**PUBLIC SERVICE  
COMMISSION  
TERMS AND CONDITIONS OF SERVICE****APPLICATION.**

A copy of the tariffs and standard terms and conditions under which service is to be rendered to the customer will be furnished upon application at the company's office and the customer may elect upon which tariff applicable to his service his application shall be based.

A written application may be required from each customer, which application, when duly accepted by the company, shall constitute the agreement between the company and the customer. A copy of the application will be furnished the customer upon request.

**DEPOSITS.**

A deposit or a suitable guarantee may be required of the customer at any time before or after service is begun. The company will pay interest on deposits so made in accordance with statutory requirements. Retention by the company, prior to final settlement, of said deposit or guarantee is not a payment or part payment of any bill for service. The company shall have a reasonable time in which to read and remove the meters and to ascertain that the obligations of the customer have been fully performed before being required to return any deposit.

**PAYMENTS.**

Bills will be rendered by the company to the customer monthly or bimonthly in accordance with the tariff selected, applicable to the customer's service. Said bills are payable at the offices of the company within the time limits specified in the tariff. Failure to receive bill will not entitle customer to the remission of any charge for non-payment within the time specified. The word "month" or the word "bi-month" as used herein and in the tariffs is hereby defined to be the elapsed time between 2 successive meter readings approximately 30 days or 60 days apart, respectively. In the event of the stoppage of or the failure of any meter to register the full amount of energy consumed, the customer will be billed for such period on an estimated consumption based upon his use of energy in a similar period of like use.

Any one delayed payment charge billed against the customer for non-payment of bill may be remitted, provided the customer's previous accounts are paid in full and provided no delayed payment charge has been remitted under this clause during the preceding 6 months.

**INSPECTION.**

It is to the interest of the customer to properly install and maintain his wiring and electrical equipment and he shall at all times be responsible for the character and condition thereof. The company makes no inspection thereof and in no event shall be responsible therefor.

Where a customer's premises are located in a municipality or other governmental subdivision where inspection laws or ordinances are in effect, the company may withhold furnishing service to new installations until it has received evidence that the inspection laws or ordinances have been complied with.

Where a customer's premises are located outside of an area where inspection service is in effect, the company may require the delivery by the customer to the company of an agreement duly signed by the owner and tenant of the premises authorizing the connection to the wiring system of the customer and assuming responsibility therefor. No responsibility shall attach to the company because of any waiver of this requirement.

**SERVICE CONNECTIONS.**

Customer should in all cases consult the company before his premises are wired in order that the location of the company's service connection may be determined.

The company will, when notified, designate the location of its service connection and the customer's wiring must be brought outside the building wall nearest the company's service wires so as to be readily accessible thereto and in such manner that all wiring furnished by the company will be in plain view from the street or alley. The inside wiring must extend at least 24 inches beyond the building for the company to attach its wires thereto, and same must be thoroughly and permanently grounded (to the water supply system if possible), provided the maximum difference of potential between the grounded point and any other point in the circuit does not exceed 150 volts, and may be grounded when the maximum difference of potential between the grounded point and any other point in the circuit exceeds 150 volts.

When a customer desires that energy should be delivered at a point or in a manner other than that specified by the company, a charge will be made equal to the additional cost of same.

KENTUCKY POWER COMPANY

OCT 5 1959

Original Sheet No. 3  
P. S. C. Ky. No. 2

## PUBLIC SERVICE COMMISSION

### TERMS AND CONDITIONS OF SERVICE

#### SERVICE CONNECTIONS. (Continued)

Customers desiring an underground service from overhead wires may, at their expense, run service wires from service equipment in buildings to the pole from which connection is to be made, including the necessary run up the side of the pole.

All connections between the customer's service equipment and the company's service wires must be installed as recommended or required by the National Electric Code.

#### COMPANY'S LIABILITY.

The company will use reasonable diligence in furnishing a regular and uninterrupted supply of energy, but does not guarantee uninterrupted service. The company shall not be liable for damages in case such supply should be interrupted or fail by reason of an act of God, the public enemy, accidents, labor disputes, orders or acts of civil or military authority, breakdowns or injury to the machinery, transmission lines, distribution lines or other facilities of the company, or extraordinary repairs.

