RULES AND REGULATIONS

I EXTENSION POLICY

A. SERVICE DEFINITIONS

For the purpose of extension of facilities, services shall be classified as permanent, indeterminate, or temporary.

1. "PERMANENT SERVICE" is construed to mean service to domestic, commercial, and farm residential consumers when the use of service, both as to amount and permanency, can be reasonably assured.
2. "INDETERMINATE SERVICE" includes service to mines, quarries, oil wells, industrial and commercial enterprises of speculative purposes, seasonal use of any type, real estate subdivisions, development of property for sale, enterprises where the applicant will not be the user of service, where there is little or no demand for service, tenant houses, house trailers, seasonal cabins, rental property and to barns, wells, and other service where the amount and permanency of service can not be reasonably assured.
3. "TEMPORARY SERVICE" includes service to circuses, bazaars, fairs, concessions, and similar enterprises, construction works, etc. of a temporary nature and to ventures of such uncertain speculative character that their permanency is questionable, such as coal and metal mining, or oil and gas production operations during the preliminary or development period, or any service required for less than eighteen (18) months except heavy construction projects such as dams or tunnels, etc. which may require service for a known period longer than eighteen (18) months.

B. EXTENSION TO PERMANENT SERVICE

Jackson Purchase R.E.C.C. will extend overhead service to any permanent service under the applicable rate schedule without any contribution in aid of construction provided that:

1. The applicant will enter into a standard contract with the Cooperative, agreeing to abide by the Bylaws and Rules and Regulations adopted by the Cooperative and pay to the Cooperative a membership fee of fifteen dollars (\$15.00) which is refundable to the applicant upon termination of service when all billings are

RULES AND REGULATIONS

1. paid in full. The Cooperative reserves the right to apply the membership fee on any unpaid bill for electric energy.
2. The applicant will guarantee the Cooperative a minimum bill of the higher of the following:
 - (a) Where five (5) KVA or less of transformer capacity is required under Rate Schedules "R", "C", and "D-1" a monthly minimum of \$2.40.
 - (b) Where over five (5) KVA of transformer capacity is required on Rate Schedules "R" and "C", the monthly minimum shall be \$2.40 plus 75 cents per month per KVA or fraction thereof of installed over five (5) KVA.
 - (c) Where over five (5) KVA of transformer capacity is required on Rate Schedule "D-1", the monthly minimum shall be 75 cents per month per KVA or fraction thereof of installed transformer capacity.
 - (d) The amount stated in the contract for service where it is necessary to extend or reinforce existing facilities beyond one thousand (1,000) feet for services other than permanent residential services. Such amount shall be based on one and one-half (1½) percent of the excess cost beyond one thousand (1,000) feet.

C. EXTENSION TO INDETERMINATE SERVICE

The Cooperative will extend service to this class of customer upon either of the following terms and conditions:

1. The applicant will enter into a contract with the Cooperative for electric service at the applicable rate schedule and minimum charge. The term of contract may be extended to five (5) years and the minimum monthly charge will either be based on transformer capacity or one and one-half (1½) percent of the total construction cost, whichever is greater.
2. The Cooperative may require an advance deposit as listed below to cover all or a portion of the total cost of facilities used or installed solely for the benefit of the applicant.

RULES AND REGULATIONS

- (a) The cost of construction made necessary by the applicant, which deposit shall be credited to the applicant's account monthly at an amount equal to the minimum monthly charge or fraction thereof according to terms of the contract. Any billing for use exceeding this amount shall be due and payable monthly.
- (b) Adjustments, taking into consideration the cost of removal and credit for salvage material recovered, may be made with the consumer, at the option of the Cooperative, after termination of service.
- (c) A contribution in aid of construction fee of ten dollars (\$10.00) will be charged for extending service to an individual trailer when Jackson Purchase R.E.C.C. provides the pole. Where more than one trailer per pole can be connected, this fee shall not apply. This assessment is in addition to the membership fee and shall be payable at the time of making application for service. The pole thus furnished shall remain the property of the Cooperative. In the event the member furnishes a pole which meets the specifications of the Cooperative, the above contribution will not be charged.

D. EXTENSION TO TEMPORARY SERVICE

The Cooperative shall extend service to this class of service upon the following terms and conditions.

- 1. The applicant will enter into a contract with the Cooperative for electric service at the applicable rate schedule, provided that if in the Cooperative's opinion the furnishing of such service will not work an undue hardship upon it or it's then existing consumers.
- 2. The applicant will guarantee to the Cooperative and at the option of the Cooperative the applicant may be required to make payment in advance to cover the following charges:
 - (a) Cost of facilities installed for the sole benefit of the applicant.
 - (b) Cost of removal of said facilities less the value of usable material returned.
 - (c) Estimated energy costs at the applicable rates.

