1. General

The Telephone Concession Service policy shall apply to all TDS TELECOM Regular Full-Time employees, Regular Part-Time employees, retirees and employees on long-term disability who reside in the service territory of our operating telephone companies.

2. Eligibility

   a. Regular Full-Time employees receive telephone concession at 100% of the eligible expenses. (Regular part-time employees work a scheduled work sheet of 40 hours or more for a period of indefinite duration.)

   b. Regular Part-Time employees receive telephone concession at 75% of the eligible expenses. (Regular part-time employees work a scheduled work week of at least 30 hours per week, every week, and generally less than 40 hours per week, for a time period of indefinite duration.)

   c. Retired employees will receive telephone concession at 100% of the eligible expenses.

   d. Employees on Long-term Disability will continue to receive telephone concession at the rate they were before the disability.

3. Program Coverage

   The following item will be covered:

   - Basic Residential Service (one line)
   - Custom Calling Features
     - Touch tone charges
   - End user charges – interstate and intrastate
   - E-911
   - Dual party relay surcharge
   - Advanced Calling Services

EFFECTIVE 04/07/2005
PURSUANT TO 807 KAR 5:011
SECTION 9 (1)

By___________________________
Executive Director
I. OFF PREMISES EXTENSION(1)

A. General

Off-Premise Extension (OPX) is a telephone line that connects a station located in a separate building to the main station at the Network Interface Device or at the pedestal. This allows the phone at each location to ring at the same time.

B. Conditions and Limitations

1. OPX will only be provided where technically feasible and is subject to the availability of outside plant.

2. Mileage charges will be based upon the airline mileage between the locations of the primary (main station) and secondary line terminations.

3. For multi-point channels, the mileage is the shortest airline distance between each building in which the channel terminates. The charging mileage is the combination of such segments of distance which results in the lowest total mileage for the entire channel.

4. OPX is only provided to locations residing within the same exchange as the main station.

5. OPX may be located on the premises of another customer provided the other customer has a separate access line service at that location.

6. The Telephone Company may limit the number of off premise extensions connected to a line.

7. OPX is limited to voice grade service.

8. Calls made to 9-1-1 from the extension station may only list the main station in the 9-1-1 database.

9. Non-recurring charges as stated in Section 5 apply.

10. If supporting structures are necessary for the purpose of furnishing OPX extensions on the customer’s premises or the extension involves unusual construction or disproportionally large expenditures as compared with usual types of construction, the customer may be responsible for the additional costs of construction.

(1) Off Premises Extension provisioned in or through the Central Office is grandfathered to existing customers effective November 4, 2014 This service will not be available to new customers after this date.

MISCELLANEOUS SERVICE ARRANGEMENTS

OPERATOR SERVICES

1. General Description
Operator Services allow customers to complete calls within the local calling area with the assistance of an operator. The Customer dials "0" or "0+ NXX LINE" to get the operator. Charges include a per-call rate as well as a per-minute rate.

2. Definition of Calls

   A. Billed to Third Number
   When the Customer dialing the Operator requests the call to be billed to a third-party. The third party will need to accept the charges before the caller and the called party can be connected.

   B. Collect Calls
   When the Customer dialing the Operator requests the call to be billed to the called number.

   C. Person-to-Person
   When the Customer requests the Operator to complete the call to a specific telephone number and in addition requests to speak to a specific person, department, extension of an office, etc. Once the requested person, department, extension, etc. joins the call, the Operator will connect the call.

   D. Station-to-Station
   When the Customer requests the Operator to complete the call to a specific telephone number and is willing to speak to whoever answers the called number.

   E. Call Completion
   When the Customer requests the Operator to complete the call to a called number. This charge is in addition to other charges that may be assessed.

3. Terms and Conditions

   A. Operator Services are available 24 hours, 7 days a week. Rates apply to any time of the day and any day of the week

   B. Qualified customers with disabilities will not be assessed the charges.

   C. This service is not available on payphones.

4. Rates

   A. The rates will be assessed on a per call basis.

      1) Operator Assisted Call, per call $1.20
      2) Call Completion, per minute $0.20

PUBLIC SERVICE COMMISSION OF KENTUCKY

RECEIVED 3/20/2015
GENERAL SUBSCRIBER SERVICES TARIFF

LESLIE COUNTY TELEPHONE CO., INC.

Exchange(s): All
PSC: 2
Section: IV
Original Sheet: 16

MISCELLANEOUS SERVICE ARRANGEMENTS

A. GENERAL

Advanced Calling Services (ACS) are optional services, offered in addition to regular exchange service, which allow customers to efficiently manage the call flow generated over their Exchange Access Line(s). Customers will be able to screen, redirect, or return selected calls. These services offer subscribers convenience, time savings, and a greater degree of control over the use of their telephones. Advanced Calling Services are available to residence and business customers where facilities are available. Individual feature availability may differ by exchange.

B. SERVICE DESCRIPTION

1. **ANONYMOUS CALL REJECTION [Feature #003429]**

   This service enables a subscriber to reject incoming calls from which a privacy indicator is received. The service is activated by dialing a unique code. When the service is active, the Telephone Company ("Company") will not complete calls to its customer when the calling party has activated Caller ID blocking. Such calls will be routed to a Company recorded announcement. Anonymous Call Rejection is included with Caller ID at no charge.

2. **CALL REJECTION [Feature #003399]**

   This service enables a subscriber to reject up to a maximum of six (6) preselected incoming telephone numbers which he/she does not wish to receive calls. To program a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. To add an unknown telephone number to the list, a subscriber can activate a code immediately after receiving an unwanted incoming call. The Company's equipment will screen incoming calls against the subscriber's list and reject those on the list. Callers whose numbers are rejected are directed to a Company recorded announcement. If facilities are unavailable to provide incoming call screening via the subscriber's list, standard call completion will occur.

3. **CALL RETURN [Feature #003319]**

   This service enables the subscriber to automatically redial the telephone number of the most recent incoming call. The Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation of Call Return if the most recent incoming call is busy. If the most recent incoming call is blocked, the subscriber will get a Company recorded announcement indicating the number is a private number and the call cannot be returned. The service cannot be activated for calls originating from a line that is forwarded or from a line not associated with a telephone number, e.g., multiline hunting groups.