Unless otherwise provided in a contract between company and customer, the point at which service is delivered by company to customer, to be known as "delivery point," shall be the point at which the customer's facilities are connected to the company's facilities. The company shall not be liable for any loss, injury, or damage resulting from the customer's use of his equipment or occasioned by the energy furnished by the company beyond the delivery point.

The customer shall provide and maintain suitable protective devices on his equipment to prevent any loss, injury or damage that might result from single phasing conditions or any other fluctuation or irregularity in the supply of energy. The company shall not be liable for any loss, injury or damage resulting from a single phasing condition or any other fluctuation or irregularity in the supply of energy which could have been prevented by the use of such protective devices.

The company will provide and maintain in proper operating condition the necessary line or service connections, transformers (when same are required by conditions of contract between the parties thereto), meters and other apparatus which may be required for the proper measurement of and protection to its service. All such apparatus shall be and remain the property of the company.

#### CUSTOMER'S LIABILITY.

In the event of loss or injury of the property of the company through misuse by, or the negligence of, the customer or the employees of the same or of persons on the customer's premises, the cost of the necessary repairs or replacement thereof shall be paid to the company by the customer.

Customers shall be liable for tampering with, interfering with, or breaking of seals of meters or other equipment of the company installed on the customer's premises. The customer hereby agrees that no one except the employees of the company shall be allowed to make any internal or external adjustments of any meter or any other piece of apparatus which shall be the property of the company.

The company shall have the right at all reasonable hours to enter the premises of the customer for the purpose of installing, reading, removing, testing, replacing or otherwise disposing of its apparatus and property, and the right of entire removal of the company's property in the event of the termination of the contract for any cause.

#### EXTENSION OF SERVICE.

The transmission or distribution lines of the company will be tapped or extended to such points as provide sufficient revenue to justify the cost of such taps or extensions. Where the revenue is insufficient to justify the cost of such taps or extensions, the company reserves the right to require a long-term contract or a definite and written guarantee from a customer or group of customers in addition to any payment required by the tariff applied to the service or services, or the payment by the customer in whole or in part of the cost of tapping or extending the transmission or distribution lines, or a combination of these provisions.

Issued by

F. M. BAKER, Vice President and General Manager  
Ashland, Kentucky

Issued August 15, 1959

Effective for service rendered  
on and after October 1, 1959

"Issued by authority of an Order of the Public Service  
Commission of Kentucky in Case No. 3711 dated Sept. 29, 1959."

PUBLIC SERVICE  
COMMISSION  
TERMS AND CONDITIONS OF SERVICE

LOCATION AND MAINTENANCE OF COMPANY'S EQUIPMENT.

The company shall have the right, if necessary, to construct its poles, lines and circuits on the property, and to place its transformers and other apparatus on the property or within the buildings of the customer, at a point or points convenient for such purpose, and the customer shall further guarantee the right to use suitable space for the installation of necessary measuring instruments so that the latter may be protected from injury by the elements or through the negligence or deliberate acts of the customer or of any employee of the same, or of persons on the customer's premises.

USE OF ENERGY BY CUSTOMER.

The tariffs for electric energy given herein are classified by the character of use of such energy and are not available for service except as provided therein.

When the customer desires delivery of energy at more than one point, a separate contract will be required for each separate delivery point. Service delivered at each delivery point will be billed separately under the applicable tariff.

With particular reference to power customers it shall be understood that upon the expiration of a contract the customer may elect to renew contract upon the same or another tariff published by the company available in the district in which the customer may operate, and applicable to the customer's requirements, except that in no case shall the company be required to maintain transmission, switching or transformation equipment (either for voltage or form of current change) different from or in addition to that generally furnished to other customers receiving electric service under the terms of the tariff elected by the customer.

A customer may not change from one tariff to another during the term of contract except by mutual agreement.

The service connections, transformers, meters and appliances supplied by the company for each customer have a definite capacity. The customer agrees to notify the company of any increase or decrease in his connected load so that the company may make suitable arrangements for the supply of the customer's load.

