CLASSIFICATION OF SERVICE

SCHEDULE R - Residential Service (Continued)

**RATE
 PER UNIT**

MINIMUM CHARGE:

The minimum monthly charge under the above rate shall be \$2.35 where 5 KVA or less of transformer capacity is required. For Consumers requiring more than 5 KVA of transformer capacity, the minimum monthly charge shall be increased at the rate of 75 cents for each additional KVA or fraction thereof required. Payment of the minimum charge shall entitle the Consumer in all cases to the use of the number of kilowatt-hours corresponding to the minimum charge in accordance with the foregoing rate.

(I)

TERMS OF PAYMENT:

The above rates are net, the gross rates being 5 percent higher. In the event the current monthly bill is not paid before or on the 18th day of the month in which the bill is submitted, the gross rates shall apply.

CONDITIONS OF SERVICE:

Compensating starting equipment may be required for all motors rated fifteen horsepower or over, and for smaller motors when specified by the Seller because of power line characteristics.

All wiring, pole lines and other electrical equipment (except metering equipment) starters, switches, and fuses beyond the delivery point will be considered the distribution system of the Consumer and shall be furnished and maintained by the Consumer.

DELIVERY POINT:

The point of delivery of electric energy shall be the connection between conductors furnished and installed by the Seller and the conductors furnished and/or installed by the Consumer. Normally, the Seller shall furnish a meter base to the Consumer which shall be installed by the Consumer in the Consumer's meter loop and/or service entrance facilities.

SCHEDULE D - Commercial & Industrial Service & Three Phase Service (Cont.)

**RATE
PER UNIT**

DEMAND CHARGE:

First 25 KW of billing demand per month, no charge. All over 25 KW of billing demand per month, per KW per month.

\$1.63 (I)

DETERMINATION OF BILLING DEMAND:

The billing demand shall be the maximum kilowatt demand established by the Consumer for any period of fifteen minutes during the month for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor. Demand charges will be adjusted for Consumers with 50 KW or more of measured demand to correct for average power factors lower than 80 percent and may be so adjusted for other Consumers if and when the Seller deems necessary. Such adjustments will be made by increasing the measured demand 1 percent for each 1 percent by which the average power factor is less than 80 percent lagging.

MINIMUM MONTHLY CHARGE:

The minimum monthly charge under the above rate shall be \$2.80 where 5 KVA or less of transformer capacity is required. For Consumers requiring more than 5 KVA of transformer capacity, the minimum monthly charge shall be 75 cents for each KVA or fraction thereof required. Where it is necessary to extend or reinforce existing distribution facilities, the minimum monthly charge may be increased to assure adequate compensation for the added facilities.

(I)

CONDITIONS OF SERVICE :

Compensating starting equipment may be required for all motors rated fifteen horse-power or over, and for smaller motors when specified by the Seller because of power line characteristics.

All wiring, pole lines, and other electrical equipment (except metering equipment) starters, switches and fuses beyond the delivery point shall be considered the distribution system of the Consumer and shall be furnished and maintained by the Consumer.

CLASSIFICATION OF SERVICE

SCHEDULE SP - Seasonal Power Service

**RATE
PER UNIT**

APPLICABILITY:

Applicable to Consumers requiring seasonal use for irrigation power, grain drying power, and similar uses, subject to the established rules of the Seller.

AVAILABILITY:

Available to Consumers located adjacent to the Seller's facilities.

TYPE OF SERVICE:

Single phase and three phase (where available), 60 cycles at standard secondary voltages.

RATE PER YEAR:

First	1,500 KWH	per KWH per year	\$.044	(I)
Next	500 KWH	per KWH per year	.028	
All Additional	KWH	per KWH per year	.014	(I)

FUEL ADJUSTMENT:

See Sheet No. 6.0 for applicable fuel adjustment.

MINIMUM ANNUAL CHARGE:

The minimum annual charge under the above rate shall be:

- A. First 25 connected horsepower or less (minimum) \$280.00 (I)
- Balance of connected horsepower per H.P. per year \$ 9.00 (I)
- B. Plus the amount specified under the line extension and rephasing policy contained in the rules and regulations.

CLASSIFICATION OF SERVICE

SCHEDULE I - Industrial Service (Continued)	RATE PER UNIT
<p><u>DETERMINATION OF BILLING DEMAND (Cont.):</u> rendered, as indicated or recorded by a demand meter and adjusted for power factor. Demand charges will be adjusted to correct for average power factors lower than 85 percent when the Seller deems necessary. Such adjustments will be made by increasing the measured demand 1 percent for each 1 percent by which the average power factor is less than 85 percent lagging.</p> <p><u>MINIMUM MONTHLY CHARGE:</u> The minimum monthly charge under the above rate shall be \$7,000 where 5,000 KVA or less of transformer capacity is required. For consumers requiring more than 5,000 KVA of transformer capacity, the minimum monthly charge shall be increased by 75 cents for each KVA or fraction thereof required above 5,000 KVA. Where it is necessary to extend or reinforce facilities in excess of standard service facilities, the minimum monthly charge may be increased to assure adequate compensation for the added facilities at 1½ percent per month of the total cost of the excess facilities as a facilities charge for which no power and energy would be delivered.</p> <p><u>CONDITIONS OF SERVICE:</u> Compensating starting equipment may be required for all motors when specified by the Seller because of power line characteristics.</p> <p><u>DELIVERY POINT:</u> Unless other wise specified in the service contract, the delivery point shall be the connection between conductors furnished and installed by the Seller and the conductors furnished and installed by the Consumer. All wiring, pole lines, and other equipment (except metering equipment) on the load side of the delivery point shall be owned and maintained by the Consumer.</p>