4. **PREFERRED CALL FORWARDING [Feature #003389]**

   This service enables the subscriber to forward up to a maximum of six (6) preselected incoming telephone numbers to another telephone number. To forward a telephone number, the subscriber dials an activation code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and forward only those telephone numbers on the list. Calls
B. SERVICE DESCRIPTION (continued)

4. PREFERRED CALL FORWARDING (continued)

Calls forwarded by this service are subject to all applicable local and long distance charges. These calls are also subject to transmission limitations.

5. PRIORITY RINGING [Feature #003359]

This service allows the subscriber to provide up to a maximum of six (6) preselected incoming telephone numbers with a distinctive alerting signal or ring (or a distinctive Call Waiting tone if the subscriber has subscribed to Call Waiting), when the subscriber receives calls from them. To select a telephone number, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and provide the Priority Ringing service for the preselected telephone numbers on the subscriber's list.

6. REPEAT DIALING [Feature #003309]

This service enables the subscriber to automatically redial the last outgoing telephone number dialed from that line. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for approximately a thirty (30) minute period, beginning with the subscriber's activation.

7. SPECIAL CALL ACCEPTANCE [Feature #003379]

This service enables a subscriber to allow up to a maximum of six (6) preselected incoming telephone numbers to be accepted. To select a telephone number to be accepted, the subscriber dials a unique code and then constructs or modifies a telephone number screening list. The Company's equipment will screen incoming calls against the subscriber's list and allow only those calls to be completed. Calls from all other numbers will be routed to a Company recorded announcement.

8. CALLER ID

Caller ID - Basic (Number only) and Caller ID - Deluxe (Name and Number) are the available services. Caller ID - Basic and Caller ID - Deluxe include Anonymous Call Rejection (ACR) at no charge.

a) Caller ID - Basic [Number is feature #003329]

This service utilizes specific network capabilities to transmit and display the number associated with an incoming call to the called party's access line. The number of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process and display the number transmission. The Company will forward all telephone numbers where technically feasible.
GENERAL SUBSCRIBER SERVICES TARIFF

LESLIE COUNTY TELEPHONE CO., INC.

Exchange(s): All
PSC: 2
Section: IV
Original Sheet: 18

MISCELLANEOUS SERVICE ARRANGEMENTS

B. SERVICE DESCRIPTION (continued)

8. CALLER ID (continued)

a) Caller ID - Basic (continued)
The customer originating the call may prevent the display of their number. If a calling party has activated blocking, the number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block number delivery. At this time, blocking may or may not be provided on calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

b) Caller ID - Deluxe [Name is feature #003419]
This service utilizes specific network capabilities, where technically feasible, to transmit the Name and Number associated with an incoming call to the called party’s access line. The name and number of the incoming call is transmitted during the silent interval between the first and second ring of the called party’s line. Caller ID - Deluxe subscribers must provide, and connect, their own compatible premises equipment in order to process the name and number transmission.

A customer may prevent the display of their name and number by using blocking services. If a calling party has activated blocking, the name and number will not be transmitted to the display equipment of a Caller ID - Deluxe subscriber. Instead, the Caller ID - Deluxe subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID - Deluxe subscriber that the calling party chose to block name and number delivery. The Company will forward all telephone numbers where technically feasible.

At this time, name and number blocking may not be provided on all calls originating from public, semi-public or other services used by the general public. This depends on feature availability.

9. CALLER ID BLOCKING [Feature #003339]
Caller ID Blocking allows the subscriber to prevent the delivery of their number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

Caller ID Blocking - Per Call will block the delivery of the subscriber’s number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

Caller ID Blocking - Per Call will block the delivery of the subscriber’s number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per call basis (Caller ID Blocking - Per Call) or per line basis (Caller ID Blocking - Per Line).

Caller ID Blocking - Per Line will block the delivery of the subscriber’s number, or name and number (Caller ID - Deluxe) to a Caller ID subscriber on a per line basis (Caller ID Blocking - Per Line).

Issued: February 14, 1996

Effective Date: March 15, 1996
Title: Vice President

Dated: ____________________
MISCELLANEOUS SERVICE ARRANGEMENTS

B. SERVICE DESCRIPTION (continued)

9. CALLER ID BLOCKING (continued)
   number (Caller ID - Deluxe) to a Caller ID subscriber on all calls and will be made
   available or offered, at no charge, to law enforcement agencies and domestic violence
   programs and Non-Published Residential customers.

10. CALL TRACE [Feature #003349]
   This service enables the customer to initiate a trace of the last incoming call completed
   by dialing an activation code immediately after terminating the call. A Call Trace is
   considered successful when the Company's equipment is able to record the incoming
   call detail (not the conversation). Incoming call detail includes: the calling number, the
   time the trace was activated, and in some locations, the time the traced call was
   received. The results of the trace are never provided to the customer directly. Call
   Trace information will only be given to appropriate law enforcement agencies. For
   further action to be taken, the customer is required to contact the Telephone Company
   Business Office during normal business hours, which will refer the customer to
   appropriate law enforcement agencies, or contact the law enforcement agency directly.
   Call Trace detail will be retained by the company and made available to the local law
   enforcement for ten business days after the trace has been initiated.

   Call Trace may capture incoming telephone numbers marked “private” or “out of area”.

   Only calls from ACS-compatible locations with compatible signaling services are
   traceable using Call Trace.

C. SPECIAL CONDITIONS AND LIMITATIONS

1. Special Conditions for Caller ID:

   An originating caller’s number, or name and number may not be displayed at the called
   party under the following conditions:

   a. The calling number, or name and number will not be displayed if the called party
      is off-hook. The called party must be on-hook to receive the caller's data. If the
      customer subscribers to both Call Waiting and Caller ID, and is on an existing
      call, a second incoming call will not be displayed. Instead, the called party will
      receive a Call Waiting tone.

   b. The number, or name and number will not be displayed if the called party
      answers the incoming call during the first ring interval.
MISCELLANEOUS SERVICE ARRANGEMENTS

C. SPECIAL CONDITIONS AND LIMITATIONS (continued)

1. Special Conditions for Caller ID: (continued)
   
c. Caller ID - Basic and Caller ID - Deluxe cannot be provided with any distinctive ringing lines having a maximum silent interval duration that is not long enough to allow transmission of the data message.

d. Identification of names, specific stations or extensions served by a PBX or Key System is not possible. The main directory number of the PBX or Key System will be displayed.

e. Caller ID - Basic and Caller ID - Deluxe cannot be provided if the calling party is from a multi-party line. The called party will receive an "Unavailable" display.

f. The calling number, or name and number will be unavailable if it is from another office that is not linked by appropriate facilities with the called party's office.

g. The calling party has activated blocking.

h. Caller ID Services do not display a directory number for operator assisted calls, calls marked private by the originator or calls originating from coin and party line stations.

i. If a customer dials a "1-800" or other Automatic Number Identification service number, the telephone number that they are calling from will be revealed to the called party, even if the customer has per line blocking or has activated per call blocking.

j. Caller ID is available on all long distance calls where technically feasible.

k. All calling numbers will be displayed to E911, even if the customer has per-line blocking or has activated per-call blocking.

l. All calling numbers, or name and numbers will be passed, even for customers who do not subscribe to Caller ID.

m. Per Call Blocking will be available to all customers. (The FCC Order overrules all state PUC/PSC decisions on Per Call blocking.)

