RULES AND REGULATIONS

(1) Application For Service:

Each prospective member desiring electric service will be required to sign the Cooperative's form of application for membership before service is supplied by the Cooperative.

(2) Membership Fee:

Each prospective member shall pay the membership fee of five dollars (\$5.00) before or at the time service is supplied.

This membership fee, in no case, shall be refunded.

(3) Deposits:

(a) For A Period Of Less Than 30 Days: A deposit of seven dollars and fifty cents (\$7.50) is required of any member presently receiving electric power for temporary service at another location where service is already available. This deposit is refundable after the expiration of the temporary service, less the cost of power.

(b) For A Period Of Over 30 Days: In instances when a member is presently on service with the Cooperative and wishes to build a new house and use electricity, the member may make a deposit of \$15.00 in lieu of taking out an additional membership. This deposit entitles the member to electric service for power saws, etc. After the house is completed and the member occupies the new house, a refund is issued less the amount of power used.

(c) Commercial: If the owner of business property refuses to sign a membership assuming responsibility for his tenant, a two (2) months estimated bill must be deposited in advance by the tenant and is refundable at expiration of the service less the amount due for electric energy used.

(4) Point Of Delivery:

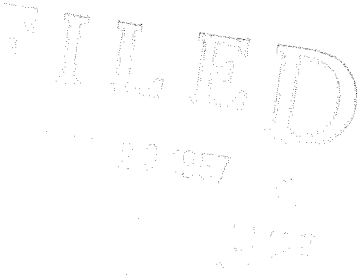

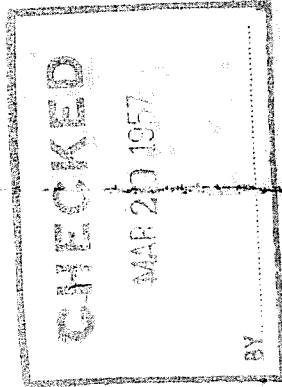

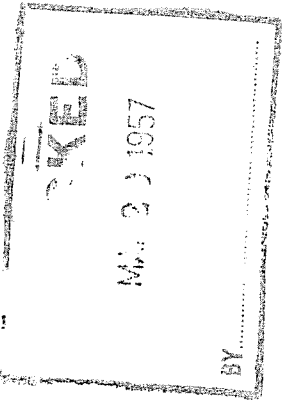

The point of delivery is the point, designated by the Cooperative, on member's premises where current is to be delivered to buildings or premises, namely the weather-head above the meter. All wiring and equipment beyond this point of delivery, except the meter, shall be maintained by the member.

(5) Consumer's Wiring:

Except in cases of temporary service, all wiring of the member's premises must be inspected and must conform to the Cooperative's requirements and accepted modern standards as set forth by the Kentucky State Electric Inspection Bureau.

(6) Inspection:

The Cooperative shall have the right, but shall not be obligated, to inspect any installation before electricity is introduced, or at any later time and reserve the right to reject any wiring or appliances not in accordance with the Cooperative's standards; but such inspection or failure to inspect or reject shall not render the Cooperative liable or responsible for any loss or damage resulting from defects in the installation, wiring, or

[Handwritten signature]

appliances, or from violation of the Cooperative's rules, or from accidents which may occur upon member's premises.

(7) Underground Service Lines:

All underground service lines shall be installed in accordance with the National Electric Wiring Code.

(8) Right Of Access:

The Cooperative's identified employees shall have access to member's premises at all reasonable times for the purpose of reading meters, testing, repairing, removing, or exchanging any or all equipment belonging to the Cooperative.

(9) Consumer Responsibility For Cooperative's Property:

All meters, service connections and other equipment furnished by the Cooperative shall be, and remain, the property of the Cooperative. The members shall exercise proper care to protect the property of the Cooperative on its premises; and in the event of loss and damage to the Cooperative's property arising from the neglect of the member, to care for same, the cost of the necessary repair or replacement shall be paid by the member.

(10) Billing:

The Cooperative operates under the self-billing procedure. The self-billing procedure requires that its member read their meters monthly and make payment for same within the calendar month. Meters currently are read on the 15th of

[Handwritten signature]

each month and payment must be made by the 1st day of the following month. In the event the member does not notify the Cooperative of their meter reading, the Cooperative will send an estimated bill to the consumer on the 1st of the following month. A final notice is sent on the 5th of each month. This bill must be paid by the 10th of said month. If the bill is not paid by the 10th, service is discontinued without further notice.

In the event that the member fails to read the meter as above outlined or fails to notify the Cooperative office for two successive months, the Cooperative will read same meter and bill the member for a service charge of two dollars (\$2.00) for this meter reading service. After the meter has been read, an adjustment of the account will be made.

