Dear Ms. O' Donnell,

I do not know the current status of my case with LG&E and would like any information you can share with me. Enclosed you will find my usage history for the last seven months for the electrical service at my boat dock. After the complaint was filed and the meter was changed out as you can see the usage has changes considerably. The walkway light bulb has burned out and the electrical usage has stopped. As I stated in my complaint last September when the boat is closed for the winter there should be little to no usage.