2. Limitations for Advanced Calling Services:
   
a. Where the calling party's telephone number, or name and number can be forwarded from the central office originating the call to the terminating central office serving the called party;

b. When both the originating customer and the terminating customer are served from the same central office;
C. SPECIAL CONDITIONS AND LIMITATIONS (continued)

2. Limitations for Advanced Calling Services: (continued)

   c. When both the call originating customer and the call terminating customer are served from different
   central offices equipped for ACS and are linked by appropriate facilities;

   d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where appropriate facilities are
   available to provide a match of Calling Name to Calling Number.

The Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure, or
malfunctions of ACS Services or equipment. Damages arising out of such interruptions, defects, failures, or
malfunctions of the services after the Company has been notified, and has reasonable time for repair, shall in no event
exceed an amount equivalent to the charges made for the service affected for the period following notice from the
customer until service is restored.

It shall be the responsibility of the Customer to provide Customer Premises Equipment (CPE) compatible with ACS.
MISCELLANEOUS SERVICE ARRANGEMENTS

D. RATES, DISCOUNTS AND NON-RECURRING CHARGES

1. Rates

   a. The monthly rates, credits and any non-recurring charges are in addition to basic local exchange service or any other services subscribed to by the customer.

   b. Activation and Deactivation codes listed below apply to touch-tone telephones. (Rotary phones use the codes prefaced by a 11. For example, Call Return would be 1169.)

Call Trace and Caller ID Blocking are not offered as part of the above discount package.

(1) Individual service rates as specified elsewhere in this tariff apply. Total service charges will be reduced by a credit corresponding to the number of services purchased per line.

4. Privacy Pack

The Privacy Pack combines five (5) Advanced Calling Services into one package. The package includes the following services: Caller-ID Deluxe, Call Rejection, Anonymous Call Rejection, Preferred Call Forwarding, and Priority Ringing.

EFFECTIVE: February 15, 2007
MISCELLANEOUS SERVICE ARRANGEMENTS

BUSINESS RELOCATION FORWARDING

A. General

1. Business Relocation Forwarding is a service whereby a call placed from a station (the originating station) to a Business Relocation Forwarding telephone number in one exchange (the call forwarding location) is automatically forwarded by Company central office equipment to another station designated by the Business Relocation Forwarding customer (the terminating station). This service is offered subject to the availability of suitable facilities. Where the call forwarding location is in a multi-office exchange, the Company will determine the serving central office.

2. Business Relocation Forwarding is provided on the condition that the customer subscribe to sufficient Business Relocation Forwarding features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company.

3. Business Relocation Forwarding is available to BUSINESS customers only.

MISCELLANEOUS SERVICE ARRANGEMENTS

TOLL RESTRICTION SERVICE

A. Description

1. Toll Restriction
   This service restricts the completion of calls to 0+ and 1+ area codes. When a subscriber tries to dial a number with the restricted area code, either a dial tone or a telephone company recorded announcement is received.

2. Toll Restriction Override
   This service allows a subscriber to override the restriction (call blocking) on calls to 0+ and 1+ area codes on a per call basis by using an authorization code. To activate the override, the subscriber dials an activation code and a Personal Identification Number (PIN), waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or company recorded announcement will be heard by the caller.

B. Regulations

1. Toll Restriction Override Service will be offered where facilities and conditions permit.
2. Toll Restriction Override Service is available on single party residence and business lines.
3. Toll Restriction Override Service may be canceled at any time without charge.
4. Customers subscribing to Toll Restriction Override Service may be required to sign an agreement indemnifying the Company for any liability resulting from such toll restriction.
5. In some instances, Toll Restriction Service will necessitate a change in the customer's existing telephone number.
6. The Company makes no guarantee and assumes no liability for the accuracy to Toll Restriction Service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising from the restriction of telephone calls made from the customer's access line.

C. Rates and Charges

Toll Restriction Service rates and charges are in addition to any applicable rates and charges already provided for in other sections of this tariff.

BY: Michael A. Pandow, President

EFFECTIVE: October 17, 1997

</table>

2. Toll Restriction for the blocking capabilities to 900/976 numbers is provided to customers with no initial recurring charges. However, any subsequent requests for toll restriction for 900/976 will incur the applicable charges.

3. 900/976 Restriction is furnished only for central office equipped to provide this service.

(M) Text previously appeared on Sheet 2.5 and 2.6.
N. DIRECT INWARD DIALING (DID) SERVICE

1. General

The Telephone Company will provide, subject to the availability of facilities, Direct Inward Dialing (DID) Service. DID service provides for the completion of local and toll calls to associated station numbers without intermediate handling by an attendant.

2. Rates

a. The rates and charges for central office trunk associated with Direct Inward Dialing (DID) Service are as found below:

<table>
<thead>
<tr>
<th>Description</th>
<th>Rate</th>
<th>NRC</th>
</tr>
</thead>
<tbody>
<tr>

<td>$5.00</td>
<td>$50.00 (2)</td>
</tr>
</tbody>
</table>

*Numbers sold in conjunction with DID Service only.

3. Conditions

a. The service is furnished subject to the availability of Central Office facilities and compatibility of customer-provided equipment.

(1) See Section III, Sheet No. 2 for associated PBX trunk rate and Section V for the installation charge.