The customer shall install only motors, apparatus or appurtenances which are suitable for operation with the character of the service supplied by the company, and which shall not be detrimental to same, and the electric capacity and energy must not be used in such a manner as to cause unprovided for voltage fluctuations or disturbances in the company's transmission or distribution system. The company shall be the judge as to the suitability of apparatus or appurtenances to be connected to its lines, and also as to whether the operation of such apparatus or appurtenances will be detrimental to its general service. In case the customer continues to use equipment unsuitable for operation, service may be discontinued by the company until such time as the customer's use of the electric energy shall conform to these regulations. Such suspension of service by the company shall not operate as a cancellation of the contract.

No customer's radio, wireless telegraph, wireless telephone or television antennae may be connected to the company's lines, poles, cross arms, structures, or other facilities.

The company will not supply service to new customers who have other sources of energy supply except under tariffs which specifically provide for same.

The customer will not be permitted to operate his own generating equipment in parallel with the company's service except on written permission of the company.

Resale of energy will be permitted only by written consent of the company.

Issued by  
F. M. BAKER, Vice President and General Manager  
Ashland, Kentucky

Issued August 15, 1959

Effective for service rendered  
on and after October 1, 1959

"Issued by authority of an Order of the Public Service  
Commission of Kentucky in Case No. 3711 dated Sept. 29, 1959."

### TERMS AND CONDITIONS OF SERVICE

#### DOMESTIC SERVICE.

Individual residences, whether separate houses or separate apartments in an apartment or multiple family building, shall be served individually under the domestic service tariff unless customer requires 3-phase service or requires service for motors in excess of 10 horsepower capacity each, in which event the general service tariff shall apply to that portion of the service, or to the entire service, as the customer may elect. Customer shall not have the privilege of taking service for 2 or more separate residences through a single delivery point under any tariff, irrespective of common ownership of the several residences, except that in the case of an apartment house with a number of individual apartments the landlord shall have the choice of providing separate wiring for each apartment so that the company may supply each apartment separately under the domestic tariff, or of purchasing the entire service under the general service tariff without submetering the service to the apartments.

The domestic service tariff shall cease to apply to that portion of a residence which becomes regularly used for commercial or industrial purposes. When a portion of a customer's premises becomes regularly used for commercial or industrial purposes, customer shall have the privilege of separating the wiring so that the residential portion of the premises is served through a separate meter under the domestic service tariff and the commercial or industrial portion of the premises is served through a separate meter or meters under the general service tariff. In the event that the customer does not exercise the privilege of separating the wiring, the general service tariff shall apply to all service supplied.

Detached building, or buildings, actually appurtenant to the residence, such as a garage or barn, may be served by an extension of the customer's residence wiring through the residence meter.

#### DISCONTINUANCE OF SERVICE.

The company reserves the right to discontinue its service after 48 hours' notice in writing, in case the customer is in arrears in the payment of bills, or for failure to comply with these terms and conditions, and the company reserves the right to discontinue its service without notice where an emergency exists or where fraudulent use of electricity is detected.

Any such suspension of service other than to a residential customer shall not terminate the contract between company and customer nor shall it abrogate any minimum charge which may be effective.

#### RECONNECTION CHARGE.

In cases where the company has discontinued service for nonpayment of bills and/or for other causes stipulated herein, the right is reserved to charge the customer an amount for reconnection commensurate with the cost of same.

COMMISSION

*F. M. Baker*

Issued by  
F. M. BAKER, Vice President and General Manager  
Ashland, Kentucky

Issued August 15, 1959

Effective for service rendered  
on and after October 1, 1959

"Issued by authority of an Order of the Public Service  
Commission of Kentucky in Case No. 3711 dated Sept. 29, 1959."

# TARIFF G. S. (General Service)

### AVAILABILITY OF SERVICE.

Available for general service to customers purchasing their entire electrical requirements under this tariff. This tariff is available for alternating current service only.

### RATE.

Kwhrs equal to first 50 times kw of monthly billing demand:

First 30 kwhrs.....	5.0 cents per kwhr
Over 30 ".....	4.0 " " "

Kwhrs equal to next 150 times kw of monthly billing demand:

First 3,000 kwhrs.....	2.4 cents per kwhr
Over 3,000 ".....	1.5 " " "

Kwhrs in excess of 200 times kw of monthly billing demand.....1.0 " " "

### MINIMUM CHARGE.

This tariff is subject to a minimum monthly charge of \$2.00. The minimum monthly charge shall be subject to adjustments as determined under the "Fuel Clause".