RULES AND REGULATIONS

E. EXTENSION TO UNDERGROUND SERVICE

Jackson Purchase RECC will extend underground facilities to areas which physically and economically lend themselves to this type of service under the following terms and conditions which insure adequate service and safety to all persons engaged in the construction, maintenance, operations, or use of underground facilities and to the public in general. The terms and conditions also reflect and protect the rate payers who are served with overhead facilities from subsidizing those served with higher cost underground facilities and in general requires the reimbursement of the cost difference between overhead and underground facilities necessary to serve a given load requirement.

1. DEFINITIONS

The following words and terms when used in these rules and regulations shall have the meaning indicated:

a. Applicant

The developer, builder, or other person, partnership, association, corporation or governmental agency applying for the installation of an underground electric distribution system.

b. Building

A structure enclosed within exterior walls or fire walls, built, erected, and framed of component structural parts and designed for less than five (5) family occupancy.

c. Multiple-Occupancy Building

A structure enclosed within exterior walls or fire walls, built, erected, and framed of component structural parts and designed to contain five (5) or more individual dwelling units.

d. Plant, Store, Warehouse, Commercial, School, Church, Community Building, Industrial, Etc.

A structure (or structures) other than residential occupancy where power is used for any type of service classification other than residential.

e. Distribution System

Electric service facilities consisting of primary and secondary conductors, transformers, and necessary accessories and appurtenances

RULES AND REGULATIONS

1. DEFINITIONS (Cont.)

- e. Distribution System (Cont.)
for the furnishing of electric power at utilization voltage.
- f. Subdivisions
The tract of land which is divided into ten (10) or more lots for the construction of new residential buildings, or the land on which is constructed two (2) or more new multiple occupancy buildings.
- g. Individual Service
Any service resulting in only one metering point and regardless of use or classification of service.
- h. Trenching & Backfilling
Opening and preparing the ditch for the installation of conductors including placing of raceways under roadways, driveways, or paved areas; providing a sand bedding below and above conductors when required; and backfill of trench to ground level.

2. RIGHTS-OF-WAY & EASEMENTS

- a. The Cooperative shall construct, own, operate, and maintain distribution lines only along easements, public streets, roads, and highways which are by legal right accessible to the utility's equipment and which the utility has the legal right to occupy, and on the public lands and private property across which rights-of-way and easements satisfactory to the Cooperative are provided without cost or condemnation by the Cooperative.
- b. Rights-of-way and easements suitable to the Cooperative for the underground distribution facilities must be furnished by the Applicant in reasonable time to meet service requirements. The Applicant shall make the area in which the underground distribution facilities are to be located accessible to the Cooperative's equipment, remove all obstructions from such area, stake to show the property lines and final grade, perform rough grading to a reasonable approximation of final grade, perform rough grading to a reasonable approximation

RULES AND REGULATIONS

2. RIGHTS-OF-WAY & EASEMENTS (Cont.)

- b. of final grade, and maintain clearing and grading during construction by the Cooperative. Suitable land rights shall be granted to the Cooperative obligating the Applicant and subsequent property owners to provide continuing access to the utility for operation, maintenance, or replacement of its facilities, and to prevent any encroachment in the utility's easement or substantial changes in grade or elevation thereof.
- c. Where not feasible to trench under roads, highways, railroads, lakes, streams, etc, the Cooperative shall have the right to place this portion overhead with the granting of easements (at no cost to the Cooperative) for such overhead construction.

3. INSTALLATION OF UNDERGROUND DISTRIBUTION SYSTEM - SUBDIVISIONS

- a. Where appropriate contractual arrangements have been made, the Cooperative shall install within the subdivision an underground electric distribution system of sufficient capacity and suitable materials which, in its judgement, will assure that the property owner (s) will receive safe and adequate electric service for the foreseeable future.
- b. All single phase conductors installed by the utility shall be underground. Appurtenances such as transformers, pedestal-mounted terminals, switching equipment and meter cabinets may be placed above ground.
- c. Multi-phase primary mains or feeders required within a subdivision to supply local distribution or to serve individual multi-phase loads may be overhead unless underground is required by governmental authority or chosen by the Applicant, in either of which case the differential cost of underground shall be borne by the Applicant.
- d. If the applicant has complied with the requirements herein and has given the Cooperative not less than 120 days' written notice prior to the anticipated date of completion (i.e., ready for occupancy of the first building in the subdivision, the Cooperative shall complete the installation 30 days prior to the estimated completion date. (Subject to weather and ground conditions and availability of materials and barring extraordinary or emergency circumstances beyond the reasonable control of the Cooperative.)