(2) Not applicable if installed with initial installation. Subsequent installations are subject to non-recurring costs.
MISCELLANEOUS SERVICE ARRANGEMENTS

N. DIRECT INWARD DIALING (DID) SERVICE (Continued)

3. Conditions (Continued)

b. The service includes central office switching equipment for in-dialing from the exchange and toll network directly to stations associated with customer premises equipment.

c. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.

d. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.

e. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.

f. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

g. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.

h. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.

i. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.

j. DID numbers will be sold in conjunction with DID service only.

k. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.
DEDICATED DS1 SERVICE

1. General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

2. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer’s premises.

3. Regulations

a. Dedicated DS1 Service is available for a minimum service period of one month.

b. Dedicated DS1 Service is available on a month-to-month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.

c. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer’s current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.

d. For channelization of Dedicated DS1 Service, please see Digital Transport Service in Section IV.

(1) This Service will be grandfathered to existing customers effective May 1, 2018. This service will not be available to new customers after this date.

MISCELLANEOUS SERVICE ARRANGEMENTS

O. DEDICATED DS1 SERVICE (1)(Continued) (C)

3. Regulations (Continued)

e. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.

f. The rates listed in Paragraph 4., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.

g. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel installed.

h. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. The disconnection charge will not apply if the customer purchases other services from the Company which replace Dedicated DS1 Service.

(1) This Service will be grandfathered to existing customers effective May 1, 2018. This service will not be available to new customers after this date.

Q. **CUSTOMIZED 911 (C911)**

1. **General**

   Customized 911 (C911) allows a customer to provide 911 Dispatch Centers (PSAP) with specific information for their PBX station telephone numbers or business lines.

2. **Conditions**

   a. There is no charge for requesting updates to information at the PSAP.

   b. A No Record Found (NRF) Charge applies when the Company receives an NRF report from the local authorities when a 911 call is placed and no 911 information was in the database. If a customer receives 3 of these, C911 will be terminated. The customer is required to provide 911 via one (1) ANI with one (1) address, per PRI T1; or via Analog line.

   c. The Report Request charge applies when a customer requests a list of their E911 information from the E911 database.

   d. Except where caused by the willful misconduct or gross negligence of TDS Telecom, the customer agrees to release, indemnify, defend and save harmless the Company from claims, suits, actions, damages, costs, judgments and actions of any nature or from any person related to the C911 Service provided.

   e. The C911 customer agrees to indemnify and hold harmless TDS Telecom for any infringement or invasion of the right to privacy of person or persons, caused or claimed to be caused by acts or omissions of the Customer and their operation or use of C911 Service.

R. TELEPHONE NUMBER REFERRAL SERVICE

1. General

   A. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without a recurring charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

   B. Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

   C. The non-recurring charge applies to a 90-day increment of service and can be continued for an additional 90-day period at the customer's request.

   D. Customers moving to a new location outside the Company's service area will be billed in advance for this service.

2. Rates

   A. Non-recurring charge per telephone number, per 90 days of service

GENERAL SUBSCRIBER SERVICES TARIFF

LESLIE COUNTY TELEPHONE CO., INC.
Kentucky

SERVICE CONNECTION CHARGES

A. GENERAL

1. Service Connection Charges are non-recurring charges for work performed by the Telephone Company in connection with customer-initiated requests for voice services. They apply to ordering, connecting, moving, or changing of voice services.

B. SERVICE DESCRIPTIONS

1. Service Order Charge – Initial:
   Initial Service Order charge applies to Company representative's time required to establish a new customer into the billing system.

2. Service Order Charge – Subsequent:
   Subsequent Service Order charge applies to Company representative's time required to make changes to already established billing records due to a customer's service request.

3. Central Office Work Charge:
   Central Office Work charge applies to Company representative's time required in making changes in the switch or with central office systems and equipment at the request of the customer. Work would include, but is not limited to establishment of service, adding lines, adding features, changing a telephone number, and moves.

4. Line Connection Charge:
   A Line Connection charge would apply to Company representative's time working on the line between the central office and up to the pedestal, or the demarcation point such as the network interface device (NID) or Optical Network Terminal (ONT); or on a circuit between premises traversing company distribution plant.

5. Premise Visit Charge:
   A premise visit charge applies for a Company vehicle deployment when a company representative is required to install lines or isolate trouble at the request of the customer. Also see Conditions and Limitations number 6.

ISSUED: September 25, 2017
EFFECTIVE: October 25, 2017

BY: Joel Dohmeier, Vice President
SERVICE CONNECTION CHARGES

B. SERVICE DESCRIPTIONS – CONTINUED

6. Reconnect for Non-Payment:
   This charge applies to work performed by the telephone company to reestablish service
   that has been disconnected for non-payment and where satisfactory arrangements were
   not made prior to the preparation of the disconnect.

C. CONDITIONS AND LIMITATIONS

1. Service Connection Charges contemplate work performed by the Telephone Company
during normal work hours. Additional charges may apply to work performed outside of
normal work hours at the request of the customer.

2. Service Connection Charges are in addition to recurring rates and any other charges
   applying for voice services subscribed to by the customers. They may apply in addition to
   special installation charges, or construction charges as are set forth in other sections of this
tariff.

3. Service connection charges are non-refundable unless the order is cancelled before work is
   begun or unless specified elsewhere in the Company’s tariff.

4. One Service Order Charge (Initial or Subsequent) applies for all services requested at one
time for the same customer at the same premises.

5. The charges in this tariff do not include work related to the installation or repair of customer
   owned equipment or inside wiring.

6. A Line Connection and a Premises Visit will apply to service trouble that is determined to be
   in customer-provided equipment or inside wire, and the customer does not subscribe to
   Inside Wire Maintenance.

7. The Company may waive Service Connection Charges from time-to-time as part of a
   promotion for new or existing products and services. The promotion will be for a limited
   period of time.

LESLIE COUNTY TELEPHONE CO., INC.
Kentucky

SERVICE CONNECTION CHARGES

C. CONDITIONS AND LIMITATIONS - Continued

8. Service Connection Charge Waiver - Residential customers returning to TDS Telecom service will receive a waiver of all installation charges. In order to receive the waiver, customers must not have any outstanding charges from the Company.