### DELAYED PAYMENT CHARGE.

This tariff is net if account is paid in full within 15 days of date of bill. On all accounts not so paid an additional charge of 5% of the total amount billed (but not less than \$.10) will be made.

### (C) FUEL CLAUSE.

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above a base price (Base Price A) of 18.5 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above Base Price A.

If during any monthly period such average cost is less than a base price (Base Price B) of 17.5 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below Base Price B.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

### CREDITS MODIFYING RATE.

Bills computed under the rate set forth herein will be modified by credits as follows:

#### (A) Delivery Voltage.

The rate set forth in this tariff is based upon the delivery and measurement of transformed energy. When the measurement of energy is made at the primary voltage of the transmission or distribution line serving the customer, the kwhrs as metered will be multiplied by .95.

#### (B) Equipment Supplied by Customer.

When the customer furnishes and maintains the complete substation equipment including any and all transformers and/or switches and/or other apparatus necessary for the customer to take his entire service at the primary voltage of the transmission or distribution line from which service is to be received, a credit of \$.15 per kw of monthly billing demand will be applied to each monthly net bill.

(C) Denotes change.

## TARIFF L. P. (Continued) (Large Power)

### POWER FACTOR.

The rate set forth in this tariff is based upon the maintenance by the customer of an average monthly power factor of 85% as shown by integrating instruments. When the average monthly power factor is above or below 85%, the kWhrs as metered will be, for billing purposes, multiplied by the following constants:

Average Monthly Power Factor	Constant
1.00	.951
.95	.965
.90	.981
.85	1.000
.80	1.023
.75	1.050
.70	1.0835
.65	1.1255
.60	1.1785
.55	1.2455
.50	1.3335

Constants for power factors other than given above will be determined from the same formula used to determine those given.

### (C) FUEL CLAUSE.

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kWhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kWhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

### TERM.

Contracts under this tariff will be made for not less than 1 year.

### SPECIAL TERMS AND CONDITIONS.

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is also available to customers having other sources of energy supply but who desire to purchase service from the company. Where such conditions exist the monthly billing demand shall not be less than the customer's contract capacity.

This tariff is available for resale service to legitimate electric public utilities and to mining and industrial customers who furnish service to customer-owned camps or villages where living quarters are rented to employees and where the customer purchases power at a single point for both his power and camp requirements.

(C) Denotes change.

### TARIFF C. P. O. (Continued) (Capacity Power—Optional)

#### CREDITS AND CHARGES MODIFYING RATE. (Continued)

Constants for other than the effective power factors given in the foregoing table will be determined from the same formula used to determine the given constants.

#### B. Delivery Voltage.

The rate set forth in this tariff is based upon the delivery and measurement of transformed energy. When the measurement of energy is made at the primary voltage of the transmission or distribution line used to supply the customer, the energy as billed after power factor correction (see Paragraph A) will be multiplied by .95.

#### C. Equipment Supplied by Customer.

When the customer furnishes and maintains the complete substation equipment including any and all transformers, switches and other apparatus necessary for the customer to take service at the voltage of the primary transmission or distribution line from which said customer is to receive service, the following credits in addition to that set forth in the next preceding paragraph will be applied to each monthly net bill.

Delivery Voltage	Credit per Kva of Monthly Billing Demand
2,400—12,470	\$.15
34,500—46,000—69,000	.25 for first 4,000 kva .15 for all over 4,000 kva

#### (C) FUEL CLAUSE.

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kWhrs used during said second month at the rate of .00525 cent per kWhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kWhrs used during said second month multiplied by .00525 cent per kWhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

#### TERM.

Contracts under this tariff will be made for not less than 1 year.

#### SPECIAL TERMS AND CONDITIONS.

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service

This tariff is available to customers having other sources of energy supply, but who desire to purchase service from the company. Where such conditions exist, the monthly billing demand shall not be less than the customer's contract capacity.

This tariff is not available to customers who resell in whole or in part energy supplied by the company.

