O R D E R

On October 29, 1986, Radio Enterprises of Kentucky, Inc., d/b/a Metro Page, filed a protest to the application of American Paging, Inc. (of Kentucky).

The protestants claimed, among other things, that the proposed services of American Paging are not required by present or future public convenience and necessity.

The Commission is of the opinion and finds that further information is required in this case. The information requested herein is due no later than 20 days from the date of this Order. If the information cannot be provided within this time period, a motion for an extension of time should be submitted stating the reason a delay is necessary and including a date by which the information will be furnished. Such motion will be considered by the Commission.

IT IS ORDERED that:

1. American Paging shall file information, such as a customer survey or requests for service, to demonstrate a specific need for the proposed wide area service. A generic

forecast of growth and demand in the radio paging industry is not sufficient. Any request for confidentiality of the above information shall be filed pursuant to 807 KAR 5:001, Section 7.

2. American Paging shall have the opportunity to file along with its response its comments concerning the other claims of the protestant.