9. Service Connection Charges DO NOT Apply to the following situations:

a. When a change is made and initiated by the Company, for the convenience of the Company, such as a change in grade of service, change in customer's telephone number, or in changes of service and facilities for continuation of satisfactory service.

b. Changes stemming from Company errors or to normal repair and maintenance performed on general voice service and associated equipment. (T)

c. When voice service is re-established at a secondary location immediately following the rendering of a customer's primary location as unfit for occupancy, due to fire, flood, etc. At the option of the Company, a different telephone number may be used. (T)

d. Termination of total service or removal of a service or feature unless specified elsewhere in the tariff.

e. Adding or changing custom calling services, advanced calling services,

f. When a name is legally changed

g. Suspension of service requested by the customer and subsequent reconnect to full service.

h. (C)
C. CONDITIONS AND LIMITATIONS - Continued

9. Service Connection Charges DO NOT Apply to the following situations:
   (Continued)
   
   i. A change from listed telephone service to non-listed or non-published telephone service, and for additional directory listings.  

   (C)

   j. When a product or service has its own specific Service Connection Charges listed.

Sheet No.

Construction Charges ................................................................. 1-13 (C)
  General ................................................................. 1-2
  Definitions ............................................................... 3-6
  Extension of Telephone Facilities .............................................. 7-8
  Applicant Provided Facilities & Construction ..................................... 9-10
  Agreements & Charges ............................................................ 10-11 (C)
  Other Types of Construction or Special Conditions .........................
I. General

A. Construction charges are non-recurring charges applicable under certain conditions or for extending company facilities in order to provide telecommunications services. These charges are in addition to applicable charges for the class of service furnished, service connection charges, charges for moves and changes, and other charges that may be applicable.

B. Reasonable rates and charges for the provision of telecommunications services involve consideration of the costs and degree of risk associated with the provision of the services. Some situations may involve substantial extra cost or risk to the Company, such as, but not limited to the following:

1) the facilities may be temporary;
2) facilities are ordered in advance of actual Applicant demand for service;
3) unusual costs are involved in furnishing the service;
4) the cost of providing service may involve considerable investment to extend facilities beyond existing facilities:

C. Construction charges will not apply to the customer’s aerial or buried drop which extends from the last pole to the building in which the telephone is located.

II. Definitions

A. Advance in Aid of Construction: Funds provided to the Company by the applicant under the terms of a construction agreement, which may be refundable.

B. Applicant: A person, business or agency applying for telecommunications services for a location that currently does not have facilities established. This would include developers.

C. Application: A request to the Company for telecommunications services. This does not include an inquiry as to the availability or charges for such services.

D. Contribution in Aid of Construction: Funds provided to the Company by the applicant under the terms of a construction agreement or construction tariff which are not refundable.

E. Construction Allowance: The portion of new construction and facilities provided at no charge.

F. Cost: Costs associated with the construction of new facilities include, but are not limited to, engineering, labor, materials, equipment, government fees and charges, right-of-ways, road crossings, road boring, trenching, etc.
CONSTRUCTION CHARGES

II. **Definitions** (continued)

G. **Developer**: An Applicant who is responsible for requesting placement and subsequent payment of telecommunications services in a new area for permanent residential and/or business telecommunications services prior to, or in conjunction with, a request for telecommunications services by a customer located in that new area. The new area to be developed is defined as a tract of land which is divided or proposed to be divided into 5 or more lots, parcels, or units.

H. **Easement**: A right given to another person or entity to trespass upon land that person or entity does not own. Easements are used for roads, private property, etc. given to utility companies for the right to bury cables or access utility lines.

I. **Group Application/Group Project**: A request for telecommunications services to 4 or less premises which are located one-half mile or less between each other by individuals who wish to establish telecommunications services at the same time.

J. **Line Extension**: Company outside plant that is required to extend Company facilities and service beyond the existing facilities of the Company.

K. **New Construction**: The placement of those additional facilities required to extend telecommunications services from the nearest existing working facility within the wire center to the Applicant(s) premises.

L. **Permanent Service**: Service provided at a premises that has a permanent foundation and connections to basic utilities such as water, gas, and electricity.

M. **Right of Way**: Legal access to land not owned by the Company for the purpose of digging trenches, laying cable or planting poles.

N. **Service Drop**: Service conductor six pair or smaller delivering service to the customer premise from the service provider's last network access point.

O. **Special Construction**: When an Applicant(s) requests specific and/or unusual plant, equipment, or services to be installed.

P. **Temporary Service**: Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be a limited duration. Service which, in the opinion of the Company, is for operations of a speculative character is also considered temporary service.
CONSTRUCTION CHARGES

III. Extension of Telephone Facilities

A. General

1. The provisions of this section apply only to requests for the extension of basic local exchange service to applicants, who in the Company's judgment, will be permanent customers of the Company. Provisions for Temporary Service and Seasonal Service are listed elsewhere in this tariff.

2. The Company will determine the location and type of facilities required to provide the quantity and class of service, and to meet quality of service standards unless other arrangements have been agreed upon.

3. New construction is based on actual route and average conditions that will enable the Company to extend service to Applicant(s) at a reasonable cost without adding an undue burden to the general body of existing customers.

4. Where new construction is required, the Company will consult with other utilities to minimize construction costs (e.g., sharing trenches, poles, etc.).

5. The Company will construct, own, and maintain outside plant facilities using standard specifications, engineering, design, and materials, unless other arrangements have been agreed upon.

6. Reinforcement of existing physical plant will be provided at the Company's expense except where facilities on private property are provided by the Applicant(s).

7. Upon request by an Applicant for service; the Company will provide, without charge, a preliminary sketch and rough estimate of the construction costs to be paid by the applicant(s)

8. Any construction performed by the Applicant must be authorized and approved by the Company.

9. The Company must receive a Service Order or signed agreement plus payment of any agreed upon Construction Charges before construction begins.

10. The start and completion time will depend on when the Company can coordinate for joint engineering and construction with other utilities; and obtain the material, labor and facilities necessary to complete the new construction.

11. An Applicant(s) ordering service at more than one premise is treated as separate applications at each premise.
CONSTRUCTION CHARGES

III Extension of Telephone Facilities (Continued)

B. Specific to Single Applicants and Group Applicants/Projects

1. A single Applicant’s request may be combined with another Applicant or added to a Group Applicant/Project when there is one-half mile or less of construction between Applicants and/or the grouping results in lower charges (or no increase in construction charges) for all Applicants involved.

2. When the Company receives a group application or project for telecommunications services, any applicable construction charges for shared facilities will be divided between the Applicants.