**TARIFF L. C. P. (Continued)**  
**(Large Capacity Power)**

**(C) FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**DEMAND MEASUREMENT.**

The billing demand in kw shall be taken each month as the highest single 30-minute integrated peak in kw as registered during the month by a demand meter or indicator, or, at the company's option, as the highest registration of a thermal type demand meter or indicator, but the monthly billing demand so established shall in no event be less than 60% of the contract capacity of the customer, nor less than 1,000 kw.

The reactive demand in kvars shall be taken each month as the highest single 30-minute integrated peak in kvars as registered during the month by a demand meter or indicator, or, at the company's option, as the highest registration of a thermal type demand meter or indicator.

**TERM OF CONTRACT.**

Contracts under this tariff will be made for not less than 1 year with self-renewal provisions for successive periods of 1 year each, until either party shall give at least 60 days' written notice to the other of the intention to discontinue at the end of any yearly period. The company will have the right to make contracts for periods of longer than 1 year.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4, and 5 for Terms and Conditions of Service.

This tariff is available to customers having other sources of energy supply.

This tariff is available for resale service to legitimate electric public utilities and to mining and industrial customers who furnish service to customer-owned camps or villages where living quarters are rented to employees and where the customer purchases power at a single point for his power and camp requirements

# TARIFF M. W. (Municipal Waterworks)

### AVAILABILITY OF SERVICE.

Available to incorporated cities and towns and authorized water districts and to utility companies operating under the jurisdiction of the Public Service Commission of Kentucky for the supply of electric energy to waterworks systems and sewage disposal systems. Customer shall contract with the company for a reservation of capacity in kilovolt-amperes sufficient to meet the maximum load which the company may be required to furnish.

### RATE.

For the first 10,000 kwhrs used per month .....	1.5 cents per kwhr
“ “ next 90,000 “ “ “ “ .....	1.0 “ “ “
“ all over 100,000 “ “ “ “ .....	0.9 “ “ “

### PAYMENT.

Bills will be rendered monthly and will be due and payable on or before the 15th day from the date bills are mailed.

### (C) FUEL CLAUSE.

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above a base price (Base Price A) of 18.5 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above Base Price A.

If during any monthly period such average cost is less than a base price (Base Price B) of 17.5 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below Base Price B.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

### MINIMUM CHARGE.

The above rate is subject to a minimum monthly charge of \$1.20 per kva of installed transformer capacity or its equivalent as determined from customers total connected load. The minimum monthly charge shall be subject to adjustments as determined under the "Fuel Clause."

### TERM OF CONTRACT.

Contracts under this tariff will be made for not less than 1 year with self-renewal provisions for successive periods of 1 year each until either party shall give at least 60 days notice to the other of the intention to discontinue at the end of any yearly period. The company will have the right to require contracts for periods of longer than 1 year.

### SPECIAL TERMS AND CONDITIONS.

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is not available to customers having other sources of energy supply.

Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

### TERM.

Annual contract.

### SPECIAL TERMS AND CONDITIONS.

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

In industrial power installations where the consumption of energy for lighting is incidental to the energy used for manufacturing purposes and does not exceed 25% of the energy used for power, the total energy consumption may be billed under this tariff, the minimum charge set forth above for single-phase customers to be increased at the rate of \$1.50 per month for each kw or fraction thereof of such lighting load as may be connected.

The company shall have the option of reading meters monthly or bimonthly and rendering bills accordingly. When bills are rendered bimonthly the minimum charge and the quantity of kWhrs in each block of the rate shall be multiplied by 2.

**TARIFF C. P. (Continued)**  
**(Capacity Power)**

**B. Delivery Voltage.**

The rate set forth in this tariff is based upon the delivery and measurement of transformed energy. When the measurement of energy is made at the primary voltage of the transmission or distribution line serving the customer, the kwhrs as metered after power factor correction (see Paragraph A) will be multiplied by .95.

**C. Equipment Supplied by Customer.**

When the customer furnishes and maintains the complete substation equipment including any and all transformers and/or switches and/or other apparatus necessary for the customer to take service at the primary voltage of the transmission or distribution line from which service is to be received, a credit of \$.15 per kva of contract capacity in addition to that set forth in the next preceding Paragraph B will be applied to each monthly net bill.