RULES AND REGULATIONS

3. INSTALLATION OF UNDERGROUND DISTRIBUTION SYSTEM - SUBDIVISIONS (Cont.)

- d. (cont.) However, nothing in this policy shall be interpreted to require the Cooperative to extend service to portions of the subdivision not under active development.
- e. A non-refundable payment shall be made by the Applicant equal to the difference between the cost of providing underground facilities and that of providing overhead facilities. The payment to be made by Applicant shall be determined from the total footage of single-phase primary, secondary, and service conductor to be installed at an average per foot cost differential in accordance with the Average Cost Differential filed herewith as Exhibit "A", which Average Cost Differential shall be updated annually as required by order dated February 2, 1973 of the Public Service Commission of Kentucky in Administrative Case No. 146. (Three (3) wire secondary and service conductor runs shall be considered as one conductor, i.e. triplex.) The average cost differential per foot, as stated, is representative of construction in soil free of rock, shale, or other impairments which increase cost of construction. Where rock, shale, or other impairments are anticipated or encountered in construction, the actual increased cost of trenching and backfilling shall be borne by the Applicant.
- f. The Applicant may be required to deposit the entire estimated cost of the extension. If this is done, the amount deposited in excess of the normal charge for the underground extensions, as provided in paragraph "e" above, shall be refunded to the applicant over a ten (10) year period as provided in Public Service Commission Rule Elec-1-X-3.
- g. The Applicant may be required to perform all necessary trenching and backfilling in accordance with the Cooperative's specifications. The Cooperative shall then credit the applicant's cost in an amount equal to the Cooperative's normal cost for trenching and backfilling.
- h. The Cooperative shall furnish, install, and maintain the service lateral to the Applicant's meter base (which normally will be at the corner of the building nearest the point to be served) except that the Applicant shall furnish and install proper size conduit from the meter base to two feet below ground level.

RULES AND REGULATIONS

3. INSTALLATION OF UNDERGROUND DISTRIBUTION SYSTEM - SUBDIVISIONS (Cont.)

- i. Plans for the location of all facilities to be installed shall be approved by the Cooperative and the Applicant prior to construction. Alterations in plans by the Applicant which require additional cost of installation or construction shall be at the sole expense of the Applicant.
- j. The Cooperative shall not be obligated to install any facility within a subdivision until satisfactory arrangements for the payment of charges have been completed by the Applicant.
- k. The charges specified in these rules are based on the premise that each Applicant will cooperate with the utility in an effort to keep the cost of construction and installation of the underground electric distribution system as low as possible and make satisfactory arrangements for the payment of the above charges prior to the installation of the facilities.
- l. All electrical facilities shall be installed and constructed to comply with the rules and regulations of the Public Service Commission, National Electric Safety Code, Jackson Purchase RECC Specifications, or other rules and regulations which may be applicable.
- m. Service pedestals and method of installation shall be approved by Jackson Purchase RECC prior to installation.
- n. The Cooperative shall backfill only once and in the event of further settling or washing, the Applicant shall be responsible for all necessary additional backfilling.
- o. An additional \$10.00 per linear trench foot shall be charged where extremely rocky conditions are encountered, such conditions being defined as limestone or other hard stratified material in a continuous volume of at least one cubic yard or more which can not be removed using ordinary excavation equipment.
- p. In the event of a grade change which results in the Cooperative reburying or setting deeper any underground facility to maintain safety limits, the entire cost of such reburying or relocation shall be borne by the Applicant.

RULES AND REGULATIONS

3. INSTALLATION OF UNDERGROUND DISTRIBUTION SYSTEM - SUBDIVISIONS (Cont.)

q. In unusual circumstances, when the application of these rules appears impracticable or unjust to either party, or discriminatory to other customers, the Cooperative or Applicant shall refer the matter to the Commission for a special ruling or for the approval of special conditions which may be mutually agreed upon, prior to commencing construction.

4. INSTALLATION OF UNDERGROUND FACILITIES TO INDIVIDUAL SERVICE DELIVERY POINTS

a. Where primary and secondary conductors are involved, the Cooperative shall estimate the cost to provide adequate service both overhead and underground, and the Applicant shall pay such difference in cost as a non-refundable contribution prior to the commencement of such construction. Where an indeterminate consumer is the Applicant, the Cooperative may require an advance deposit in addition to the contribution and which deposit shall be returned the Applicant as provided in the Indeterminate Extension Policy and in accordance with Kentucky PSC Rules governing such construction deposits. All other terms and conditions set forth in Section "E", 1, 2, and 3 which are not in conflict with this Section "E", 4, shall also apply.

b. Where only secondary conductors are involved, the Cooperative shall install underground conductors as follows:

1. If the Cooperative trenches and backfills and installs the secondary conductor, the Applicant shall pay fifty five cents (55¢) per ground foot (pole to house) prior to the commencement of such construction.

2. Where the Applicant performs the trenching and backfilling with the Cooperative installing the secondary conductors, a twenty five cents (25¢) per foot credit shall be allowed under "b", 1 above. All other terms and conditions set forth in Sections "E", 1, 2, and 3 which are not in conflict with this Section "E", 4, shall also apply.