3. If an Applicant disconnects service, no refund or adjustment is made to the Construction Charge applicable to the Applicant’s premises regardless of any future reconnection of basic telephone service by the Applicant or upon connection of telephone service to a new applicant. Upon disconnect, any outstanding construction charge amounts become due and payable immediately. Charges to remaining Group Applicants will not be affected by disconnects.
CONSTRUCTION CHARGES

III Extension of Telephone Facilities (Continued)

C. Specific to Land Developments

1. The cost and provisioning of facilities covered by one LDA cannot be used for subsequent developments unless provided so in a subsequent LDA.

2. The Developer, at its own cost, provide the Company with a copy of the recorded development plot identifying property boundaries, and with easements satisfactory to the utility for occupancy and maintenance of distribution and service lines and related facilities.

3. Rights-of-way and easements suitable to the utility must be furnished by the developer at no cost to the Company and in reasonable time to meet service requirements.

4. No underground communication facilities shall be installed by a Company until the final grades have been established and furnished to the Company. In addition, the easement strips, alleys and streets must be graded to within six inches of final grade by the developer before the Company will commence construction. Such clearance and grading must be maintained by the developer during construction by the Company.

5. Regardless of who provides the facilities, the Developer holding title to the property will grant and convey to the Company all necessary non-exclusive easements. The easements will provide for the Company to construct, reconstruct, augment, operate, maintain and remove such telecommunications facilities, and appurtenances, from time to time, as the Company may require upon, over, under and across the property.

6. The width and length of the easement will be determined at the time of the request for facilities. In general, all easements will be a standard width of ten feet along the front and rear lot lines and five feet wide along both sides of the lot lines, unless otherwise agreed upon.

7. If, subsequent to construction, the clearance or grade is changed in such a way as to require relocation of any facilities, the cost of such relocation shall be borne by the developer or subsequent owners.

8. The developer shall provide the trenching backfill (including any imported backfill required), compaction, repaving, and any earthwork required to install underground facilities all in accordance with the reasonable specifications and schedules of other utilities in the same area when feasible. At its option, if the Company's cost is equal to or less than that which the developer would otherwise have to bear, the Company may elect at the developer's expense to perform the activities necessary to fulfill the developer's responsibility hereunder.
III Extension of Telephone Facilities (Continued)

C. Specific to Land Developments (continued)

9. When developer is required to provide a trench for other underground facilities, the Company shall use common trench as long as the Company's design layout, easement specification, routing and scheduling requirements can be met, unless otherwise agreed upon by Company and Developer in writing or as otherwise established by the Commission.

10. The Developer will allow the Company to inspect the trenching provided by the Developer, and allow for phased inspection of trenching.

D. Specific to Cluster and Mobile Homes Developments.

1. Legally sufficient easement must be made available to the Company to accommodate the placing and maintaining of the common communications serving facilities. The surface of the easement area must be brought to final grade prior to the installation of buried or underground telecommunications facilities.

2. A trailer stake (a T shaped stake) must be installed by the Developer at the back side on the mobile homes between every two mobile home parking lots for the purpose of attaching the network interface device (NID) or protector, on the outside of the mobile home unless the Company approves some other arrangement. In no case will the Company provide service when the protector/NID is attached to the mobile home.

3. A Construction Allowance will only be provided to mobile homes located on a permanent pad or foundation. When the mobile home is not mounted on a permanent pad or foundation, such service is considered temporary.

E. Construction Allowance

The following Construction Allowances apply to residential line extensions:

1. Each Applicant with an active service order request will be provided with a one-time construction allowance per premises up to 1000 feet with a maximum of 300 feet on private property.
CONSTRUCTION CHARGES

IV Applicant Provided Facilities and Construction

A. General

1. With the approval of the Company, an Applicant(s) may be allowed to engineer, design, furnish and install facilities some or all of the construction and/or materials in lieu of paying some or all of the Construction Charges.

2. The Company and the Applicant will enter into a written agreement for the provision of the requested facilities. The agreement will delineate the Company's responsibilities, the Applicant(s) responsibilities, the associated construction costs, allowances and Construction Charges. For Developers, this information can be included in the Land Development Agreement.

3. The Applicant must use the same quality and quantity of materials and methods utilized by the Company for the construction unless the Company has provided written authorization to the Applicant, approving other materials and/or construction.

4. The Applicant must allow the Company to inspect the plans, material, placement of the facilities, and perform conformance testing. The Applicant will inform the Company at least seven working days prior to the construction of facilities by the Applicant so that the Company can schedule its representative to inspect the plans, material and placement of facilities.

5. A Company Representative must be on site when cable is being plowed or if cable is placed in a trench, the trench must be left open until the Company Representative has inspected and approved the installation.

6. All review and inspection work provided by the Company will be charged to the Applicant at the Company's rates for such work.

B. Specific to Single or Group Applicants

The applicant(s) must meet the following specific criteria for any work done in public rights-of-way prior to receiving Company approval:

- Signed liability agreement holding the Company harmless for any action taken as a result of said construction activities;
- Company specified insurance requirements;
- Bonded to cover workmanship and damage;
- Public and Personal Safety Standards; and,
- Approval of appropriate governing bodies.
CONSTRUCTION CHARGES

V Applicant Provided Facilities and Construction (continued)

C. Specific to a Developer

1. The Developer must use standard Company specifications in engineering and designing the placement of facilities.

2. The Developer must secure all material.

3. The Developer must provide labor to place the facilities within the development and extend facilities from the closest existing telecommunications facilities of the Company to the development.

4. The Developer must submit job prints, material list, and reimbursable cost amount to the Company for approval prior to the construction of the facilities. The Developer's plans must include trench and backfill plans, specifications, schedules, and coordination of inspection schedules. All permits, rights-of-way and easements shall have been secured and recorded as necessary.

5. Once work is complete and the Company has inspected and conformance tested the facilities, the Developer will transfer ownership of all telephone facilities placed, along with their attendant easements, to the Company. Prior to the transfer, all costs for the facilities and work shall have been paid in full. The transfer will be free and clear of any and all liens and encumbrances, and shall be accompanied by an indemnification holding the Company harmless from all claims arising from the purchase and placement of the telephone facilities.
CONSTRUCTION CHARGES

A. Any applicant for service requesting the Company to prepare detailed plans, specifications, or cost estimates may be required to provide a deposit to the Company for an amount equal to the estimated cost of preparation. The estimate will be valid for 90 days after presentation to the applicant(s) unless the Company extends the date. If the applicant authorizes the Company to proceed with the construction of new facilities, the deposit will be credited to the cost; otherwise the deposit shall be nonrefundable.