**(C) FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**TERM.**

Contracts under this tariff will be made for not less than 1 year.

**DETERMINATION OF CAPACITY.**

Capacity contracted for by customer must in all cases be sufficient to cover normal maximum demand requirements as measured by a 15-minute interval integrating demand meter or indicator, and corrected to the nearest 25 kva step by formula

$$Kva = \frac{Kw}{\text{Average Monthly Power Factor}}$$

and will be increased from time to time during the contract period, if customer's normal maximum demand requirements so indicate, but in no case shall the contract capacity be less than the highest previous kva capacity established during any contract period.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is not available to customers having other sources of energy supply.

This tariff is not available to customers who resell in whole or in part energy supplied by the company.

**TARIFF G. S. O.**  
**(General Service—Optional)**

**AVAILABILITY OF SERVICE.**

Available only to power users contracting for a definite amount of electrical capacity but not less than 50 kilowatts who were served under this tariff on May 10, 1950, and only at the premises occupied by the customer on that date. If service hereunder is discontinued at the customer's option, it shall not again be available.

**RATE.**

**Primary Portion.**

For each kw of integrated monthly 15-minute maximum demand, \$1.25 per kw, to which will be added:

**Secondary Portion.**

For the first	10,000	kwhrs used in any month	.....	2.14	cents per kwhr
" " next	30,000	" " " same "	.....	1.74	" " "
" " "	60,000	" " " " "	.....	1.34	" " "
" " "	400,000	" " " " "	.....	1.14	" " "
" " "	500,000	" " " " "	.....	1.09	" " "
" " "	500,000	" " " " "	.....	.99	" " "
All over	1,500,000	" " " " "	.....	.94	" " "

**DELIVERY AND VOLTAGE.**

This tariff is based on the delivery and measurement of energy at the transmission or distribution voltage established by the company, but not less than 2,400 volts. For the delivery and measurement at any voltage lower than that so established, the primary portion charge shall be increased \$.15 per month per kw of demand.

**BILLING DEMAND.**

Billing demand shall be based each month upon the highest registration of a 15-minute integrating demand meter or indicator. Monthly billing demand so established shall not be less than the customer's contract capacity except that where the customer purchases his entire requirements for electric light, heat and power under this tariff the monthly billing demand shall not be less than 60% of the contract capacity.

**DELAYED PAYMENT CHARGE.**

This tariff is net if account is paid in full within 20 days of date of bill. On all accounts not so paid an additional charge of 2% of the total amount billed will be made.

**(C) FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**TERM OF CONTRACT.**

Annual.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is available to legitimate electric public utilities for resale.

This tariff is also available to customers having other sources of energy supply but who desire to purchase service from the company. Where such conditions exist the monthly billing demand shall not be less than the customer's contract capacity. The preceding sentence does not apply where customers served under this tariff had other sources of energy supply on August 1, 1940, and where the service is covered by a contract made prior to that date.

**TARIFF H. T. P. (Cont'd)**  
**(High Tension Power)**

**FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above the base price (the Base Price) of 18.0 cents per 1,000,000 Btu, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kWhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above the Base Price.

If during any monthly period such average cost is less than the Base Price by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kWhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below the Base Price.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter this rate shall be billed based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. The Base Price shall be revised at such time to a new amount to equal 18.0 cents, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**DELIVERY VOLTAGE.**

The rates set forth in this tariff are based upon the delivery and measurement of energy at transmission line voltage. Company shall determine and advise customer which of its transmission lines will be utilized to deliver service hereunder and shall specify the voltage thereof.

Customer shall own, operate, and maintain all necessary substation equipment, including transformers and appurtenances thereto, for receiving and purchasing all electric energy. Company shall own, operate, and maintain necessary metering equipment.

**POWER FACTOR.**

The customer shall utilize and operate such equipment as will produce a power factor, both at the time of peak and throughout each month, of not less than 85% leading or lagging.

