Original SHEET NO. 7
CANCELLING P.S.C. KY. NO. _____
SHEET NO. _____

RULES AND REGULATIONS

DEPOSIT: A deposit or suitable guarantee equal to 3/12 the average monthly water bill may be required of any customer before water service is supplied. By necessity, the usage of the previous customer will determine the amount or the deposit. The District may refund the deposit after one year with actual interest received. Upon termination of service, any deposit and interest will be applied to any bill unpaid, with any balance being refunded to the customer. The customer may demand the payment of the interest each year or have said interest used as payment of any bill or portion thereof. The District may voluntarily credit the interest toward payment of any bill or portion thereof.

CUSTOMER'S SERVICE LINE: All service lines beyond the metering point must be installed of material as approved by the District, thus insuring the high quality of materials needed for proper service. Materials consisting of copper, galvanized or PVC pipe with rating of not less than 160 PSI is usually acceptable. The size of the service line beyond the point of delivery should not be less than 3/4 inch, however a large line may be required for adequate service. It is recommended that the customer consult with a reputable engineering firm in order to know the proper size of customer's service line. The proper size of the service line is the responsibility of the customer.

INTERRUPTION OF SERVICE: The District will use reasonable diligence in supplying water service and shall make effort to notify effected customers in the event of a service interruption, giving approximate time of service restoration.