B. A Land Development Agreement (LDA) signed by both the Company and the Developer is required. The Company will provide the Developer with a copy of the signed agreement.

C. A written agreement or contract signed by both the Company and the Applicant, other than a Developer, is required. The Company will provide the Applicant with a copy of the signed written agreement or contract.

D. The Company will provide the Applicant(s) the estimated construction charges to be paid by the Applicant(s) in writing. The estimated construction charges will be good for thirty days after the Company provides a bill to the Applicant(s).

E. Construction Charges will be associated with the premises for which they were established rather than the Applicant(s). Credit for Construction Charges may not be transferred from one premises to another.

F. With the approval of the Company and at the option of the Company, arrangements may be made for the payment of the Construction Charge for a single Applicant or a group of Applicants in monthly installments over a reasonable period, generally, not to exceed one year. Failure of an Applicant(s) to make monthly installments of Construction Charge may result in suspension or termination of telephone service. All unpaid installments become due upon termination of service.

ISSUED: October 3, 2014
EFFECTIVE: October 10, 2014

BY: Joel Dohmeier, Vice President
CONSTRUCTION CHARGES

V Agreements and Charges (continued)

G. Additional construction charges may apply based on actual costs for such items as, but not limited to:
   1. Extraordinary construction, maintenance or replacement of current facilities;
   2. Overtime work at the Applicant's request;
   3. Special installation, equipment and assembly no normally provided;
   4. Easements & Right of Way
   5. Trenching and backfill

H. Receipt of the Applicant(s) payment(s) by the Company for the Applicant's required construction charges will be considered an application for service and the date to move forward with the construction of the new facilities.

I. If the Applicant's share of the actual cost to provide new service exceeds the Applicant's estimated costs to provide new service, the Applicant may be responsible for additional Construction Charge. If the Applicant's share of the actual Construction Charge is less than the estimated Construction Charge, the Company may provide a refund, or credit for excess amount to the Applicant.

J. The Company will determine whether any Aid-To-Construction is required. The amount and detail of the payment or refund for the Aid-to-Construction will be provided in the LOA.

K. Any refunds of Aid to Construction will be non-interest bearing. In no case will any refund exceed the original amount of Aid to Construction.

L. If the Applicant cancels service prior to construction beginning, a charge will not be assessed. If the Applicant cancels service after construction begins, a charge equal to the costs incurred will be assessed and due immediately.

VI Other Types of Construction or Special Conditions

A. Special Types of Construction or Unusual Conditions

Additional Construction Charges may apply to the following situations:

1. Where a special type of construction is desired by an Applicant or a specific route for extensions is requested to meet an Applicant's special requirements and where the construction or route so requested differs from the normal standards of the Company and is not legally required by ordinance, covenant, tract restriction or otherwise.

2. Where existing aerial facilities are requested to be relocated underground in an area where the Company would not, except for such request, relocate its facilities underground.

3. Where, at the request of the Applicant, the Company constructs a greater quantity of facilities than the Company would otherwise construct or normally utilize.

4. Where construction of facilities is required to meet unusual conditions such as (but not limited to) providing service in hazardous and/or inaccessible locations.

(M) Material now shown on sheet 11 of this Section
VI Other Types of Construction or Special Conditions (continued)

B. Temporary Construction or Seasonal Service

1. Where construction is required to provide service on a temporary basis, the Applicant will be required to pay a Construction Charge equal to the estimated cost of installing and removing the temporary facilities, less estimated salvage at the time of removal. In the event the facilities are reusable for providing permanent service without rearrangement or modification, at the time the temporary service is disconnected, a portion of the Construction Charge assessed may be refunded, depending upon the circumstances in each case. Removal of facilities will be at the option of the Company, if installation of the temporary facilities was made to permanent standards and permanent easements were granted.

2. Where construction is required to provide service on a seasonal basis, or meet other unusual demands, additional construction charges may be assessed on a case-by-case basis.

C. Relocation and Rearrangement of Existing Facilities

When the Company is requested to relocate or rearrange existing facilities for which no specific charge is quoted in this tariff, the customer requesting such relocation or rearrangement may be required to bear the costs incurred with the request.

D. Franchise and Municipality Taxes

1. When any municipality charges, collects or receives from the Company a license, occupation, privilege, inspection or other similar tax or fee or any franchise fee or payment, or any fee or payment similar in nature thereto, for the use of the streets or other public places or any concession for Tariff Rates on its telephone service, whether such taxes, fees or payment be expressed as a lump sum, or a flat rate, or based on receipts, or based on poles, wires, conduits, or other facilities, or otherwise, so of the aggregate amount of such payments and concessions as exceeds three (3) percent of the recurring local service revenues received from subscribers located within such municipality will be billed, insofar as practical pro rate to the subscribers receiving exchange service within the municipality.

2. Except for state, county, or municipal taxes, a pro ration of fees and other charges mentioned in above paragraph will be approved by the Commission before being applied to the subscriber bill.

EFFECTIVE

JAN 1 1991
PURSUANT TO 807 KAR 5011.
SECTION 9 (1)
BY: ____________________________
PUBLIC SERVICE COMMISSION MANAGER
CATV POLE ATTACHMENT SPACE

1. General

   a. Application

      The Rules and Regulations specified herein are in addition to those contained in all other rules and regulations, pertaining to Local Exchange Service; General Exchange Service; Message Toll Service; and other services furnished by the Company. These rules and regulations apply to rates established for furnishing CATV Pole Attachment Space to those qualified and established T.V. Cable Operators or Companies, hereinafter referred to as the CATV Customer or Customer.

2. Conditions

   a. Obligation and Liability of the Telephone Company

      1) The Company's obligation to furnish CATV pole attachment space on its poles is dependent upon the ability to secure and retain suitable facilities and rights for the construction and maintenance of the necessary pole lines.

      2) The Company is obligated to furnish the customer space for CATV pole attachments as long as the customer observes the usual customer obligations in the payment for such services and conformance to all safety standards and other standards applicable to this service.

      3) The Company is obligated to provide periodic inspections of the pole lines and in the event sub-standard installations are found, the Company will charge the customer for the cost of correcting them. The costs will contain labor, material and other necessary administrative costs.