(11) Reconnection Charges:

A service charge of two dollars (\$2.00) collection fee will be added to the amount of the bill if the bill is not paid by the 10th of the month. If the bill is not paid at the time of collection, the service will be discontinued without further notice. In the event the service will be discontinued, the amount in arrears, plus an additional two dollars (\$2.00) reconnect charge shall be paid to the Cooperative before service may be restored.

(12) Service Charges:

All service charges made by the Cooperative pertaining to the member's premises shall be charged at the rate of two dollars (\$2.00) provided the service is performed during the normal working hours. In the event that service charges are made after

working hours or on holidays, the charge will be five dollars (\$5.00).

(13) Temporary Service:

There is no service charge for temporary service; however, the member is required to execute a release of liability and further to have paid his deposit or membership fee and also will be required to pay for any and all electric energy used during this period of time.

(14) Meters:

The Cooperative will, at its own expense, make periodical tests and inspections of all its meters in order to maintain a high standard of accuracy and to conform with the regulations of the Public Service Commission. The Cooperative will make additional tests of the meter at the request of the member provided a fee of two dollars (\$2.00) is paid in advance. In case the test made at the member's request shows that the meter is accurate within two per cent (2%), fast or slow, no adjustment will be made in the member's bill and the fee paid will be forfeited to cover the cost of testing. In case the test shows the meter is in excess of two per cent (2%), fast or slow, an adjustment shall be made in the member's bill over a period of one year or to the last date the meter was tested if it occurred within the last 12 months, in accordance with the rules of the Public Service Commission. Further, the two dollars (\$2.00) paid by the member will be refunded to the member.

(15) Resale Service:

All purchased electric service used on the premises of the member shall be supplied exclusively by the Cooperative, and the member shall not directly or indirectly, sell, sublet, or otherwise dispose of the electric service or any part thereof.

(16) Billing Adjusted To Standard Periods:

In the case of the first billing of a new account and the final billing of an account where the period covered by the billing is a fraction of a month, the demand charge, and/or the energy used will be prorated for the proportional part of the billing.

(17) Discontinuance Of Service By The Cooperative:

The Cooperative may refuse to connect or disconnect any service to a member for the violation of any of its rules and regulations. The Cooperative may discontinue service to a member for the theft of current or the appearance of current theft devices on the premises of the member. The discontinuance of service by the Cooperative for any cause stated in this rule does not release the member of his obligation of all bills due.

(18) Termination Of Contract By Consumer:

The acceptance of an application for service by the Cooperative shall constitute an agreement between the applicant and the Cooperative, and the contract for electric service shall continue in force, according to the terms of said agreement, from the date service is made available by the Cooperative to the

applicant, and thereafter until cancelled by at least 30 days written notice given by either party to the other.

(19) Interruption Of Service:

The Cooperative will use reasonable diligence to provide a regular and uninterrupted supply of current, but in case the supply of current should be interrupted or disturbed for any cause, the Cooperative shall not be liable for damages resulting therefrom.

(20) Notice Of Trouble:

It is the responsibility of the member to notify the Cooperative of any power failure as soon as practical.

(21) Line Extension Plan:

On all service connections and line extensions the regular rate applicable to the class of consumer will apply. On line extensions exceeding 1000 feet an increased minimum monthly charge will apply at the rate of fifteen cents (\$.15) per 100 feet. Payment of this increased minimum charge entitles the consumer to the use of additional amounts of energy. The normal term of this agreement for charges will be five (5) years unless otherwise stated.

(22) Returned Checks:

All returned checks must be paid within five (5) days after written notice from the Cooperative or service will be discontinued without further notice.

(23) Service Performed On Consumers Premises:

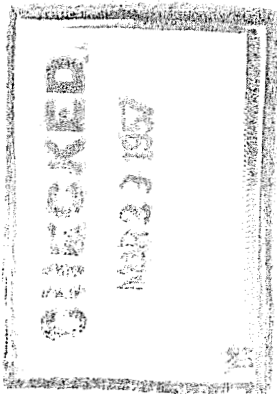

All work done at the request of the member, such as re-location of meter or service wires, etc. will be performed at the expense of the member. Charges will include labor, material and mileage.

(24) Scope:

This schedule of rules and regulations is a part of all contracts for receiving electric service from the Cooperative and applies to all service received from the Cooperative, whether the service is based upon a contract, agreement, signed application, or otherwise.

(25) Revisions:

These rules and regulations may be revised, amended, supplemented, or otherwise changed from time to time without notice. Such changes, when effective, shall have the same force as the present rules and regulations. The membership shall be informed of any changes made, as soon as possible, through our monthly newsletter.