**TERMS OF CONTRACT.**

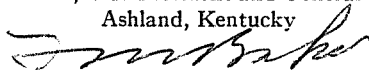

Contracts under this tariff will be made for a term of years taking into consideration the size of the load, the location of the load, and the amount of facilities to be furnished by the company in serving the load, but contracts will not be made for initial periods of less than 3 years with self-renewal provisions for successive periods of at least 2 years each. Contracts may be cancelled or reduced in capacity by either party at the end of initial or renewal periods on a minimum of 12 months' prior written notice to the other party.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

**TARIFF P. S. O.**  
**(Public School Optional)**

**(T) AVAILABILITY OF SERVICE.**

Available to public schools, which are entirely supported by public tax levies and which purchase their entire electrical requirements from company, and such electrical requirements include electric heating for all of (or an addition to) the school.

**RATE.**

First 500 kwhrs per month multiplied by the  
number of classrooms in entire school..... 2.5¢ per kwhr  
Balance of kwhrs ..... 1.5¢ per kwhr

**MINIMUM CHARGE.**

\$12.50 per month.

**FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above a base price (Base Price A) of 18.5 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above Base Price A.

If during any monthly period such average cost is less than a base price (Base Price B) of 17.5 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below Base Price B.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**DEFINITION OF CLASSROOM.**

The term "classroom", for the purpose of determining billing under this tariff, shall be defined as any room used regularly for the instruction of pupils, including but not limited to general classrooms, industrial shops, domestic science rooms, music rooms, kindergartens and laboratories. The term "classroom" shall not include such rooms as multi-purpose rooms, gymnasiums, cafeterias, libraries, administrative rooms, halls, rest-rooms, etc.

**SPECIAL TERMS AND CONDITIONS.**

Customer shall furnish company upon request information necessary to establish the number of classrooms to be used for billing purposes hereunder.  
See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

**(C) TARIFF E. H. G.**  
**(Electric Heating General)**

**AVAILABILITY OF SERVICE.**

Available for the entire requirements of general service customers who have installed and in regular active use electric heating equipment which supplies the entire heating of the customer's premises.

**(R) RATE.**

For the first 200 kwhrs or any part thereof used in any month.....	\$6.00
“ “ next 6800 “ used in the same month.....	1.5¢ per kwhr
“ all over 7000 “ “ “ “ “ .....	1.2¢ “ “

There shall be added to the above kwhr charges \$1.25 for each kw of monthly demand in excess of 30 kw.

**FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above a base price (Base Price A) of 18.5 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above Base Price A.

If during any monthly period such average cost is less than a base price (Base Price B) of 17.5 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below Base Price B.

Upon its completion, the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**(R) MINIMUM CHARGE.**

This tariff is subject to a minimum monthly charge of \$6.00 plus \$1.25 for each kw of monthly billing demand in excess of 30 kw, and adjustments as determined under the Fuel Clause.

**DELAYED PAYMENT CHARGE.**

This tariff is net if account is paid in full within 15 days of date of bill. On all accounts not so paid an additional charge of 5% of the total amount billed will be made.

**MEASUREMENT OF ENERGY AND DETERMINATION OF DEMAND.**

Energy supplied hereunder will be delivered through not more than one single phase and/or one poly-phase meter. Customer's demand will be taken monthly to be the highest registration of a thermal type demand meter. Where energy is delivered through two meters, monthly demand will be taken as the sum of the two demands separately determined.

**TERM OF CONTRACT.**

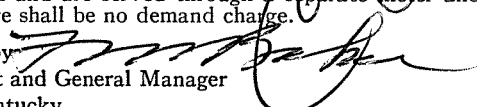

Annual.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

**(N)** This tariff is available only to customers where at least 50% of the electrical load is located inside of buildings which are electrically heated.

**(N)** When church buildings are electrically heated and are served through a separate meter and billed separately, the above energy rate applies, but there shall be no demand charge.

(All-Electric Homes)

**AVAILABILITY OF SERVICE.**

Available on an optional basis for domestic service through one meter to individual residential customers whose principal energy requirements, including heating of all dwelling space in the home, and water heating are furnished by electric service.