      4) When the Company requires a change in its poles or attachments for reasons unrelated to CATV operations, the customer will be given a minimum of 48 hours notice of such necessary changes. In the event the customer is unable or unwilling to meet the Company's time schedule for such changes, the Company will perform the work and charge the customer its reasonable costs for changing the CATV attachments.

      5) The Company will be responsible for submitting an annual statement of charges to the customer for the CATV pole attachment service.
CATV POLE ATTACHMENT SPACE

2. Conditions (Continued)

   a. Obligation and Liability of the Telephone Company (Continued)

       6) As there will be no conduit available for CATV usage, these rules and regulations apply only to CATV attachments on Company poles.

   b. Obligation and Liability of the CATV Customer

       1) The Customer will be obligated to pay the Company, at the rate/rates established herein, for the CATV pole attachment service provided, when presented the Company's annual statement.

       2) The customer will maintain the attachments on a regular and timely schedule, and during any regular inspection by the Company, when substandard installations are found, will be responsible for correcting them. If the customer is unable or unwilling to make such corrections, then the Company will charge for any labor and materials necessary to make such corrections.

       3) The customer will be responsible for notifying the Company when any new attachments are to be installed, or when any new poles are needed for attachments. No new attachments will be installed except upon the authorization of the Company.

       4) The customer will be obligated and required to obtain the necessary insurance and/or bond, when construction of pole line and/or CATV attachments is in progress. The customer will also be required to provide workmens compensation insurance for his employees. The Company will not be responsible for any injuries to CATV employees while working on CATV attachments on Company poles.

       5) An inventory of CATV attachments will be made by the Company during its periodic pole line inspection, and that inventory will serve as a basis for its charges to the customer. If the customer desires to take an inventory, then they will be reconciled by both parties on a reasonable agreement basis.

Original Sheet: 1

CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

A. RULES AND REGULATIONS

1. General
   a. Circuitry and terminal equipment connected at the customer's premises to facilities furnished by the Company for use with exchange service must comply with Part 68, Subpart B of the Federal Communication Commission Rules and Regulations.
   b. The general Regulations contained in Section II of this tariff apply to connecting of circuitry and terminal equipment connected at the customer's premises. In any instance where the tariff of the Company conflicts with the effective order of the FCC, the FCC order will have precedence.

2. Responsibility of the Customer
   a. A customer desiring to connect customer-provided terminal equipment, protective circuitry, data equipment, or communications systems, to the exchange and message toll network must make application to the Company. Such application may be made verbally prior to the desired in-service date and shall include the following:
      1) The type and manufacture of each item of the grandfathered equipment or the FCC registration number and ringer equivalence number of the registered terminal equipment or registered protective circuitry.
      2) The number of access services desired.
   b. A customer must notify the Company of his intent to disconnect customer-provided equipment or services from the Company's Access lines.
   c. Upon notification from the Company that the customer-provided equipment is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in disconnection of service until such change is completed to the satisfaction of the Company.
   d. The customer will be responsible for the payment of charges for service calls by company employees to the customer's premises where a service difficulty or trouble report results from customer-provided equipment.

PUBLIC SERVICE COMMISSION MANAGER
A. RULES AND REGULATIONS (Continued)

2. Responsibility of the Customer (Continued)

e. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, installation charges, service connection charges, termination charges, minimum charges, reimbursement for loss or damage to Company facilities, and maintenance of service charges as may apply.

f. An access line customer must subscribe to, and be capable of providing operation for, sufficient quantities of access lines to provide adequate access to his customer-provided equipment in accordance with accepted communications industry standards.

g. Use of Company facilities or service in connection with any device for recorded public announcements is subject to the following conditions:

1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided.

2) Customers transmitting factual public announcements such as time, stock market quotations, airline schedules and similar information are excluded from the preceding conditions.

3) Non-published telephone service will not be furnished for use with recorded public announcements.

4) Failure to comply with the provisions of this tariff shall be cause for termination of the service.
CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT AND FACILITIES

3. Responsibility of the Company

a. The Company shall not be responsible to the customer for changes in the technical criteria or in any of the facilities, operations or procedures initiated by the Company or appropriate regulatory agencies which might render any customer-provided equipment obsolete or require modification or alteration of such equipment or otherwise affect its use or performance. The Company will make a reasonable effort to notify a customer in advance of changes in technical criteria, operations or procedures which might affect customer-provided equipment or systems.

b. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems or equipment.

c. The utility shall not be responsible for the through transmission of signals generated by customer-provided equipment or systems or for the quality of, or defects in such transmission, or the reception of signals by customer-provided equipment or systems.

1. Data Service

Leslie County Telephone Company, hereinafter called the concurring utility, assents to, adopts and concurs in the Data Transmitting and Receiving Equipment Tariff, filed with the Kentucky Public Service Commission by South Central Bell Telephone Company, hereinafter called the issuing utility, as such Tariff now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for data services furnished by the issuing utility and concurring utility, and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof.

2. Exceptions

Minimum service period for Data Service is twelve months. Customers of this Company or those of other connecting companies will be required to enter into a termination agreement with this Company, covering cost of establishing service for the minimum service period. Terminating Agreement must be signed and in the possession of the Company before service will be established.

TARIFF BRANCH
CONCURRENCE

1. Private Line Services

Leslie County Telephone Company, hereinafter called the concurring utility, except as specifically stated herein, assents to, adopts and concurs in the Private Line Service Tariff filed with the Kentucky Public Service Commission by South Central Bell Telephone Company, hereinafter called the issuing utility as such Tariff, now exists, or as it may be revised, added to or supplemented by superseding sheets or issues, for Private Line Service furnished by the issuing utility and concurring utility (including such service as is also participated in by one or more other utilities), and hereby makes itself a party thereto and obligates itself to observe each and every provision thereof.

2. Exceptions

a. Customer-provided terminal equipment on customer-provided communication systems attached or connected to the facilities of the concurring utility and permitted to be used under this Tariff, may not be used for local exchange service of this concurring utility, unless there is compliance with provisions of the Tariff of this concurring utility.

b. Leslie County Telephone Company concurrence with the issuing utility is limited to private-line circuits, that connect with the issuing utility or other connecting companies.

c. The minimum service period on private line service is six months. A termination agreement will be required concerning the cost of installation of the service. This termination agreement will apply to private line services served solely by Leslie County Telephone Company and those served jointly with connecting companies. Service will not be initiated until the termination agreement is in the possession of the company.