**RATE.**

For the first 200 kwhrs or any part thereof used in any month.....	\$6.00
“ “ next 600 “ used in the same month .....	1.5¢ per kwhr
“ all over 800 “ “ “ “ “ “ .....	1.2¢ “ “

**WATER HEATER SERVICE.**

Inasmuch as the customer has installed and in regular use an electric water heater or heaters meeting the specifications set forth below, the last 400 kilowatthours used in any month shall be billed at the rate of 1¢ per kilowatthour provided that the customer first uses at least 200 kilowatthours billed in accordance with the rate set forth above. The specifications for water heaters are as follows: Each heater shall consist of a permanently installed tank of not less than 30 gallons capacity built to conform with NEMA (National Electrical Manufacturers Association) Standards for construction, insulation, controls, etc. The tank shall be equipped with two thermostatically controlled elements, one located near the bottom of the tank and the other located approximately one-fourth of the way down from the top of the tank, neither element exceeding 4500 watts of connected capacity with the control equipment arranged so that not more than 4500 watts shall be operated at the same time.

**FUEL CLAUSE.**

This rate is based initially upon the weighted average cost of fuel of Kentucky Power Company's present power supplier.

If during any monthly period such average cost is above a base price (Base Price A) of 18.5 cents per 1,000,000 BTU, by at least .5 cent, an additional charge during the second month thereafter will be made on the actual kwhrs used during said second month at the rate of .00525 cent per kwhr for each full .5 cent increase in the cost of fuel above Base Price A.

If during any monthly period such average cost is less than a base price (Base Price B) of 17.5 cents per 1,000,000 BTU, by at least .5 cent, the bill rendered to the customer for the second succeeding month shall be decreased by an amount equal to the actual kwhrs used during said second month multiplied by .00525 cent per kwhr for each full .5 cent decrease in the cost of fuel below Base Price B.

Upon its completion the new steam electric generating plant of Kentucky Power Company on the Big Sandy River in Lawrence County, Kentucky (Big Sandy Plant), will become the principal source of energy supply for Kentucky Power Company. During the first five months of full scale commercial operation of the Big Sandy Plant, fuel clause adjustments will continue to be billed in accordance with the three preceding paragraphs. Beginning with the sixth month and thereafter, this rate shall be based on the cost of fuel at Kentucky Power Company's Big Sandy Plant instead of on the weighted average cost of fuel of Kentucky Power's present power supplier. Base Price A and Base Price B shall be revised at such time to new amounts to equal 18.5 cents and 17.5 cents, respectively, plus any amount by which the fuel cost of the Big Sandy Plant shall exceed the weighted average fuel cost of Kentucky Power Company's present power supplier, or less the amount by which the weighted average cost of fuel of Kentucky Power Company's present power supplier exceeds the fuel cost of the Big Sandy Plant, as the case may be, both fuel costs being taken to the nearest .1 cent during the fourth month of Big Sandy Plant's full scale commercial operation.

**MINIMUM CHARGE.**

This tariff is subject to a minimum monthly charge of \$6.00 per customer, and adjustments as determined under "Fuel Clause."

**PAYMENT.**

Bills are due and payable at the main or branch offices of the company within 15 days of the mailing date.

**TERM OF CONTRACT.**

Annual.

**SPECIAL TERMS AND CONDITIONS.**

See Sheets No. 2, 3, 4 and 5 for Terms and Conditions of Service.

This tariff is available for single-phase service only. Where 3-phase power service is required and/or where motors or heating equipment are used for commercial or industrial purposes, the applicable general service or power tariff will apply to such power service.

This tariff is available to rural domestic customers engaged principally in agricultural pursuits where service is taken through one meter for residential purposes as well as for the usual farm uses outside the home, but it is not extended to operations of a commercial nature or operations such as processing, preparing or distributing products not raised or produced on the farm, unless such operation is incidental to the usual residential and farm uses.

The company shall have the option of reading meters monthly or bimonthly and rendering bills accordingly. When bills are rendered bimonthly the minimum charge and the quantity of kwhrs in each block of the rate shall be multiplied by 2. If an approved water heater is installed and the customer is billed bimonthly, the kwhrs allowable at the rate of 1 cent per kwhr shall be multiplied by 2, but no kwhrs shall be billed at 1 cent per kwhr until the customer shall have been billed at the rate for the first 400 kwhrs used during the bimonthly period.
